PRESIDENTIAL ADDRESS

## THE FORTY-FOURTH ANNIVERSARY OF THE THEOSOPHICAL SOCIETY

---

### THE PRESIDENTIAL ADDRESS

BRETHREN,

For the first time in thirteen years this Address is written, not spoken, for though I was present at our Forty-fourth Anniversary, held this year at Benares, I had come straight from England, viâ Bombay, and had not therefore had any opportunity of seeing the Reports from the T.S. in the various countries of the world, on which the Annual Address of the President is based. Consequently, I spoke to the members at our Anniversary Meeting on matters of interest to the Society, and left the annual summary to be written later, when the Reports were available for me, and when time could be snatched for the writing.

Last year I spoke of the Society having finished the first of the seven years of its seventh cycle, the year which saw the signing of the Armistice which closed the Great War. The following six years would be the great years of change, and first must "come the clearing away of the ruins of the old systems, the work of which is done". We have seen in that second year of the cycle the noise and tumult of that clearing work, and yet much

remains to be done, so vast and so wide-spread are the ruins of the Old Order. It may well be that the three-and-a-half years which form half the cycle may be spent in that toilsome labour, and that the levelling and preparation of the site for "the great Temple of the New Civilisation" may occupy the second half of this fateful period.

### THE GENERAL WORK OF THE SOCIETY

The most remarkable fact about the Society during 1919 is the extension of its organisation, new National Societies having been added to its roll in Ireland, Canada, Mexico, Chile, Argentina, Brazil and Bulgaria, while Germany, Austria and Hungary were restored; Chile, Argentine and Brazil were received within the year, but the Charters go out next month, while Germany, Austria, Hungary and Bulgaria technically await the ratification of the Peace Treaty.

A new departure made in London also stands prominently out, because of the events which led up to and immediately followed its happening; the new departure was the foundation of the Action Lodge, every member of which must pledge himself to give a definite amount of time, daily, weekly or monthly, for definite work under the direction of the Lodge. The event which led up to it, crystallising an idea which had been in the minds of several for some time, was a visit paid to Austria and Hungary by Dr. Haden Guest, to investigate especially the state of the children in Vienna and Budapest. He brought back a terrible account of the child-population, and the pressing need seemed to call to life the Action Lodge. It furnished a small band of workers, with a demobilised F.T.S. at its head, to carry prompt aid to the starving little ones, and the "Save the Children Fund" made these their almoners to the area visited by Dr. Haden Guest.

### REVIEW OF THEOSOPHICAL ACTIVITIES

Seventy new Lodges have been chartered during the year.

## REVISED LIST OF CHARTERS ISSUED TO THE CLOSE OF 1919

1878	1	1892	298	1906	900
1879	2	1893	344	1907	958

America keeps her place at the head of the list of new members, though losing 1,107 for non-payment of dues and other causes.

India again comes next with 1,063 new members and small losses, and has established 23 new Lodges and revived 16.

France may be congratulated on her record in a year of exceeding difficulty, for she has established ten new Lodges, has enrolled 337 new members, and her membership now stands at 1,822. We welcome joyfully the new National Societies in Ireland, Canada, Mexico, Chile, Argentine, Brazil and Bulgaria, and the return of Germany, Austria and Hungary, raising our roll of National Societies to 31. The numbers of additional Lodges and the increase in membership due to these must remain over till next year, as we shall only then receive their first reports. We have no word from anguished Russia—that is natural, but we do not understand the absence of one from faithful and hard-working Java.

Let us glance at the work of the Societies.

America is much concerned with social problems, and her admirable General Secretary, our good brother A. P. Warrington, takes a keen interest in these. He mentions a White House Conference of Capitalists, Workers and the general public, which discussed for weeks, but finally failed by one reactionary capitalistic vote. Literature is well circulated; in addition to books sent to public libraries—one of the best methods of propaganda—142,000 leaflets and 32,550 booklets have been sent out. Much work in the War Department was done, and the Society established Recreation Halls in camp cities, through the larger of which from 1,500 to 2,000 men passed each month. 240,706 leaflets were distributed; 20,000 copies of *At the Feet of the Master* were given away in war hospitals, and copies in Braille were supplied for some of the blinded. Copies of *Invisible Helpers* were all sent out in Braille. The Theatre Arts Alliance was founded at Los Angeles, as a sequel of the dramatised *Light of Asia* played with such success in Krotona. The Alliance has bought 65 acres of land near Krotona, consisting of a

mountain-surrounded bowl, a natural amphitheatre. There has been some trouble in America in connection with the Liberal Catholic Church, due partly to the surviving Puritan spirit there, kept alive by a Jesuit organisation thought to be dangerous to civic liberty, and partly to an unwise pressing of the Church on those who were not attracted to it, an unwisdom disapproved of both by Bishop Leadbeater and myself. I trust that this unfortunate controversy will disappear, and that all members will recall the fact that the Theosophical Society serves all religions but identifies itself with none.

In England and Wales great educational activity is maintained, as will be seen under "Subsidiary Activities". Propaganda has gone on vigorously, and the plan of a lecturer remaining in a town for a long visit rather than a short one has been much appreciated. Miss Clara Codd has done splendid work and is extraordinarily popular, especially in northern England. Mrs. Grenside has also been very useful in lecturing. Much class work has been done, spreading a sound knowledge of Theosophical teachings. Representative Theosophical libraries have been presented to Serbia and Poland, to replace destroyed books, and propaganda Book Boxes have been found helpful. One leaflet on *Theosophy and the Future*, by Mrs. Baillie-Weaver, has nearly exhausted two editions of 15,000 each. Another form of propaganda has been carried on, the loan of well-executed diagrams and boxes of lantern slides, illustrating Theosophical teachings.

India keeps steadily on with the great work of Theosophising, i.e., spiritualising, all forms of religious, intellectual, social and political work, and the propaganda of the teachings of the Divine Wisdom is well maintained. Frequent attacks on the Society are made by the more violent Extremists, for they find that its harmonising and peace-permeating work is a serious barrier in their efforts to arouse racial hatreds and to utilise religious prejudices in favour of their so-called National policy. As usual their most furious attacks are made against the President, who stands for amity and goodwill between races and peoples.

Australian work was much hampered by the spread of influenza, Convention being forbidden, as were all public meetings. But the presence of Bishop Leadbeater is a continual inspiration, and Australia has been further helped by the long visit of Mr. and Mrs. Jinarājādāsa. He has had very large audiences, especially in Sydney and Queensland, on Theosophy, and has also lectured on Child Welfare and on Art—two of his favourite subjects.

Sweden has parted with Denmark and Iceland, who together form a National Society, the Scandinavian Section thus completing its crystallisation into its four constituent Nationalities. It has thus lost 347 members to the new National Society of Denmark and Iceland, and also 133 members of the original Danish Lodge, which unfortunately insists on attaching itself to Adyar instead of forming part of its National Society. A Northern Federation has been established to keep the Scandinavian countries in touch with each other, despite the linguistic differences which render the autonomy of each Nation convenient for administration and propaganda.

New Zealand, like Australia, has profited by the visit of Mr. and Mrs. Jinarājādāsa, and Miss Christie is ever "a tower of strength". A Theosophical School and College has been opened in a suburb of Auckland.

In the Netherlands many public lectures have been given, and a Theosophic Manual has been issued. An interesting movement has been started in Holland with the active co-operation of the T.S., to form a Federation of free religious groups and societies. A Congress was held, after full preparation. For some reason not explained the National Council decided that it was not a free religious body, but some Lodges joined. I should have thought that the T.S. was emphatically a free religious body. Despite that curious decision, the General Secretary, Miss Dykgraaf, has been invited to preach by a Baptist Church and in a Free Community.

In France, the little Theosophical battle-sheet *Kouroukshetra*, published during the War, has been changed into *Le Messager Théosophique et Social*, a fortnightly journal. The publishing

business is carried on by a firm, established in the Headquarters. The Roman Catholic Fellows of the T.S. do not seem to be much troubled by the Papal ban, and the expansion of the Society is not checked. The meetings are increasingly attended by the public, and the Library and Reading Room have many visitors. As the soldiers return and are demobilised, several Lodges have been able to resume their activities. France has come, during the War, into touch with Theosophists in Rumania, Poland, Tcheko-Slovachia, Yugo-Slavia, and Portugal, and the General Secretary, the ever-devoted Charles Blech, is trying to draw them into groups, as nuclei of future National Societies.

Italy rejoices in welcoming the Trieste Lodge into its National Society, its President, Mr. Grant A. Greenham, having gathered round him the old members and attracted new ones. The *Bolletino* is again a monthly periodical, and the Lodge Torino has been re-awakened by the Countess Dina Baudi di Vesme, who has been elected President.

Cuba always goes on steadily, and keeps up a strong literary propaganda. The movement resulting in the Mexican T.S. is its child. Mr. Rafael de Albear is its ever faithful General Secretary.

Finland has held its Twelfth Annual Congress, and Dr. John Souck, an old Scandinavian member, well known in Finland, who had lately joined the Finnish Section, was elected General Secretary. Resolutions were passed—very properly, if necessary—that members wishing to carry on political and social activities must do so outside the Society by joining organisations engaged in them.

South Africa reports activity. The General Secretary, Miss Murchie, notes that the Durban Lodge, which is very well attended, has never had any rules beyond the attempt to live Brotherhood. The Anglican Synod has had the liberality to declare that Theosophy, Christian Science and Spiritualism are no longer to be banned by the Church but to be examined for the truth in them—a great step. There is hope of establishing a Branch of the Theosophical Fraternity in Education, as many women teachers are earnest in their wish for improvement.

Scotland gives a very modest account of itself. Three District Committees—East, West, and North—have been formed for propaganda and upbuilding.

Switzerland is a subject of much concern, owing to internal dissensions. One side complains of tyranny, the other of factious opposition. It is all regrettably personal, and I cannot but hope that the strong common sense of the Swiss nature will put an end to an embittered controversy, extraordinarily vocal on one side, and silently immovable on the other.

Belgium, "for the first time since 1913" sends a brief Report. During the terrible German occupation, the Theosophical Society joined with a few others to form a "Fédération des Sociétés de Culture Morale," and have had a few meetings and even lectures. The Lodges in Brussels, Antwerp and Liège are working, and lectures are well attended. Only one Lodge has dropped out, and our Belgian brethren look forward to the future with confidence.

Burma has no special activity to report, but Dr. T. M. Manickkam has done some good inspection and lecturing work. The most remarkable fact is the profound belief entertained by eminent Buddhist Phonyis in the Coming of the World-Teacher, and the large Burmese following who look for Him. The T.S. in Burma lost during the year four of its best workers, one of whom, U. Thein Maung, was its oldest member, and will be remembered at our Annual Conventions.

The T.S. in Egypt has not been active, its hardest workers being members of the military and naval forces, who have now left the country. Its Lending Library and Magazine are its chief agents of propaganda. It has some earnest members and will develop.

Denmark and Iceland show a growing interest in Theosophy, and good music is also a characteristic feature of the meetings held. The General Secretary, Countess Ellen Bille Brahé Selby, has done some useful lecturing.

The decision to form the Irish National Society was made in March, 1919, the three Lodges in Dublin, two in Belfast, one in Cork and one in Londonderry being the constituent

Lodges who applied for a Charter on May 9th. The application reached me in London after travelling to Adyar and back again, and was duly signed, sealed, and delivered. May Theosophy help in the rebuilding of Ireland.

#### UNSECTIONALISED

South America sent in a report for 1919, which only reached us on March 3rd, 1920, but which we are able to incorporate here.

The Secretary of the Presidential Agency, Prof. D. F. Valles-Vargas, sends a very full Report, showing great activity, and recording the foundation of the National Societies in South America. His loss will be much felt when he removes to Los Angeles, but we are sure that he will be an added strength to the Cause in his new home. We print the very detailed report, as the work in South America is not so well known as that in other parts of the world.

Two Lodges, one in Finland, the Sokaren, and one in Nairobi, British East Africa, close our T.S. roll. The latter was founded in 1907 by some Indians and Englishmen, who held weekly meetings, but apparently never definitely constituted itself. It vanished for five years. Mr. Kahan Chand Kapoor tried to revive it in 1913 by forming a study class, which also vanished. In May, 1916, came another study class, which followed its predecessor, and a third began in October, 1917. After a time, a Lodge Charter was applied for, and on October 22nd, 1918, the Lodge was formally opened, with Pandit Duni Chand, a veteran from 1907, as President, and eleven members, now 21. Mr. and Mrs. Best's arrival at Nairobi gave more activity to the Lodge, and Mr. C. F. Andrews has written of the help he received from its members. Mr. Kapoor, of the 1913 effort, is the Hon. Secretary. May the Lodge flourish.

#### SUBSIDIARY ACTIVITIES

Some of these most useful offshoots from the Theosophical Society are irregular in sending in their Reports. Thus of those

recorded last year, we have no reports from the Theosophical Educational Trust in Australia and America, the Indian Women's Association (which we know has been very active), and some others, and the Report from the Order of the Star in the East is very short. The Scout Movement has flourished amazingly but sends no Report. Under the liberal Government now ruling in Madras it is encouraged, instead of being opposed as by Lord Pentland. The Society is no longer in the black books of Government, but is treated on its merits, like other useful organisations.

The Theosophical Educational Trust in Great Britain and Ireland sends an admirable report, thanks to its Director and Organising Secretary, Mrs. Ensor, and her fine group of workers. It has now six schools under its direction in England with 456 children, and two affiliated. It has issued four books during the year. Two Scotch schools are now placed under the Scottish Educational Trust, created during the year. New Zealand has also formed a Theosophical Educational Trust.

The Theosophical Fraternity in Education in the United Kingdom is growing, and there are Sections in India, the United States of America, New Zealand and Belgium. Others are forming in Egypt, South Africa, France and Holland, and correspondence has been opened up with Norway, Sweden, Denmark, Switzerland and Algeria. Much may be done by this international exchange of thought and experience.

The League of Parents and Teachers is another useful body touching Education, and its Hon. Secretary, Professor Kulkarni, sends an interesting report of its work and growth. It collected and spent Rs. 2,287-12-3 during the year.

Turning to the Schools connected with us, we have the report of the Olcott Pañchama Free Schools, Madras, admirable as ever, under their devoted Superintendent, Miss Kofel. The Musæus College shows marked progress, and with its Training College and School has been praised by the Government, while its trained Teachers are eagerly snapped up as Head Mistresses in Buddhist Sinhalese Schools. The Indraprastha Hindû Girls School is growing into less of a Junior and more of a Senior

School, as there are many Schools for the little ones but not for the elder girls.

The T. S. Order of Service sends in a good report, including the Braille League, the Servers of the Blind and the League of Healing. The latter has 40 healing groups in it. The Anti-Vivisection League, dormant since the passing away of Dr. Louise Appel, is showing signs of life. Mr. Arthur Burgess is the active Secretary of the Order.

The Round Table in Australia sends in a record of kindly and useful work. The Guild of the Citizens of To-morrow is a young people's movement, as its name implies, and has two years of life behind it.

I give a long report of our Library this year, as we had so brief a notice last year, and I commend to our members the duty of placing the Library in a firmer financial position. Its value to scholars is admittedly great, and in some respects it is unique, but very little is contributed to it. Hence we cannot purchase as we would, and many valuable MSS. are being eaten by white ants in Southern India because we have not money enough to purchase and take care of them.

---

BRETHREN: Last year I had to close on a note of sadness, a sadness too well justified by the events in India of March and April, 1919. This year I can close on a note of hope, for the storm has spent itself, and the future of Indian freedom is secure. There are heavy clouds outside, and the hearts of our Musalmān brethren are sad for the troubles that have come upon their faith. But the troubles are drawing nearer together the hearts of Hindūs and Musalmāns, and are thus strengthening the Brotherhood of Religions, an essential part of our fundamental teaching, the Universal Brotherhood of Man.

---

# THE HEADQUARTERS

## TREASURER'S REPORT

*To the President, T.S.*—In accordance with the alteration of Para 43 of our Rules and Regulations, decided on at the last meeting of the General Council, our balance-sheet has been closed per 31st October instead of per 30th November and the accounts submitted herewith therefore comprise a period of eleven months only. The net result is a small loss of Rs. 284-3-8 as follows :

Disbursements	Rs. 37,625 3 6
Income (exclusive of last year's credit balance)	„ 37,340 15 10
<i>Deficit</i>	Rs. 284 3 8

Our *Income and Disbursement Account* opened on the 1st December, 1918, with a credit balance of Rs. 1,660-4-8, brought over from the previous year, and closes on the 31st October, 1919, with a reduced credit balance of Rs. 1,376-1-0 which is being carried forward to new account. The difference between the two amounts represents the above deficit.

This result may be considered satisfactory in view of the adverse conditions prevailing everywhere, which have affected us in several ways through :

(1) dearness of provisions and materials for our establishment, for building-repairs and for the upkeep of our Electric Installation,

(2) rise in wages of labourers and the necessity of granting a scarcity allowance to all our servants, gardeners and other employees,

(3) the small number of visitors and residents, causing a falling off in our income from rent,

(4) the high rate of £ Stlg. exchange, which has meant a loss to us of Rs. 500 to Rs. 600 on every £100 remitted to Adyar from abroad in payment of annual Dues (exchange has risen from 1s. 4d. per Rupee before the war to 2s. 2d. at the present time, in other words, the value of a £ Stlg. has fallen from Rs. 15 to Rs. 9).

A heavy deficit has been averted mainly through an excess income on *Fees and Dues Account*, which, despite the loss in exchange, has brought in Rs. 16,227-9-7 as against Rs. 12,000 estimated in our budget. Of this amount about Rs. 6,000 represent arrears of Dues for 1918 and further back, which were outstanding when we closed our last balance-sheet, and as Dues amounting to about Rs. 3,500 to Rs. 4,000 are now outstanding for the current year their receipt in new account will more than balance the apparent loss for 1918-19.

Our income from *Garden Produce* amounts to Rs. 3,916-1-6 as against Rs. 3,000 estimated in our budget. Compared with previous years this means a considerable falling off, due to the letting of Damodar Gardens to the Agricultural College of the S.P.N.E. The difference is fully covered by the rent paid to us for this property, which has gone to the credit of *Rent and Interest Account*, and by the saving in working expenses, which has reduced the debit side of *Garden Account*.

*Donations* have come in very sparingly, amounting to Rs. 142 only, for which we thank the donors. There has been a legacy of Rs. 1,417-10-7 from Ivor Edward Champion of New Zealand, who was killed in action in France on the 27th September, 1916, and we also acknowledge with thanks the legacy by an Indian member, Mudiam Nagesa Row, of about 84 acres of land near Gooty and in the Cuddapah District, valued at Rs. 4,000. As we hope to sell this land within the next few months we shall include its actual value in our next balance-sheet, after realisation.

The income of Rs. 15,637-10-2 from *Rent and Interest* is as favourable as could be expected. With a return to more normal conditions we may hope for an improvement in the future.

## EXPENDITURE

Our ordinary expenditure has kept well within budget limits. *Lighting Account* (Rs. 4,875-9-0) had again to bear the cost of rewiring several buildings (Headquarters, Bhojanasala and Quadrangle), as foreseen in last year's report, and the expenditure for *Construction and Repairs*, amounting to Rs. 3,656-6-10, has been rather heavy owing to necessary repairs to Blavatsky Gardens main building and outhouses, the Stables and Lead-beater Chambers. On both these accounts a reduction may be looked forward to in the coming year.

Of the other accounts I need only mention *Dairy*, which unfortunately lost Rs. 1,081-7-6 through dearness of fodder for the cattle, and *Electrical Department*, with a debit balance of Rs. 2,680-10-6, due to unavoidable repairs and maintenance expenses of our electric plant and buildings.

In connection with Electricity I wish to mention that we have ordered from England a new type 30 H. P. Oil Engine with Dynamo, as a spare to relieve our 60 H. P. Suction Gas Engine and to replace our old spare Oil Engine which is worn out and not nearly powerful enough for our requirements. This expenditure is inevitable if we are not to be without electricity some day through a breakdown of our large engine which is now doing practically all the work and needs overhauling as soon as the new engine arrives. The cost will be about Rs. 9,000 to Rs. 10,000 (£900 to £1,000), for which amount we should be glad to receive donations. We cannot defray it from our regular income and do not like to break into our investments if we can possibly avoid it.

## THE ADYAR LIBRARY

As usual our Library Account shows a deficit, though it fortunately amounts to Rs. 1,638-0-10 only, as against Rs. 4,160 foreseen in our budget. Our repeated appeals for donations have met with little response and since our income from interest, etc., is insufficient for even the most economical working we are

obliged to fall back on our *Endowment Fund*, which of late has been reduced from year to year.

Our position is as follows :

Expenditure in 1918-19	Rs. 8,401 13 2
Income           "       "	„ 6,763 12 4
<i>Deficit</i>	Rs. 1,638 0 10
<hr/>	
<i>Endowment Fund</i> : On 1st December, 1918	Rs. 96,390 11 8
Deduct Deficit, as above	„ 1,638 0 10
	<hr/>
<i>Balance on 31st October, 1919</i>	Rs. 94,752 10 10
	<hr/>

During the coming year there will be some extra expenditure for literary work (new publications by the Director of the Library) which had been postponed for some time in view of our financial difficulties and the high cost of printing, but which should now be taken in hand.

The Library Budget for 1919-20 stands as follows :

Estimated Expenditure	Rs. 10,700
„ Income	„ 6,520
	<hr/>
<i>Deficit</i>	Rs. 4,180 (£418)
	<hr/>

This amount, plus Rs. 9,000 to Rs. 10,000 (£900 to £1,000) for our new engine, constitute our needs for the coming year, to which I take the liberty of drawing the attention of members who may wish, and be in a position, to help our Adyar Headquarters.

A. SCHWARZ,  
Treasurer, T.S.

---

P.S.—An English member has suggested to us that our accounts might be published with double columns stating the amounts in *Rupees* and *£ Sterling*, as figures in Rupees only convey no real meaning to most of our members living outside

of India. Just at present we do not consider this advisable, owing to the constant fluctuations of the relative values of Rupees and £ Stlg. For many years, till 1914, £1 equalled Rs. 15; a year ago the rate of exchange had sunk to Rs. 13, and to-day (November, 1919) it stands at Rs. 9 per £ Stlg. When dealing with large amounts this makes a considerable difference, and it might be confusing to find, say, our *General Fund* of Rs. 495,788 stated in one year as equal to £33,052, at the rate of Rs. 15 per £ Stlg., and in another year as £49,579, at the rate of Rs. 10.

Anyone wishing to read our figures in terms of £ Stlg. at *approximately* the present rate of exchange need only make the simple calculation of dividing the Rupee amounts by 10, *e.g.*, Rs. 75,000—value of our Library Books and MSS.—are equal to about £7,500.

A. S.

## THE ADYAR LIBRARY

*To the President, T.S.*—I have the honour to submit herewith my report of the Adyar Library for the year 1919. This is the thirty-third year of its existence as a combined library of Eastern and Western literature. The Eastern Section was formally opened in 1886, while the Western Section had been in existence as a slowly developing nucleus even before that date, ever since the Theosophical Society was transferred to India by the Founders.

At this stage in the life of the Library in its combined aspect when it has completed the definite period of one-third of a century of its working, one is naturally inclined to go back to the time of its inauguration and to reflect upon its growth through all the years that have sped away. Very pleasant reminiscences rise up in my mind, as I am one of the few surviving members of the Society who witnessed the unique religious ceremony of its inauguration in which priests of all the great religions took part. I was also in intimate touch with the President-Founder, Col. Olcott, whose interest in the Library was all-absorbing and who often invited my suggestions about the working of the Library. As a student of Samskrit literature in its higher and more serious aspects, I have been watching the steady growth of the library ever since its foundation, and I have also had the good fortune of being in direct charge of the Library since July, 1916. It gives me therefore no small pleasure to be able to state that in this comparatively short period and with very limited pecuniary resources at its disposal, it has grown to be one of the foremost libraries of its character in the world. Not a few of the experts in the Science of Libraries who have visited the institution have

declared it to be a unique literary collection, ranging over a vast and varied field, arranged in an up-to-date system. In point of occult literature of various sorts its collection is unrivalled. It is certainly one of the best collections in Samskrit literature in manuscript and print. It is mostly resorted to by research students for works bearing on early and mediæval Indian history. It is specially rich in literature relating to the Upanishats, which has received particular attention from its past and present Directors. There are in India few equally good collections of works in original and translation relating to the descriptive accounts, history, and religions of Tibet, China, Japan, Burma, Siam, Ceylon and other countries in the Far East. To help one to form a true estimate of the attention and labour bestowed on the Library by the President-Founder of the T. S. and his worthy successor and others concerned in the administration, I append to this report a statement showing its present contents in printed books and MSS. and the literary output.

In the year that is just ending the work of the Library in all its branches has been steadily carried forward. The several catalogues of the Eastern Section which had been in hand in the previous year were completed and are available to the visitors for reference. The editing of Samskrit texts was continued. The volume of the Yoga Section of the one hundred and eight Upanishats was made ready for the press, while the next volume of the Upanishats treating of what is known as pure Vedānta was half ready. Thanks to the termination of the war, it has been possible to resume in the closing months of the year, after three years of suspense, the work of printing Samskrit texts. As a result the next year may see the publication of the second volume of the Upanishats series and of some of the catalogues of the Eastern Section.

The financial condition of the Library has not materially improved. The effects of the great war are still visible in the absence of any large donations to the Library by its members and friends abroad. The result is that the purchase of books and MSS. has not attained its normal level; and certainly a

high standard is expected of the Adyar Library which concerns itself with a vast range of the world-literature.

With these few words on the general condition and outlook of the library I proceed to give a detailed account of the work done in the year. As only a short summary of the work for 1918 appeared in the Annual Report of the Theosophical Society and was not separately published, details relating to that year's work also will be embodied in this report which mainly relates to 1919.

#### CHANGES IN THE STAFF

In the course of the half year that is now coming to a close there has been much change in the personnel of the staff. The Head Pandit Krishna Sarma having been in continued ill health due to the peculiar climatic condition of Madras which did not agree with him, he was advised to accept the offer of a Samskrit teacher's place in his native province of Cochin. He left us early in July and his work was distributed among the remaining four pandits. The pay of the pandit thus released was with the approval of the President utilised in raising the pay of the remaining members of the subordinate staff. The Library has suffered serious loss in the death of Mr. Siva Rao, the Indexer, and of Munisamy, the Chief Attender. The latter, having served the Library for twenty-six years, had an intimate knowledge of the whereabouts of the contents of the whole Library, catalogued and uncatalogued, and acted in a way as a referee on all matters of the Library's unrecorded tradition. To add to this loss Mr. R. Nammiah, the Classifier and Librarian, resigned his connection with the Library to take up a place in the Government Oversea Service in Mesopotamia. By way of filling up these vacancies a Junior Attender has been appointed to the vacant place among the attenders, and Mr. B. S. Ramasubba Aiyar, a devoted member of the Theosophical Society, has been appointed Library Assistant. The latter does all the clerical work that used to be done by Munisamy and Mr. R. Nammiah.

## WORK OF THE STAFF

*Eastern Section.*—Pandits Krishna Sarma and Venkatarama Sastri were engaged in the preparation of descriptive notices of Samskrit MSS. already roughly catalogued and also of those newly acquired. Owing to long absence on sick leave and to his weakness while on duty, Krishna Sharma's share of cataloguing did not make satisfactory progress. The other pandit steadily went on with the work entrusted to him, and he not only finished his share, but also did what was left unfinished by Krishna Sarma. Pandit Ramanatha Sastri was all the time engaged in preparing a supplementary volume to the Preliminary list of MSS. published in 1910. This work involved much consideration and comparison and he has just finished it bringing down the list up-to-date. Pandit Gopala Aiyar was as usual mostly engaged in dealing with new accessions of all kinds in the Eastern Section and maintaining the registers concerned. Over and above the special kind of work each had thus to do, these pandits had to assist me in collating the Samskrit texts which I am engaged in editing and publishing for the Library.

*Western Section.*—Mr. R. Nammiah was mainly engaged in dealing with new accessions to the Western Section, maintaining the several registers relating thereto. He had besides to attend to the binding department of the Library and to maintain the registers of the general correspondence. Mr. Siva Rao continued the indexing of the contents of *The Theosophist*. Both he and Mr. Nammiah did also some analytical cataloguing, dealing with some of the periodical magazines containing articles on oriental literature.

## SEARCH FOR MSS.

No member of the Library staff was deputed to the work of searching for rare MSS. abroad in the two years under review, chiefly from financial considerations, the limited funds at my disposal having been utilised for the more urgent needs of the

Library such as the purchase of rare MSS. offered for sale and in getting transcripts of old and rare works available nearer home. Advantage was, however, taken of the services of friends touring abroad in search for MSS. on their own account, such as Pandit R. A. Sastri, who supplied information as to where rare MSS. were available for sale or for loan. On getting such information I arranged to secure the works for the library by purchase or by transcription. The MSS. so obtained constituted the collections made in 1918 and 1919. The new acquisitions have been duly examined and embodied in the detailed subject catalogue, thus becoming available to the visitors for easy reference. The whole classified catalogue will soon be ready for publication, so that even outsiders who cannot personally visit the library may know their exact condition. The copying of the Upanishad-Brahmendra's Commentary on 108 Upanishats referred to in my last published report was completed, and the transcript was carefully compared with the original. It is now going through the editorial process. In the course of last year's search, I was lucky enough to come by a second complete copy of the same commentary quite independent of the one from which our copy was made. The acquisition of a second copy of the commentary just on the eve of the week when the edition based on a single copy was to be sent to the press, augurs well for the correctness of the edition of such an important work as the Upanishats.

#### CATALOGUING

*Eastern Section.*—The detailed subject catalogue of Samskrit printed works in the library was brought up-to-date and is being re-arranged for publication. A similar catalogue of Samskrit MSS. already available for reference in the library is being made ready for publication. The supplement to the Preliminary list of Samskrit and Prakrit MSS. in the library, bringing the list up-to-date, is quite ready for printing. It is proposed to publish these one after another in the course of the next year or two.

*Western Section.*—I was for some time engaged on a detailed subject-catalogue of works on Indian literature in this section; but this work was not completed owing to the exacting nature of the editing work I am now engaged in. I hope to be able to finish it when in the course of the next year the pandits will have learnt enough of editing work and will be able independently to edit the Samskrit texts now in hand. Some analytical cataloguing was done by Messrs. R. Nammiah and Siva Rao. All the essays and articles relating to Indian subjects on History, Religion and Philosophy contained in the following journals were catalogued separately under titles, subjects and authors :

Transactions of the Asiatic Society of Japan, Mind, Indian Review, Anthropolos, Folklore Record, Folklore Journal, Folklore, Modern Review, Calcutta Review, Light, Rosicrucian Brotherhood, The Path, Mercury, American Section Journal, Message of Theosophy (Rangoon), Theosophy in Australasia, Lotus Bud's Journal, Halcyon, Lotus Journal, Indian Antiquary, The Pandit, Indian Thought, Annual Report of the Smithsonian Institution for 1913 and 1914.

The indexing of *The Theosophist* which was the chief work in which Mr. Siva Rao was engaged has been left incomplete, and the confused state of the existing materials seems to present great difficulties to one who will undertake to complete it.

#### EDITORIAL WORK

Dr. Schrader, my predecessor, undertook for the Library a very important work, namely, an edition of one hundred and eight Upanishats, and collected materials which he considered sufficient for the purpose. In pursuance of a scheme projected by him he published one volume of twenty Upanishats which bore on the one subject of Samnyāsa with explanatory and critical notes and promised to follow it up immediately with a second volume containing Upanishats treating of Yoga and of another giving an English Translation of the Samnyāsa Upanishats. But for reasons not stated by himself he diverted his attention to another work, the Ahirbudhnya Samhita, belonging

to quite a different category, *viz.*, the Tāntric cult. He had, owing to the War, to sever his connection with the library just on the eve of the completion of this latter work. On succeeding him as Director of the Library I resumed the work of editing Upanishats and began to collect more materials. Fortunately I have come across a complete commentary by a single author on all the one hundred and eight Upanishats beginning with the *Isa Upanishat* and ending with the *Muktikopanishat*. This commentary by Upanishad-Brahmendra-Yogin is of a recent date, not being more than a century old. It is nevertheless a valuable one as enabling the student to make out the meaning of the many obscure passages in which these mystical treatises abound, and to fix the text as current in its entirety in the time of the commentator. My edition of the whole Yoga Section of the so-called minor Upanishats, numbering twenty in all, with the commentary above referred to, is now in the press, and this volume of nearly 600 pages will be published in the course of the next year. Already 120 pages of the volume have been printed in the course of the last two months of the year. The Vasanṭā Press in which it is printed is doing the work with commendable care and speed.

#### ADDITIONS TO THE LIBRARY

The additions to the Library during the two years are as follows :

	1918	1919	Total
<i>Eastern Section.</i> —Printed Books	245	101	346
Manuscripts	137	234	371
<i>Western Section.</i> —Printed Books and } pamphlets	391	394	785

Of the 371 MSS. added to the Library 254 were old ones acquired by purchase and 117 were new transcripts specially prepared for the library from the old ones kindly lent by their owners for the purpose. The Samskrit MSS. acquired in these two years include many Vaidic works found rarely in Northern India and not met with at all in the South. I append to this report lists of the noteworthy manuscript and printed works

among the additions made thus to the library in these two years.

Most of the additions to the Eastern Section were acquired by purchase, while those in the Western Section consisted of presentations (of books, pamphlets and magazines) by friends of the Library. The principal donors are as follows :

Theosophical Publishing House—1918: 96 books and 57 pamphlets; 1919: 139 books and 111 pamphlets. Mrs. Annie Besant—1918: 24 books and 28 pamphlets; 1919: 27 books and 15 pamphlets. Mr. C. Jinarājadāsa—1918: 25 books and 37 pamphlets; 1919: 4 books. The Government of India Printing Department, Calcutta—1919: 9 books. Mrs. A. E. Adair—1918: 8 books; 1919: 2 books. Mr. Y. Sreenivasa Rao—1918: 6 books. Gulistan Library—1918: 6 books. Rai Bahadur Panda Baijnath—1918: 4 books. Mr. A. Mahadeva Sastry—1918: 2 books; 1919: 1 book. Saw Hla Pru—1918: 2 books. Rangoon T.S. Lodge—1918: 2 books. University of Illinois—1918: 1 book and 13 pamphlets. Bhishag-acharya Pandit H. Subbaraya Sastri—1918: 3 pamphlets. Miss Fuller—1919: 2 books.

Sankar Mutt, Kumbakonam, Prof. Agashe, Library of the Congress (Washington), Messrs. A. C. Woolner, Mr. A. Ismael Valdes, Mr. E. S. Wailing, Mr. J. R. Aria, Mr. B. P. Wadia, Mr. R. N. Tatia, Michigan Library, Government Press, Madras, Mr. D. Rajagopalacharya, Mr. N. B. Pavgee, Sir John Woodroffe, Mr. M. Subramania Aiyar, Mr. R. S. Narayanaswami Aiyar, Mr. C. A. Subramania Aiyar (one book or pamphlet each).

#### BINDING

The following statement shows the amount of binding work done in the two years :

				Books	Pamphlets
1918	...	...	...	470	334
1919	...	...	...	346	149

As the binding work has been going on continuously and systematically for the last five years, the work has now come to its normal limits, being confined to the new accessions and to the few old volumes worn out by frequent handling.

#### EXCHANGES

Copies of the Annual Report of the Adyar Library for 1917 were sent out as usual to the libraries all over the world,

except those in the countries with which the British Empire was at war. Forty-one of the libraries responded sending reports, book-lists, bibliographies, bulletins, etc., in exchange. Of these 15 belong to the British Empire, 21 to the United States, 2 to Switzerland, 2 to Japan, and 1 to Holland.

#### USE OF THE LIBRARY

The following statement shows the use made of the library :

	1918	1919
Books read in the Library	821	737
MSS.   "       "	127	118
Books lent out	911	864
MSS.       "	38	51
Visitors to the Library	2,230	2,240

It has to be noted in this connection that this library, owing to the nature of its contents and its location outside the busy parts of the city of Madras, is resorted to only by serious students who seek information not available in the city libraries.

A. MAHADEVA SASTRI,

*Director.*

## APPENDIX III

### PRINCIPAL PRINTED WORKS ADDED

TO THE LIBRARY IN 1918—19

#### EASTERN SECTION

1. Viṣṇuṭīlakasamhitā (Pāñcharātra).
2. Advaitasiḍḍhi with commentaries.
3. Vyākaraṇadīpikā (Pāṇinisūtra vṛtti).
4. Works of Śrī Sankarāchārya (Memorial Edition), 20 Vols.
5. Bhagavadgītārahasya, by B. G. Tilak.
6. Andhraviṇṇānasarvasvamu (Telugu Encyclopædia), 2 Vols.
7. Samkṣepasārīraka (Ānandāśrama), 2 Vols.
8. Brahmasūtravṛtti, by Hariḍikṣita (Ānandasrama).
9. Nāmalingānusāsana with the ṭikā of Kṣīrasvāmin.
10. Alankāramāṇihāra, by Śrī Parakalasvamin.
11. Kānvasamhitābhāṣyam Śāyapīyam.
12. Kāmasūtra with Jayamangalavyākhyā.
13. Brahmasūtra with Bhāmaṭī and other Commentaries.
14. Saṭṭaṭṭvaratnamālā, by Ānandatīrtha with Prakāśikā.
15. Śrīmad-Bhāgavata with Bhakṭaraṇjanī-ṭikā, 4 Vols.
16. Mudgala-purāṇam, 4 Vols.
17. Ṛgveda-Samhitā in Tamil, 2 Vols.

#### WESTERN SECTION

1918

1. Introduction to the Study of Indian Economics.
2. Indian Administration.
3. The Great Initiates, 2 Vols.
4. Pallava Antiquities.
5. Christianity as Mystical Fact and the Mysteries of Antiquity.
6. An Outline of Occult Science.
7. Vaisesika Philosophy according to the Dasapadārtha Sastra.
8. Tribes and Castes of the Central Provinces of India, 4 Vols.
9. An account of the different existing systems of Sanskrit Grammar.
10. Commemorative Essays presented to Sir R. G. Bhandarkar.

11. Annual Report of the Smithsonian Institution and Bureau of American Ethnology, 3 Vols.
12. Sacrifice and Other Plays of Tagore.
13. Recollections by John Morley, 2 Vols.
14. Beginnings of Buddhist Art.
15. Parsis in India, 2 Vols.
16. Buddhist Essays.
17. Indian Historical Studies.
18. Portuguese Discoveries, Dependencies, and Missions in Asia and Africa.
19. The Rise of the British Power in the East.
20. Private Letters of the Marquess of Dalhousie.
21. Private Diary of Ananda Ranga Pillai from 1736 to 1761, 2 Vols.
22. The Rig-veda by Kaegi.
23. The Early History of India.
24. Akbar, the Great Mogul.
25. My Days and Dreams.
26. Raymond or Life and Death.
27. Intermediate Types among Primitive Folk.
28. Copper plate inscriptions belonging to Sri Sankaracharya of the Kamakoti-pitha.
29. Essays in Scientific Synthesis.
30. Orpheus.
31. Principles of Social Reconstruction.

## 1919

1. Index to the names of the Mahābhārata.
2. The Encyclopædia Sinica.
3. Towards Racial Health.
4. Lives of the Saints, 16 Vols.
5. Fourteen Years a Jesuit, 2 Vols.
6. The Kingdom of the Yellow Robe.
7. Records of the Intelligence Department. N.W.P. Indian Mutiny, 1857, 2 Vols.
8. Encyclopædia of Religion and Ethics, 10th Vol.
9. Ethno-Botany of the Tewa Indians.
10. Physical Anthropology of the Lenape or Delawares and of the Eastern Indians in general.
11. Analytical and Critical Bibliography of the tribes of Tierra Del fuys and adjacent territory.
12. A Guide to Sanchi.
13. A Guide to Taxilla.
14. Inscriptions of the Madras Presidency, 3 Vols.
15. Calcutta University Commission Report, 7 Vols.
16. Cecil John Rhodes.
17. Great English Portrait painters of the eighteenth century.
18. Self-Government in India, Vaidic and Post-vaidic.

REPORTS OF THE GENERAL  
SECRETARIES OF THE  
NATIONAL SOCIETIES

## THE T.S. IN AMERICA

*To the President, T.S.*—I have pleasure in presenting again a report of the American Section, T.S.—this time, so far as statistics go, covering the annual period ending June 30, 1919, but otherwise including data compiled as late as October, 1919.

*Lecturers.*—This year, as last, found four of our principal National Lecturers out of the American field—Mr. Rogers and Mr. Cooper being still in Australia, Mr. Knudsen in Hawaii, and Capt. Wardall in the army. The field was held, however, by National Lecturer Munson, by Divisional Lecturers Watson, Bartlett and Hanchett, the latter of whom has since been made a National Lecturer. Mr. Hanchett was accompanied by Mrs. Hanchett in his extensive tours. Dr. Strong's activities have been confined to Southern California, where he has drawn perhaps the largest audiences that any of our speakers have ever drawn there. Dr. Frank L. Riley, well known in England and America for his profound researches in comparative religion, continued his regular lectures at Krotona.

I made a tour of the principal Atlantic Coast and Great Lakes Lodges, including a few in Canada during the past winter. Owing to the generous efforts of the Wetherill family of Philadelphia, many of whom are Theosophists, I was enabled to speak before many audiences of the leading people of that city. My design was to suggest wherever I went a plan for bending the polarised ends of the great social problem fraternally together, so as to create the social magnet that would produce lines of force, constructive and co-operative, on behalf of human brotherhood.

Since then President Wilson called a White House Conference of representatives of Capital, Labour and the public in the hope that some constructive programme might be instituted that would bring these vital elements of our public life into a permanent and satisfactory relationship with one another. His move was that of a great statesman, but unfortunately after some weeks of discussion the conference failed of its purpose, because of one reactionary capitalistic vote. Labour is aroused to indignation and at this writing the situation looks grave.

*Membership.*—Judged by the departmental reports of the year the work in general has gone steadily forward. While the number of members dropping out from non-payment of dues, called “inactive members” increased from 511 in 1917 to 880 in 1918, and 1,107 in 1919, due to the war and to various idealistic calls responded to by the members, yet the net results have nevertheless shown a steady gain each year in the remaining “active membership”. Moreover, although the decrease in the new membership from 1917 to 1918 was 534 members, yet there was an increase of active membership of 428; and although the decrease in the new membership from 1918 to 1919 was 20, yet there was an increase of active membership of 213. So that on June 30, 1919, we closed the fiscal year with 7,048 active members, or 641 more than in 1917 at a time when America had scarcely gotten into the War.

*Finance.*—Owing to a bequest remitted within the fiscal year, but misplaced by an intermediary and therefore was received only a few days after the year closed, we were able to meet all the expenses of administration under the strain of increased costs without trenching upon our reserve of \$ 2,550. At the September Convention an increase in dues was voted to take effect in a year, not affecting however husband and wife where both are members, whose dues remain unchanged, or children save to reduce their dues. It is hoped that this modification may help to meet the constantly increasing cost of administration due to high prices.

*Publicity.*—The report of the Publicity Department shows that the receipts of that department were doubled and that

142,000 leaflets and 32,550 booklets were sent out under a carefully worked out plan. Also, that books have been furnished to public libraries, and experimental advertising in prominent journals has brought good results.

As an arm of this department there has been organised the Order of Field Servers whose duties will consist of training a corps of willing workers to go out in the Section to help weak Lodges, to train Lodge class teachers, to suggest helpful methods of Lodge government where desired, to instruct Lodge officers in publicity methods, to establish book departments and in all ways to endeavour to revive, strengthen and stimulate the work of Lodges that need such services.

*The War Department.*—The Bureaus occupy about their usual status. The War Department has been very active under the management of Mrs. Laura Stevens Wood, as War Secretary. In all it has received \$10,815.62 and disbursed \$9,234.21, the contributions having come from over 5,000 members. The campaign began in May, 1918, and was proceeding vigorously when the armistice was signed. Through the activities of this department Theosophy has been carried well nigh around the world, thousands have heard of it for the first time, new territory has been entered at home, nine new Lodges have been organised, and many members added to the membership rolls. Indeed it has had a measurably stimulating effect on all the departments of the work.

Recreation halls were established by this department in many camp cities. From 1,500 to 2,000 men passed through the larger halls each month. A total of 240,700 leaflets were distributed, reaching camps and thousands of homes throughout the U.S.A. and the trenches in France.

Ten thousand copies of *At the Feet of the Master* were given away to the soldiers and 10,000 miniature editions are now being distributed at the various army hospitals. Approximately 4,500 books have been bought through this department from the T.P.H. and circulating libraries have been placed in many cities.

Copies of *At the Feet of the Master*, in revised Braille, have been provided for blinded soldiers in the Army. Also twenty

copies of *Invisible Helpers* in Braille were placed in the Library of one of the hospitals for the blind.

After the close of the War, the work at the recreation halls was lessened for the work of greater importance in the hospitals. The War Secretary has visited most of the hospitals in the South, seeing men in every form of mutilation and disability. It was touching to hear her say how eagerly the poor hands went out for the "little blue book," as she distributed *At the Feet of the Master*. Everywhere she received the fullest consideration and co-operation of the camp authorities.

*The T.P.H.*—The book sales of the American Branch of the Theosophical Publishing House show wholesome progress. Under Mrs. Broenniman's cautious management the business has been put on a sound financial basis. The book sales have increased gradually year by year, until those of the year ending in 1919 amounted to double those of the third year before.

*Education.*—The School of the Open Gate which was announced in last year's report, has passed successfully its first year, under the able management of its foundress, Mrs. Mary Gray, and her skilful corps of teachers. At the end of the period additional property of very desirable character was acquired by lease and a boarding school was established. During the present year the training will be extended up to the college grade.

In order that provision may be made for this grade, the Krotona Institute has adopted resolutions for the extension of its activities so as to become a University, and thus to provide the higher grades which the School of the Open Gate cannot do. For this time and money will be required, but it is hoped the time may be shortened by the zeal that is felt for the undertaking.

*The Theatre Arts Alliance.*—One of the significant events of the year was the foundation of the Theatre Arts Alliance at Los Angeles, for the purpose of creating a centre of the dramatic arts to which art lovers might make annual pilgrimages to witness such productions as *The Light of Asia*, which was presented at Krotona last year, and other religious or

mystery dramas of like nature, besides such other plays of high dignity and spiritual bearing as seldom come before the public. In order to carry out their ideals, the Alliance has bought 65 acres of remarkably conditioned land within a mile of Krotona, consisting of a bowl neatly sequestered right in the lap of the mountains and including all the acreage within the entire visible rim. Although there are many Theosophists on the governing board who aided in its formation, including Mrs. Stevenson and Mrs. Walton, the producer and the dramatiser, respectively, of *The Light of Asia*, as well as myself, yet the energy and force behind the movement are non-Theosophical residents of Los Angeles, who had determined that our wonderful Krotona performance must not be lost to the future. And so they proceeded with our assistance to organise this movement, chiefly with Los Angeles capital. This movement provides an open field for strong Theosophical dramas that fulfil the requirements of art, and it is to be hoped that the opportunity may be fully embraced, for to-day there is no pulpit as powerful as the stage.

*Passing Storm.*—In some respects the American Section in the past has distinguished itself as an occasional centre of storms in the Society. Since 1906 when I attended my first Convention there have been many such, and before that there were others. Fortunately all were successfully weathered.

This year the nominal *casus belli* was the Liberal Catholic Church. Some devoted members sought to save their beloved Society from a fancied Catholic menace by circulating petition throughout the Section just a few days before Convention, praying that a resolution be adopted forbidding ordained priests of the Liberal Catholic Church from holding hereafter any national or divisional office in this Section. Mr. Hugh R. Gillespie was appointed to argue the case for the proponents in Convention, and produced petitions with seven hundred and odd names thereto. The matter was fully discussed in convention and I am happy to report that the resolution appearing in the petition was overwhelmingly lost, and a counter resolution was adopted declaring the present organic plan of the Section to be a

sufficient protection from any future undue influence upon it. Our members are displaying a clear commonsense judgment about the question, and on the whole remain undisturbed.

*The Convention.*—The Convention this year was held in the beautiful Edgewater Beach Hotel on the North shore of Lake Michigan in Chicago, away from screeching locomotives and the clashing nerve-tiring traffic of the streets such as we have had to endure in that (and other cities) during previous gatherings. The relief was delightful and marked a step in the direction of planning our future Conventions on the basis of the Theosophical knowledge we have long possessed.

Aside from the discussion over the L.C.C. and the change in the dues already adverted to, there was but little of importance to report, save the happy circumstances that the Convention sent its hearty greetings to yourself, Mr. Leadbeater, Mr. Jinarājadāsa, Mr. Arundale and Mr. Wadia, and hoped for a visit from all of you whenever possible.

*Conclusion.*—We of this Section, although sorely missing the upliftment of your presence, and indeed also that of Mr. Leadbeater and Mr. Jinarājadāsa, during the past ten years, yet realise the momentous importance of the varied work that keeps you in other lands. In the circumstances we can at least but work so as to give you the greatest support in your very great tasks, and that we try to do.

With renewed assurances of our loyal co-operation and devotion, I am

A. P. WARRINGTON,

*General Secretary.*

---

## THE T.S. IN ENGLAND AND WALES

YEAR 1918—1919

*To the President, T.S.*—I do not know what has hitherto been the practice of my predecessors in the office of General Secretary, when called upon to make a report to you in respect of a year during part of which the Society in England and Wales has had the great happiness and advantage of your residence in its national area. To me it seems that, in such circumstances, it is appropriate—nay, inevitable—that I should confine myself to the months of your absence (in this case seven) except in so far as it is my duty to present statistics of membership, number of Lodges, and so forth. It would surely be a work of supererogation to tell you about a Convention, the special value and attractiveness of which you yourself constituted, or to give you my impressions of conditions of which you can judge better for yourself, or to chronicle to you the activities of those five months, which have consisted principally of your own extraordinary programme of work.

*Allied Activities.*—In giving, then, an account, limited in this fashion, of the work during the year, I have followed the plan adopted in the case of my report for the year 1917—18. Instead of summarising the reports of allied but distinctive activities kindly furnished to me at my request, and including such summary in my own report, as was done in previous years, I am sending such reports as they stand, hoping that it will be possible to print them in full as appendices to my Report.

*Foundation Day, 1918.*—On November 17th, 1918, a meeting was held at the Mortimer Halls to celebrate the “official” birthday of the Theosophical Society. Mr. Sinnett gave an interesting résumé of the history of the Society, which was

especially valuable, as many of those present were new members who naturally knew little of its beginnings. Some beautiful music was provided by Miss Winifred Smith, Miss Gunn and Miss Walker.

*White Lotus Day, 1919.*—On May 8th, members gathered in large numbers in the Mortimer Halls to celebrate White Lotus Day. It had been decided to alter a little the character of the meeting, and it was suggested in the *Vahan* that all who cared to do so should bring their flowers with them and lay them before the portrait of H.P.B. It was regarded in the light of an experiment, and many of us were surprised at the volume and whole-heartedness of the response. The usual readings were given, after a few words by the Chairman; then all who cared were invited to bring their flowers. It was one of the most impressive meetings we have ever had. When all had laid down their flowers and returned to their seats, the Roll of Honour of our National Society was read, with a few words of remembrance and affection; all stood in silence for a few minutes, and then we dispersed quietly to our homes.

*October 1st, 1919.*—There is no need for me to mention the unofficial gathering of members of the Society at the Mortimer Halls, London, on the evening of your birthday. You gave us the benediction of your presence on that occasion, and we were able to express in a tangible way something of our deep affection for you and of our profound gratitude for your long services to the Theosophical Society and to the world.

*Propaganda.*—Propaganda has taken the form this year of long visits and tours rather than of "weeks", though several successful "weeks" have also been organised. Miss Clara Codd especially has spent much time in the same place. September and October, 1918, were given to Ireland, and November and December again to Bradford, where fresh Centres were formed. A month in London followed in the New Year, and then another Northern Tour, taking in Manchester, Rochdale, Rotherham, and Colwyn Bay. Two meetings at Llandudno resulted in the formation of a Centre with a study circle of 25 members. Mrs. Grenside made a successful tour in

Kent. She also toured the new Eastern Federation on becoming its President. A visit to a Canadian Y.M.C.A. Camp at Witley; "weeks" at Manchester and Sheffield; a remarkably successful tour in Scotland; and a "week" at Letchworth, were also accomplished by her. The series of London Propaganda Sunday Evening meetings at the Mortimer Halls have been continued, with steadily increasing audiences and an ever-growing band of enquirers. It is interesting to note the growth of our audience since those meetings were first started in the little "tin annexe" in Tavistock Square some years ago. To-day, as then, the limitations of the hall control the number of the audience, but now the seating capacity is close on double that of 1912, and frequently does not suffice. At the Brompton Rooms in the West End, there are now as many as four classes running, and afternoon and evening public meetings have been continued. The Executive Committee of the National Society has again become directly responsible for this activity, and a Sub-Committee has been appointed to look after the arrangements. New and more commodious and imposing premises have been acquired on the first floor of the same house which will, it is hoped, attract a wider and ever-increasing amount of interest. A number of classes have been successfully maintained during the year, and several fresh ones started. Miss Helena Clarke and Mrs. Grenside at Headquarters; Miss K. Browning in connection with the Central London Lodge; Mr. E. L. Gardner at the Mortimer Halls; Mrs. Powell, Mrs. Betts and Mr. Dunlop, have all given their services in this most important activity. In answer to an urgent appeal from the "Committee for Promoting an Intellectual Entente among the Allied and Friendly Countries" (an activity of the Royal Society of Literature) for books to help to reconstruct the destroyed libraries of Serbia, a representative selection of 78 books, nearly £20 in value, were presented by the Theosophical Society in this country, and were received with much appreciation. (Subsequently, a Fellow of the Theosophical Society made himself responsible for the amount so spent.) *The Theosophist* has

been sent to 44 libraries this year. Sixteen books have been presented by request to six Public Libraries, thus carrying on the work started in 1917. The demand for free literature has much increased, and several reprints of our Elementary Leaflets had to be made; two new ones, No. 5, *After Death—What?* and No. 6, *The Brotherhood of Man* were added to the series, and No. 7 dealing with Karma is in the press. The Propaganda Department further reports that a special leaflet *Theosophy and the Future*, by G. Colmore (Mrs. Baillie-Weaver), has had a phenomenal success. Nothing that has been issued, with the exception of *The King's Uniform*, has received such a welcome. The Lodges have already taken 11,150 copies; Adult Schools, various Leagues and Educational Authorities have disposed of some 5,000 more, and Ireland has now asked for 1,000. The first edition vanished in the first month of issue, and a second 15,000 is being exhausted. Seventeen Propaganda Book Boxes are in circulation. A permanent poster, a hundred copies of which are in the Inner Circle Metropolitan Trains, has been kept up during the year.

*Bow Road Club.*—The Bow Road Club in the East End of London has become a place of varied Social, Religious and other activities. There is much political and social work being done in the neighbourhood, local feeling runs high on questions of the day, and a great deal of tact is necessary in welding the different elements together. This has to some extent been accomplished. There is need of Theosophical teaching here to throw light on the problems of life, but many who do not feel the need of this have come to look upon the Theosophical Movement as friendly and helpful to them in various other ways. It is therefore necessary to show as "Catholic" an attitude as possible and to encourage a great variety of activities on the premises. A glance at the Club's programme would prove that this principle has been adhered to.

*Diagrams and Lantern Slides.*—Diagrams are always useful in elucidating points in private and general study, and sometimes for larger audiences, while Lantern Slides appeal to

everyone, and the Department devoted to these at Headquarters has had an increasing number of applications for their loan from Lodges in all parts of the country. A considerable number of beautifully executed diagrams are now available, touching many branches of Theosophical teaching, and lists of those that may be obtained and of the contents of the boxes of lantern slides, can be sent on application. It has occurred to me that this information may interest the General Secretaries of other National Societies who may care to see these lists and even to order some of the slides.

*Sociological Department.*—I hope that, during the current year, it will be possible to restart a Sociological Department as an organisation distinct from the Society. I do not myself favour any attempt to do in it the work which the Sociological Society was founded to do, and is doing more effectively than we could, in my judgment, do it, but that, of course, is an individual opinion, which does not bind anyone else. Personally, I hope for something "sociological" more on the lines which Mr. Arundale had in view when he started the Bow Road Club, *i.e.*, a centre in which Theosophists may train themselves in public work in some district of London, and prove to non-Theosophists that Theosophical teachings naturally lead to an efficiency and zeal so valuable that those who accept and try to live those teachings are a boon to any district in which they start any activity. Now that Major Haden Guest has settled down in London again, we may hope to have his great assistance in this matter, and he and I are now confabulating together to see whether we cannot hammer out something acceptable for consideration by the Executive Committee.

*General Assembly of European F.T.S.*—As soon as it was known that there was a chance of a visit from you, many members began to entertain the hope that it might be possible for you to call a general assembly of F. T. S. in some neutral European Country and yourself to preside over it. Unfortunately, however, as you well know, the delay in the formal Declaration of Peace has created a situation in the Allied and Associated Countries not to speak of those of the Central Powers—full of

dangerous possibilities as the result of unwise action, and bristling with practical difficulties of a formidable character in connection with travelling. In these circumstances, it looks as if it will be impossible to take any steps in the desired direction before you have to return to India, and to no one will the fact be more painful than to yourself.

*Statistics.*—The total number of members of this National Society is:

Lodge and Centre Members	...	3,443
Unattached members	...	503
		<hr/>
		3,946
		<hr/>

During the year under review 588 new members have been admitted. The net increase is 393, as the number of members who have resigned, or lapsed, or were transferred to other Sections, or died, as the case may be, is 195.

The total number of Lodges is 120, and of the Centres 40. Charters have been granted to 18 new Lodges, and 9 new Centres have been authorised. One Lodge and two Centres were dissolved.

H. BAILLIE-WEAVER,

*General Secretary.*

## THE T.S. IN INDIA

*To the President, T.S.*—I beg to submit my report for the year 1918—19. Mr. T. Ramchandra Rao had been the General Secretary for 3 months, when I succeeded him. A definite attempt was made in the South to organise the Propaganda work. A scheme was made under your inspiration and with the help of Brother Arundale, under which the central authority was vested in the Convention of the South, and the whole of the South was divided into seven Federation Areas, each Federation having its separate organisation. The Federation area was again divided into district units, each with its own office bearers. The Theosophical Workers of the North met together at Benares to form a scheme for improved Propaganda work and their recommendations almost follow the lines laid down in the South. But there is a lack of workers in the North, and the Provincial Federations will have to be properly organised in the first instance. The Sectional Journal *Theosophy in India* was restored to almost its former size, and it has been able to infuse more life in the Section. Efforts are being made to organise Lodge Helpers, but they have not proceeded far as yet. The activities of the year include much that was done for Education and Social Service, a detailed account of which is given in my report for the Indian Convention. Evening talks have been organised in the Sectional hall, and they have created much interest and are giving a new life to the Headquarters. There have been some new publications in the Vernaculars, which are mostly translations of well known Theosophical works. Eight Vernacular Journals were subsidised by the Section, besides there are two more conducted by Mr. Vaidya,

which take up Theosophical subjects. Two more Ladies' Lodges were started this year, making eight in all. The following comparative tables will show that the progress of the past years has been steadily kept up and there has been a general improvement all round.

*Admissions of New Members*

1916—17	941
1917—18	1,055
1918—19	1,063

*Annual dues collected from Lodges*

1916—17	Rs. 10,970-5-0
1917—18	Rs. 12,389-4-0
1918—19	Rs. 13,494-6-0

*Annual dues collected from Unattached Members*

1916—17	Rs. 1,805
1917—18	Rs. 1,650
1918—19	Rs. 1,937

*New Lodges formed*

1916—17	17
1917—18	17
1918—19	23

*New Centres formed*

1916—17	3
1917—18	6
1918—19	9

*Lodges revived*

1916—17	6
1917—18	15
1918—19	16

The last Convention decided to introduce a representative basis in the election of Councillors and Provincial Secretaries. A scheme has been formed to give effect to the wishes of the Convention in this respect. After paying all expenses, we have been able to make a saving of Rs. 2,611, which will be carried to the next year. The peculiar feature of the year has been much harmony and co-operation amongst all Theosophical workers.

It now remains for me to express on behalf of the Section, its unfailing loyalty and love to you, and its gratitude for the light and lead you have been giving, not only to the Theosophical world but to humanity at large. May the Masters shine ever more through you, and may your sacrifices purify, elevate and consolidate the Society itself!

PUERNENDU NARAYAN SINHA,

*General Secretary.*

## THE T.S. IN AUSTRALIA

*To the President, T.S.*—The net gain in membership for the year is 104 as against 145 for last year.

*Activities.*—Influenza has greatly hampered us, preventing Convention and suspending all Theosophical Activities for some few weeks. The Section has welcomed Dr. Bean, who took over the General Secretaryship from Mr. T. H. Martyn in April. The continued good work of Messrs. Irving Cooper and L. W. Rogers is gratefully acknowledged. Mr. Rogers toured the Section with the greatest success, whilst Mr. Cooper's lectures have been confined to our Sunday platform at Headquarters, Sydney.

In addition we have had the great pleasure of welcoming to Australia the Jinārājādāsa and Mr. Rajagopalacharya from India, as well as Mr. Theodore Bell, Mr. G. Pearce and Dr. Armstrong Smith from England.

Mr. Jinārājādāsa, with his course of Lantern Lectures on "The First Principles of Theosophy," had packed houses in Sydney and Queensland—indeed many had to be turned away. He tours shortly Melbourne, Tasmania, and the West, prior to attending the Christmas Convention at Auckland, New Zealand. He has given, too, several successful lectures on Child Welfare and Art beyond the limits of the T. S. Mr. Bell lectured for us here in Sydney as well as at Melbourne on his voyage home. He too toured Queensland, with some success. Touring lecturers seem specially struck with the scope for Theosophy in Queensland, and corroborate in an interesting way Mr. Leadbeater's discovery of the Sixth Sub-race making its way there. Mr. Bell was so struck that he has devised and financed a most excellent publicity scheme. He has written and published 10,000 copies

of a pamphlet entitled, *A Plain Answer to Three Questions, viz. : Survival of bodily death, The after death life, and Reincarnation.* This 3d. Pamphlet is to be widely and systematically distributed throughout Northern Queensland. Not only is it convincing and simple, but its final "tear off" page for the reader, asking for further books and pamphlets to be sent free through library subscription or bought outright, according to the marginal number ticked off, giving also the various Queensland Lodges and their hours for Public Meetings, make a splendid "follow on" appeal to the public.

*Theosophy in Australia.*—Our Sectional Magazine has been reconstructed to some extent. As well as purely Theosophical articles, we are now publishing articles supplied by experts beyond the limits of the T.S. on various Social problems—usually with a special Australian interest. Two of our latest issues—July and October—have been special propaganda efforts, double the normal both in bulk and in the number circulated. The October number, describing Mrs. Besant's work in India, and with articles on Madame Blavatsky, "The Coming" and "The Woman's Movement" in its various aspects, is a fine publicity effort. We hope to circulate it widely, justifying to the Australian people both our President and the great world movement she heads. Our subscribers have increased by 85 in the last six months.

*Allied Work.*—The Morven Garden Theosophical School flourishes in spite of Influenza now happily over. On Saturday, July 26th, the new Boys' Wing was opened by Mr. Leadbeater. The Schools are starting a picture gallery of "Great Australians"; General C. B. B. White, probably Australia's greatest public man, has sent them his Photo together with a most inspiring message on character and patriotism. The school numbers have risen from 70 to 85—34 boys and 51 girls. The Co-Masonic Movement have opened two fresh Lodges. One in Sydney and one in Rockhampton.

*Various.*—Melbourne have secured some fine new premises, and will be moving in early next year. Rockhampton has built a new Hall in one of the main streets. The Liberal

Catholic Church has secured a fine Church (ex-Weslyan) in Sydney, and is now well launched. Mr. Leadbeater's health is wonderfully good. Just now he is busily engaged on his book on the Sacraments.

The Section unite in loyal and loving greetings to our President and her co-workers, and in earnest desire for the prospering of our movement during the coming year.

J. W. BEAN,

*General Secretary.*

## THE T.S. IN SWEDEN

*To the President, T.S.*—I herewith have the pleasure of bringing before you the report of our Theosophical year from October 1st, 1918, to October 31st, 1919.

*Members and Lodges.*—The total number of Lodges at the beginning of this period was 32, namely, 24 in Sweden, 6 in Denmark, and 2 in Iceland. Five of the Lodges in Denmark together with the 2 Lodges in Iceland have from the beginning of the current year, 1919, formed the new National Society, the "T. S. in Denmark and Iceland". The "Danske Landsloge" in Copenhagen has, with the consent of the President and the National Secretary been placed as an independent Lodge under Adyar. One new Swedish Lodge, the Eskilstuna Lodge has been formed, and one, the Falun Lodge, dissolved, on account of all its members being dispersed, since the President of the Lodge, Mr. Fr. Munhtell, died. The total number of Lodges in Sweden is now 24. During the year 151 new members have joined our National Society and 516 members have left it. This great loss is only apparent, as it includes 341 of the former members in Denmark and Iceland, who have passed to the new National Society, and also 133 members belonging to the now independent Danske Landsloge in Copenhagen. Only 42 members have resigned, dropped out, or are dead. The present membership is 652, of whom 512 are Lodge members, 127 unattached Swedish, 8 unattached Danish, and 5 unattached Finnish members.

*Propaganda Work.*—This has been carried on as usual, mostly through the Lodges, but also through lecturers who have visited different places round the country.

*Theosophical Literature.*—Our sectional organ, *Teosofisk Tidskrift*, has been issued as before with 10 numbers a year and also our *Medlems bladet*, for members only. The Svenska Teosofiska Bokfoilaget has not during the year printed any new literature, owing to the high expenses. The Stockholm Lodge has

issued two small pamphlets for *gratis* distribution. Privately has been printed a new pamphlet on *Reincarnation*. In Denmark the "Theosofisk Samfunds Danske Forlag" has sent out a new edition of the translation of Mrs. Besant's *Karma*.

*T.S. in Denmark and Iceland.*—The most important event during the year has been the formation of the new National Society in Denmark and Iceland, which since the consent of the President had been received, was constituted on November 17th, 1918, and started its activities with the beginning of 1919. The Countess Ellen Bille Brahe Selby, formerly representative for Denmark in the Scandinavian Section, was elected General Secretary of the New Section. The T.S. in Scandinavia was thus transformed into the T.S. in Sweden, as Sweden was the only country left within the old Section, which once embraced Sweden, Norway, Denmark and Finland.

*Northern Federation.*—Instead of the ties between the Scandinavian members thus dissolved, it has been proposed, as I already mentioned in my report last year, to form a Scandinavian or Northern Federation. At a meeting in Kristiania in August, 1919, it was resolved to form this Federation. Norway at its Convention, which was held at Kristiania in connection with this meeting, immediately resolved to join the Federation. It is now up to Denmark, Sweden and Finland to take the formal steps of approval.

*The Annual Convention.*—This was held in Gaole, at Pentecost. The bye-laws of the T.S. in Sweden were revised. One change adopted was that the Executive Committee was enlarged from 6 to 7 members. Erik Cronvall was re-elected General Secretary.

Finally I wish to mention, that the General Secretary and several members from Sweden had the good fortune to attend, during October, 1919, at several lectures and other work of our President in London, and carried home from this visit a strong impression of the vitality and strength, which still is one of the most prominent features of our beloved and revered President.

ERIK CRONVALL,  
General Secretary.

## THE T.S. IN NEW ZEALAND

*To the President, T.S.*—In submitting a brief epitome of the work of the New Zealand Section, for the year 1919, permit me, on behalf of all our members, to assure you of our continued love, loyalty and admiration. That you may be long spared to preside over our Society is the fervent wish and prayer of the members of this National Society.

In common with most of the other National divisions of the parent Society of late years, this Section has had its share of the difficulties incident to a world at war. Such distractions have been detrimental to the material progress and prosperity of our work, but I venture to think that this has been largely set-off by the evident increase of earnestness and devotion of members. During the latter part of last year and the early months of the present a disastrous epidemic of influenza swept over the whole Dominion, and as a consequence disorganised our work for many months, in addition to taking heavy toll among our members and their relatives. During that period all public lectures were prohibited by law, and members were further precluded from attending Lodge meetings, etc. Much valuable work was done by many members among the sick and suffering; especially noteworthy being the assistance rendered by the boys and girls of the Round Tables, who nursed sick children in the schools, which for the time were temporarily converted into public hospitals. The joy-bells, proclaiming the armistice only served for a brief space to enhearten the people, since the insistent discontent, the social and industrial unrest, which has followed the cessation of international strife has merely served to make Peace more apparent than real.

*Statistics.*—One new Lodge has been formed at Waipukurau, the total number of active Lodges being 23. The number of new members admitted is 167, but we have lost by death, resignations, transfer to other Sections, etc., 113, leaving us with a total of 1,331.

*Visitors.*—Our Section has in this respect also been rather unfortunate, as both Mr. L. W. Rogers of the American Section, and Bishop J. I. Wedgwood were prevented from fulfilling their engagements on account of the epidemic and the shipping strike in Australia. We are now looking forward, with eager anticipation to the prospective visit of Mr. and Mrs. Jinarājādāsa, who intend arriving in Auckland, in time to be present at our Annual Convention during Christmas week.

*Convention.*—Our last Annual Convention was held at Wellington, the capital city, during the last week of 1918, and was presided over by the local President Mr. W. S. Short, I.S.O. A large and representative assembly of delegates gathered in the fine new hall which the Wellington Lodge invited me to open for them a few months previously. Beyond the consideration of the financial position of the Section, and other matters relative to the National administration of its work, nothing was done which need be recorded in this report.

*Theosophical College.*—On February 9th, of the present year, the General Secretary had the honour and privilege of opening our first Theosophical School, which he dedicated, in your name, under the title of "Vasanta College". The College, which is under the care of Mr. Sydney Butler, L.R.A.M., as Acting Principal, is beautifully situated in the very centre of the educational district of one of Auckland's best suburbs, and is surrounded by grassy terraces, slopes and lawns, on the side of Mount S. John, an extinct volcano; commanding wide views of the surrounding land and seascapes, the grounds are beautifully sheltered by trees, under whose welcome shade outdoor tuition is carried on for more than half the year. Since the opening of the College, the Trust Board has had to enlarge the school and boarding accommodation in order to cope with the increasing demand for the tuition such a school can give. The

motto adopted by the College is "Lux, Veritas, Sodalitas", but it is used in its English rendering, "Light, Truth, Fellowship".

*National Lecturers.*—In this department Miss C. W. Christie still continues to be a tower of strength, and most of the field work falls to her lot; a vivacious and tireless worker, Miss Christie generally contrives to visit most, if not all the Lodges of the Section, once a year. Mr. W. S. Short, whose duties in connection with the Government compells him to travel over the Dominion, has also done admirable work in the Lodges visited; the General Secretary has also visited the larger Lodges, in addition to the smaller ones *en route*. We anticipate the inclusion of Mr. H. H. Banks, one of our devoted members who has for a number of years past been lecturing for the English Section; although severely wounded in the war, Mr. Banks is now sufficiently recovered to resume lecturing work, and I trust this Section may appoint him as a successor to Miss Christie, who purposes visiting England for an indefinite period.

*Literary.*—Our Sectional Magazine, *Theosophy in New Zealand*, is now issued as a bi-monthly on account of the dearth of, and the excessive cost of paper. We had fortunately a fairly large stock of paper in hand before the war commenced and as a consequence we were able to maintain the Magazine until the present year; we trust we may be able to resume its publication as a monthly soon. Save the publication of propaganda pamphlets and leaflets for general distribution, our literary efforts have been chiefly confined to our Magazine, although occasional contributions to *The Theosophist* by several of our members may be recorded.

*Kindred Movements.*—Of the kindred movements, now clustering round the Society, like fond children of loving parents, perhaps the greatest increase of interest, within this Section, is manifested in the Round Table, the Lotus Classes and Golden Chain Orders. In most of our Lodges groups of all three movements are operating with vigour and enthusiasm. The Mothers' Thought Guild has spread rapidly to other lands and many thousands of members have joined. At last

Convention a N. Z. and India League was formed with the intention of familiarising the general public in the Dominion of the legitimate demand of India for Home Rule within the Empire. The Fraternity in Education, serves to keep the work of the T.S. Education Trust Board work before our members and the public, and has done admirable service. The Order of the Star in the East, the Co-Masonic Order, the Liberal Catholic Church, the Social Re-construction and the Prohibition Guild, etc., are all labouring in their several ways to pave the way for the advent of the new sub-race and its Spiritual Preceptor, the World-Teacher.

In conclusion, may I once more assure you of the affection, devotion and confidence of all members of the New Zealand Section, to their beloved President.

J. R. THOMSON,

*General Secretary.*

## THE T.S. IN THE NETHERLANDS

*To the President, T.S.*—Since last year our National Society has grown from 1,683 members to the number of 1,841. Thirty-one members resigned, 20 died and 24 were transferred to other Sections. Of our members 1,595 are attached to the Lodges and 246 unattached. The number of Lodges is 30 and that of Centres 12.

In the course of the year a good many public lectures were arranged by the Executive Committee in different towns, and much literature was spread. We have published a translation of Mr. Jinarājādāsa's *Practical Theosophy*, and a Theosophical Manual, which contains a sketch of the history of the T.S., its Laws and Regulations, the history of the Dutch Section with its Laws and Bye-Laws, its Lodges and Centres, Library, publications, and the subsidiary movements. It will be a very good booklet for propaganda, as well as interesting to the members.

A reprint of the translation of *Light on the Path*, of Dr. Steiner's *Blut ist ein ganz besondrer Saft*, and of Ernest Wood's *Practical Course in Concentration* were published by Mr. van Ginkel.

The Library has much improved by its reorganisation ; in 5½ months 1,660 books were lent, as against 2,800 during the whole year before ; the new system works very well. A catalogue is in course of being printed, which will be sent to different libraries as a good means of propaganda ; as our library contains over 6,000 books, it will be a very useful addition.

Towards Whitsuntide a Federation of free Religious Groups and Societies was formed. An invitation had been sent to different sects of the Christian Church, to Theosophists, Spiritists, Masons, Religious Socialists, Woodbrookers, Liberal Jews, Muhammadans, etc. I had been invited to assist at the initial meeting, and was elected in the preliminary committee to prepare a Congress, in which the Federation would be definitely formed. This Congress took place on Ascension Day, and 32

societies and groups joined. The T.S. did not join, because, the National Council decided that the T.S. was not a free religious body, but several Lodges did. That its aim "to promote co-operation among all religious bodies, who wish to strengthen the religious life of the people, and to form a common platform, on which all different beliefs can meet" has already proved a success, is shown amongst other facts by this, that I have been invited by the Baptist Church in Croningen to preach on a Sunday morning, and in the free Community here in Amsterdam to preach for the children, both as a result of the work done by the Congress. That we got the churches to speak in was already a certain step, proving that Theosophy was gaining at least the respect of the Christian Church, but that we are invited, as Theosophists, to lead their Sunday morning service, shows a possibility of attaining to that unity in Religion which is the great Theosophical ideal.

At last our Theosophical Educational Trust has been definitely formed; we hope to be soon able to open a first school by the gracious help of one of our trustees the Baron van Pallandt, who has placed a comfortable house with extensive grounds in a beautiful part of the country at our disposal. An already existing school following the Montessori method in Leerdam will be affiliated to the Trust.

All the papers concerning the Trust will be sent to you, and we hope to join the International Trust, perhaps under the new conditions.

Lotus work is going on steadily, and in nearly every Lodge there are groups. An effort has been made to bring more unity in the teaching by forming a working scheme that will be followed entirely or partially by the different groupleaders. There is a paper for children *De jonge Heraut* and a library which contains about 160 volumes.

With the best wishes for a good Convention

C. W. DYKGRAAF,

General Secretary.

## THE T.S. IN FRANCE

To the President, T.S.—A single Lodge was founded during the past year : Horizon, in Grenoble, three old Branches, who had in succession lost their staff, together with a large number of their members, have been dissolved : Vaillance in Tarbes, Christós in Toulon, Lanou in Paris.

The total of active Lodges numbers 48.

We have admitted 337 new members during the current year ; 30 have died, 84 have been struck off our rolls, reducing our net gain to 223 members.

The active members registered on our rolls at the time of writing (5th October, 1919) total 1,822. I am forwarding you separately a complete and up-to-date list of our Lodges, together with a report of our publications.

We have ceased the publication of our former little trench paper, *Kouroukchetra*, which under the continued editorship of Mlle. Bermond, has now become a fortnightly : *Le Messager Theosophique Et Social*. Our Theosophical Review : *Le Lotus Bleu* is now being edited by M. Point, and has reverted to its pre-war lines.

Our Publishing Business has undergone transformation, and is now centred in a firm whose headquarters are in the Headquarters building. The high price of paper and the rise in wages have adversely affected the publication of a larger number of new books, the available funds of the new firm having been for the most part absorbed by the republication of several important works such as *The Secret Doctrine*. As against this fact, the sale of our Theosophical books is steadily on the increase.

The recent banning of Theosophical teachings and of Theosophy by the Holy Office at Rome does not seem to have

greatly troubled the Roman Catholic members of our Section, and I do not believe that our expansion will be seriously affected thereby. On the contrary, I am of the opinion that this measure will, on the whole, prove beneficial rather than injurious to the propagation of Theosophical teachings in this country.

The Meetings at Headquarters are attended by the public in increasing numbers; the demobilisation of the troops has released quite a number of young members, who are in a position to give a portion of their time to the furtherance of our activities of all kinds, and several Branches which had been obliged to abandon their work are able once more to renew their activities: notably in those provinces which were formerly comprised within the old Front.

The Library and the Reading Room daily receive many visitors, thanks to the nice way in which our Reading Room is fitted up and to our well-stocked Library. The latter is in the fortunate position of having lately been enriched by the addition of several hundred books of great rarity, the gift of one of our most devoted members who had collected these books with this intention.

We have been able to get into touch with the Theosophists of various countries, new and old, who do not as yet possess National Societies, and we hope to form in the said countries a nucleus of serious members devoted to the work and desirous of spreading the truths of Theosophy: we refer to Portugal, Roumania, Poland, Tcheko-Slavachia and Yugo-slavia.

I bring this Report to a close with the expression of my deep sympathy towards the great work which you have so nobly dedicated to India, and the assurance of my complete devotion. My fraternal greetings to all Brothers gathered in Convention.

CHARLES BLECH,

*General Secretary.*

## THE T.S. IN ITALY

*To the President, T.S.*—Once more I have the honour and privilege of forwarding to you the Annual Report of the Italian Section from September 1st, 1918 to August 31st, 1919; in spite of the so-called "peace conditions" in our country (perhaps worse than war conditions) not even this year have we been able to hold our Annual Convention at Easter time. I have thus remained provisionally in charge for another year.

Now that the war is over, my thought turns, first, to all those Brothers, of all our Sections, who laid down their lives in that tremendous struggle, and especially to those of our own Section whose names I record here: Dr. J. R. Spensley; Ing Luigi Ferraris; Prof. Gian Giacomo Porro; Maj. Riccardo. Neva; Rag. Augusto Caligaris, and Vittorio Muggia.

Thus, of the 90 engaged in active service, only 6 fell, but there are other members of whom I have had no news since 1914.

The most important event for our Section was due to the great victory, which permitted of the re-entrance into the Italian Section of the "Verita" Lodge of Trieste, our dear *Citta Redenta*. Its very active and devoted President, Mr. Grant A. Greenham, after many strange adventures during war time, succeeded, as soon as he could return home, not only in gathering together some of the scattered older members, but also in enrolling new ones, so that in the beginning of 1919 the Lodge was re-organised and ready to work steadily as before.

The dormant Lodge Torino, after a long period of inactivity, has finally awoked to new life, owing to the persistent energy of Countess Dina Baudi di Vesme, who has been elected President.

But on the other hand the two Lodges, Pitagora of Palermo and Andromaco of Taormina, that have lost some of their members, may be considered as dormant at present. Altogether the total number of our Lodges is 23 of which 3 are dormant. The Centres number only 4 at present, as 3 of them (Naro, Ostiglia and Udine) have been dispersed and one (at Parma) lately formed.

The revised list of our enrolled members on August 31st, 1919, shows a total number of 386, from which we must deduct 69 who have not yet paid the fees, so that the number of *active members is only* 317, in spite of the 59 newly admitted, plus 8 from the Austrian Section and one readmitted, because there are 6 deceased, 4 resigned, and 34 whose names we have been obliged to cancel, having had no news nor fees from them for many years. Of the 317 active members 34 are unattached.

That there are as many as 59 new members is a proof of the increasing interest taken by the Italian people in Theosophy, and this in spite of our inability to reach the public through lectures. On the other hand we have also to face the competition of dissentient Theosophists, a circumstance that must naturally bias public opinion, and militate against the general aims of Theosophy—Brotherhood, Tolerance, Co-operation, Union—especially now that the Pope has publicly condemned Theosophy and forbidden the Catholics to enter the T.S., to take part in its meetings or to read its publications:

I therefore thought it would be as well to make an appeal in our *Bollettino* inviting our dissentient Brothers to consider if their divergences are immaterial enough to admit of their becoming reconciled with us and uniting in a common effort for the welfare of humanity. It is my opinion that if we cannot demonstrate to the public that among Theosophists the principles of Brotherhood and Union are real, practical facts, we can hardly expect to see them practised by said public, and it is our duty to set an example to others.

*Literary.*—While the continual demand for Theosophical literature is a proof of the ever increasing public interest in it, on the other hand we are anxiously considering the rapid

decrease of our stock, which it is impossible to renew for the present, owing to the prohibitive prices now prevailing.

We have concentrated our activity on our *Bollettino*, which has again become a monthly periodical, and has earned much appreciation from the outsiders who have subscribed to it.

We have published in it, and also in separate pamphlets for sale to the public, many translations of articles by Mrs. Besant : *The Basis of Morality, An Introduction to the Science of Peace*, and from Mr. C. W. Leadbeater : *The Ceremony of the Mass, Dominus Vobiscum, The Church and Its Work*.

*The Order of the Star in the East*.—Here also we must note a great apathy among the members, so that all activity has been limited to our little Bulletin *La Stella*, which is sent to barely one-half of the members, the rest being indifferent. Consequently it seems rather useless to count our enrolled members ; suffice it to say there is a nucleus of them, though small and much scattered—upon whom we can rely.

When we look at the splendid work accomplished by some other Sections, we feel the humiliation of our inactivity in a moment like this ! This must certainly be the explanation of our bad Karma, not only in missing the visit of our beloved President during her stay in Europe, but also in the fact of my being refused a passport, so that I have been unable to go and meet her, even on the occasion of her birthday !

I send to our revered President a message of devoted admiration.

EMILIO TURIN,

*General Secretary.*

## THE T.S. IN CUBA

*To the President, T.S.*—I have the honour to submit to you the Annual Report of the Cuban Section for the time elapsed since October 1st, 1918, to September 30th, 1919.

During the year material conditions have not changed in the countries that constitute this Section. In Mexico continues the state of war, in Costa Rica it has ceased recently, in Cuba still prevails the high cost of living, the same in Costa Rica and Salvador. But, notwithstanding these obstacles, there is noticeable the beginning of a greater fraternal development which is influencing the Lodges and members, and giving a greater impulse to the Theosophical work.

Six new Lodges have been founded :

Hermes	at Sta. Isabel Lajas	Cuba
Luz del Maestro	at Camaguey	Cuba
El Salvador	at Torreon	México
Maitreya	at Mexico, D. F.	México
Eucaras	at Managua	Nicaragua
Gautama	at Santiago	Republic Dominicana

and have been dissolved the following three :

Apolonio de Tiana	at Veracruz	México
Zulai	at Alajuela	Costa Rica
Surya	at Habana	Cuba

the last one incorporated with the Annie Besant Lodge of Havana.

One hundred and fifty-two new members have joined, and 133 have dropped out for the following reasons :

Non payment of fees	...	...	...	107
Died	...	...	...	13
Resigned	...	...	...	8
Transferred	...	...	...	5
				133

We now have, therefore 38 Lodges and 869 members.

Theosophical propaganda has increased very much, with the continued publication of the *Revista Teosofica*, the Official Organ of this Section, the review *Virya* by the Virya Lodge, *Mayab*, by the Lodges, Mayab and Zamná, *Dharma* by the Nivritti Marga Lodge, and in México they just began to publish the review *Sirio* by the Sirio Lodge. Apart from the reviews, some Lodges have published and distributed freely some pamphlets, such as *The Message of Theosophy*, *Re-incarnation*, *Why We do not Remember Our Past Lives*. In the Cities of México and Santiago de Cuba several series of lectures have been given, in all the principal cities there are articles on Theosophy frequently published in the daily press and finally, with the earthquake in Puerto Rico, a cyclone in Habana and the epidemic of influenza in Cuba and México, the local Lodges have given their help as much as it was possible.

An evident demonstration of the progress of Theosophy is the application made through me by the eight Lodges of the Republic of México soliciting the constitution of the Mexican Section, or T.S. in México. This application I remitted, and I may suppose that when the Forty-fourth Convention is celebrated, the constituent Charter will already have been granted, for our Mexican brethren are worthy of constituting their National Society independently of the Cuban Section, for they have proven their love and constancy, their successful propaganda and other good qualities, which make them capable of acting independently from the Cuban Section to which they belonged.

Finally, although I cannot indicate now the future plans, I have firm hopes of a more solid and efficacious progress of Theosophy in these countries.

To our always loved President, and to all our brethren gathered in Convention, the Cuban Section sends heartly greetings and best fraternal wishes.

RAFAEL DE ALBEAR,

General Secretary.

---

## THE T.S. IN FINLAND

*To the President, T.S.*—Our Twelfth Annual Congress was held June 7th—9th at the Headquarters in Aggelby. One hundred and fifty-four members were present. I was directed to send you a message of love, trust and loyalty. Knowing that you had left India for Europe, I didn't send any telegram, but I am now fulfilling my duty by letter, hoping that this letter will reach you in London.

Our Convention was satisfactory in all respects. I had repeatedly renewed my wish not to be re-elected as General Secretary, and though the great majority of our members liked to see me as their leader, everybody's enthusiasm was aroused, when a totally new candidate was proposed, *viz.*, Dr. John Sonck. Although a new member of our Finnish T. S. Dr. Sonck is a Theosophist of old standing and an old member of the Scandinavian T.S. He is a personal friend of mine and a great lover of our Finnish T.S. Every Finnish member has known him for many years *par rémémée*, for he is one of the greatest donors to our cause, having given thousands every year to our Theosophical work. He was unanimously elected General Secretary for three years, everybody being moved almost to tears.

At my proposal three resolutions were passed, (1) that the Theosophical Society as such was to be kept distinctly aloof from all politics and political propaganda; (2) that political and social questions, when discussed at Lodge or other Theosophical meetings were to be viewed from as many points as possible in order to uphold the true Theosophical and brotherly spirit and avoid partisanship; (3) that those members, who wished to carry on any political and social propaganda in a Theosophical spirit, should do so either individually by joining parties already

existing, or by forming together a league, like *le drapeau bleu* for instance, outside the Theosophical Society.

The hand of the Master was upon our Congress, and I felt happy indeed.

My good friend and co-worker, Mr. Vaino Valvanne, died March 8th, and the loss of him seems irreparable. But the Master knows, whom He puts in every place, and trusting Him I see that all is good and for the best.

PEKKA ERVAST

P. S.—I omitted mentioning the newly elected members of our Executive Committee: Mrs. Olga Salo, Vice-Chairman; Mrs. Kyllikki Ignatius, Mrs. Hilda Pihlajamaki, Miss Helmi Jalovaara, Mr. Antti Aho and Mrs. Jussi Snellman.

## THE T.S. IN SOUTH AFRICA

*To the President, T.S.*—This year has been a very active one for the Section in South Africa. One hundred and seven new members have been added to the roll as against 57 last year, bringing our numbers up to 346. We are therefore moving forward well.

Two new Lodges have received charters, namely, Bloemfontein in the Orange Free State, and Benoni in the Transvaal, and none have handed in their charters, although one, De Aar, is quite inactive owing to several members having left the town.

I have been able again to visit all the Lodges in the Union and Rhodesia, and lecture. In all cases good audiences have attended and enquiries have been keen.

Fresh ground has been broken at Harrismith, in the Orange Free State.

Darban Lodge has been very active. It has now a room in the principal street of the town and this position, together with good lectures and advertising has led to the room being full every Sunday evening. It is interesting to note that this Lodge ever since its formation has worked without rules or regulations, keeping only the one rule of "Brotherhood". More difficult truly is it to follow the law of Brotherhood than those set out in rules and regulations, but the result has been very good, for the life and not the form has been considered. Several members of the Australian Section, either those returning from Active Service, or members proceeding home on holiday, have called at Darban.

We were very fortunate in having Dr. Armstrong Smith visit our shores. He spent a few days in Capetown and several in Darban. His charming personality and interesting accounts

of his excellent work at Arundale School make us look forward with great eagerness to his return visit on his way back from Australia. He is the first of the Theosophical worthies to visit our sub-continent, and we hope that many others will find their way to our land of "Great spaces washed in sun" as Kipling has it.

Johannesburg Lodge has had several lectures given in the Selborne Hall of the Town Hall, all of which have been well attended.

It is interesting to record that the Anglican Synod in this country has decided that Theosophy, Christian Science and Spiritualism are no longer to be banned by the Church, but to be examined for the truth that is within them. Perhaps ere long we will have a League of Religions throughout the world, which will lead to the great World Religion.

This year our Annual Convention was held at Johannesburg and we had a "Camp Convention" on the site which Miss Knudsen has bequeathed to the T.S. in South Africa. The Convention proved most enjoyable. We had some very helpful Conferences. Animated and interesting discussions took place on the "native question," and one on cremation led to our circularising all the principal towns in South Africa, suggesting that Crematoria should be erected. A very hearty expression of approval was received from several.

We are also hoping to establish a branch of the Theosophical Fraternity in Education here to press on this fine work. A large number of our women-members are teachers, who are particularly interested in "real" education.

At Convention also we sent a cablegram to our beloved President, asking her if she would not call here on her way to England but to our great regret she found it impossible to come.

We also had the courage, or temerity, to invite the World Conference of Theosophists to our sub-continent. It would indeed be good karma for us could it be found possible to hold the Conference here. I do hope Mr. Arundale's excellent suggestion will be followed out. Such a Conference would be of immense value to all Sections. The meeting of Theosophists

from all parts of the world and the exchange of ideas must be fruitful indeed.

We have several members of our Section who reside in Belgian Congo. So Theosophy is spreading into the heart of the "Dark Continent".

I think that everywhere in South Africa there are signs which show that many are needing the truths the Theosophical Society teaches. Distances are so great and travelling so expensive and members so busy that it is difficult to send lecturers to many towns.

For years we have had a sum of money sufficient to pay for a lecturer from overseas, but we have never yet been able to get one to come to us. The Great War of course, prevented anyone coming but now that it is over, we hope to get a lecturer, who will tour the country. I feel sure that the result would be a tremendous increase in numbers for even the very limited lecturing tours I have been able to make have resulted in new Lodges being formed and new members joining.

The sale of Theosophical books continues excellent.

Our Sectional magazine, *Theosophy in South Africa*, has continued its good work, under Dr. Humphrey for the greater part of the year and now under Mr. Marsh.

To you, our revered President, we send our loyal and warmest greetings and trust that you will be with us for many years to come, to continue the great work the Masters have entrusted to you.

MARGARET L. MURCHIE,

*General Secretary.*

---

## THE T.S. IN SCOTLAND

*To the President, T.S.*—The General Secretary's Report of last year commenced by informing you of a net increase in our Membership in Scotland of 106, giving a total Membership at this date in 1918 of 610 Members. During this year our Membership shows a net increase of 77, bringing our total Membership at 21st October, 1919, up to 687.

The outstanding events of the year were the two visits to Scotland of the President; the first coinciding with our Annual Convention, June 27th to 30th, and the second on September 10th and 12th. On both occasions the President visited Edinburgh and Glasgow, and the fresh impetus given to our work is immeasurable.

One striking event of our Ninth Annual Convention was the announcement by the President, during Convention, of the signing of Peace with Germany. Coming to us at the time it did, the announcement came in a form as impressive as can well be imagined, and will be remembered by us as having reached us through the most fitting of imaginable channels.

The past year has undoubtedly been one of growth. The main feature in organisation is an experiment in the formation of three District Committees: East, West and North. These Committees are formed by the Members of the National Council elected to represent the respective Districts, and it is hoped that they will considerably aid growth and expansion.

Financially we are sound.

In personnel we have to record few changes. Dr. Ingram, who ably acted as General Secretary, during the enforced absence of Major Graham Pole, has handed over this duty to myself. We are happy to count him as a solid ally and support.

The coming session is a very full one. Tours have been arranged for Miss Draper, Miss Browning, Mr. C. Lazenby, Rev. R. King, Mrs. Powell, to name only visiting Members. Mr. C. Lazenby is kindly devoting a week to St. Andrews where it is hoped that a strong Centre will be formed. Falkirk, Melrose, Kirkcaldy and several other places are receiving particular attention.

One new Lodge has been formed during the year at Govanhill.

One of the most enjoyable events that we have to record is the visit of Mr. Wadia, Mr. Telang and Mr. Jamnadas, who travelled with the President. Mr. Wadia was probably most familiar to us all in name on account of his many years' connection with the T. P. H., but we were keenly appreciative of the opportunity to welcome all three members to Scotland, and we sincerely hope that such visits by Indian members will be more frequent in the future than in the past.

With activities "South of Tweed" we need not deal. They will be fully reported from London, but we follow with extreme interest the intense activity of the President. As a mere physical feat of endurance this activity of hers is, we should say, unparalleled by that of any other public worker to-day. Of the results thereof we need not speak, but they bear very great promise for the future of the Theosophical movement in this country.

R. L. CHRISTIE,

*Ag. General Secretary.*

---

## THE T.S. IN SWITZERLAND

*To the President, T.S.*—May our revered President receive our thankful affection, and may through her our most loyal greetings go to our Brothers assembled at Convention.

The history of last year's activity is in our Section, as well as in the world's history, bound to three capital events: the armistice of the 11th of November, the peace of the 28th of June, the League of Nations, events which cannot take place without generating deep shadows as well as blinding light.

Hence the successes and the failures of our Section. Our year closes with an active membership of 352 against 350 last year. We received 55 new members, 3 passed into other Sections, 3 died, 47 dropped. Of these 352 members, 305 are attached to our lodges, 47 are unattached members.

If our net increase of members is only 2, this is due to the fact, that during the war, many were interested in Theosophical ideas, who now have left Switzerland.

To the 16 old Lodges, we must add 2 new ones (bringing thus the number of them to 18) the "H.P.B. Lodge," founded on the 8th of November with M.L. Brandt as President, and the "Leadbeater Lodge" founded on March the 22nd, 1919 with Ch. Pasche as President. The Lodge "Le Graal" took up its activity again in May, 1919, but the Lodge "Karma" has not come to life again.

We registered two new and active centres: Montreux and Bâle.

Lectures remain good propaganda work, they link the T.S. with the outer world: Mme. Valdès gave a series of lectures on *Evolution*; Mr. H. de Pury, on *Occult Chemistry*; Mr. René Berel, on *The First Principles of Theosophy*; and the General Secretary

spoke to large audiences of "*The Great Spiritual Truths*" and of the "*Christian Festivities and their relations to the Cosmos.*"

From the outer world came to us: Professor L. Favre, who spoke on the "*League of Nations*"; Mr. Duvilard, on "*The eight hours' day*"; Mr. C. Clere, on "*The League of after-War Reforms*"; Mrs. d'Arcis, on "*The Woman's World Union*".

Art has not been neglected; beauty is a necessary factor for the construction of to-morrow's Temple. Many beautiful and inspiring hours were lived in our audience hall filled with eager listeners while lofty music stirred deep our souls.

The Order of the Star in the East has passed from 312 to 336 members. Public lectures were given by the National Representative and by the General Secretary.

The "*groupe des activités de l'Etoile*" is busy with the study of educational schemes; and "*the Swiss Servers*," always devoted and active, have inspired more than one political reform.

Some members of the Order of the Star in the East, thinking that a co-operative community is of certain value for the work of the future, have created a sort of association for the execution of their plans, "*le Domaine de l'Etoile*" where members and guests shall find the best conditions for the evolution of the spirit, the soul and the body, helping them thus to be useful units in to-morrow's unity.

The "*Round Table*" and the "*Golden Chain*" try also to prepare amidst the young of to-day the workers of to-morrow.

The *Bulletin Theosophique* remains the official organ of the Section, as the *Message de l'Etoile* of the "*Order of the Star in the East*".

Mrs. Besant's *Biography*, written by Aimée Blech, has been, for the benefit of our brothers of German Switzerland, translated into German by devoted members of the Bâle Centre. Two pamphlets by H. de Pury: *La Suisse dans le monde de demain au point de vue économique et social*, and *Capital-Argent et Capital-travail* have had a wide publicity.

Other activities have spread, not in the T.S. but outside of it. Thus *Vers l'Unité* tries to build the synthesis of spiritual and religious movements, and seems to work profitably.

Difficulties have tested our endurance ; all indeed seem to spring from Pan-Germanism, Bolchevism and the Lower phychism. They led us to maintain an exclusively Swiss administration, to keep in check an anti-administrative movement distinctly destructive, and to refuse to yield to authoritative messages coming through mediumistic channels.

These difficulties seem to be the reflection of difficulties the world over ; they belong to the present historical hour ; therefore we must try to generate light strong enough to illuminate our efforts to work in love and harmony ; all shadows then shall flee away.

To this task, many devoted members are given. Hands tightly clasped they begin with joy a new year of work.

Heavy is the cross, but the fires of the Star shine upon it, its Light vivifies us, and shall allow us to bring to our revered Teachers our modest offering : a Swiss Section regenerated by her struggles and her sufferings, but worthy to work in tomorrow's Reconstruction.

H. STEPHANI,

*General Secretary.*

---

## THE T.S. IN BELGIUM

*To the President, T.S.*—For the first time since 1913, is it again possible for us to send you a Report of our activities. It is true, the German plague left us in December, 1918, but it was too late then to send any report.

At the beginning of 1914, our Headquarters had been transferred to the Rue de Loxum, 45. Although we enjoy there a quite independent existence, we have joined other societies, to found a group of societies, called "Fédération des Sociétés de Culture Morale," of which we are the chief financial supporters. We live in good harmony with all the societies affiliated to that movement, the aim of which is to spread higher ideals among the public. It is a specially important task in Belgium, where too many people waver between clerical bigotry and atheistic dogmatism.

The German occupation was of course an obstacle to Theosophical activity, but meetings have been held all the same, and even a few lectures given. The Theosophical life is almost normal now. The Branche Centrale and the Branche Alcyone have interesting meetings every week in Brussels, and the Lodges in Antwerp and in Liège have also resumed their activities. Some public lectures have been given and very well attended. We hope to have again some foreign lecturers this year, as was the case in 1914, when we had, for instance, the privilege to hear Mrs. Manziarly from Paris, and MM. Wedgwood and Haden Guest, from London.

Some branches are dormant; one, the Raja Yoga Lodge in Antwerp—and Isis in Brussels have dropped, so that the number of our Branches is now only 9. Adyar Branch has joined our Section.

Since the last report, 60 new members have been admitted ; on the other hand, we have lost 36, who resigned, left Belgium, or died, so that the real increase amounts only to 27, making the exact amount of members 207.

Three of our deceased sisters and brothers, Mrs. Voûte, Mr. Bertinchamps and Mr. Jambers, were very old and very devoted members, and their departure is a severe loss to us. Many new members were soldiers during the war, and found a great comfort in the Theosophical literature ; one of them has been very severely injured ; they have all been very kindly helped, physically and morally, by our French brothers, and I wish, in those soldiers' name, to express all my thanks to the French T.S. in general, and to the family Blech in particular.

Our paper, *La Revue Theosophique Belge*, could not yet reappear ; a periodical is still an expensive and difficult enterprise, and our means are very limited ; but a sectional *Bulletin* will start soon, being thus the germ of a new literary activity.

In conclusion, we all in Belgium look forward with confidence to the future, and express our best wishes and trust to our beloved and revered President, and to the Staff which helps her.

GASTON POLAK,

*General Secretary.*

## THE T.S. IN BURMA

*To the President, T.S.*—I have great pleasure in reporting to you on the working of the Theosophical Society in Burma for the year ending 30th September, 1919.

With the advent of Peace, the outlook of the world is hopeful and there is no reason to suppose that Burma will lag behind the times. We, Theosophists, have before us in the changing times, a great and indeed splendid opportunity of spreading the Message of Theosophy. The visions of the people throughout the world have changed, and the same is clearly noticeable in Burma too. All the world over, there is the thought of revival, regeneration, and reconstruction, not only in the region of national development, but in social, religious and industrial problems. There is a new thought on each problem, and a new solution to each question. We in Burma are alive to this fact, and are endeavouring to take advantage of the opportunities now afforded to us in the awakening of the people.

However, in Burma, the past year is not marked by any special line of action, except that we have been trying to solidify our Section, and to revive our Lodges, and I feel sure that before the next report, the whole work of the Burma Section will be centralised in all its details.

You are aware that want of whole-time workers has been a great impediment in the progress of our work, and we see how very little we have done for the cause of Theosophy in spite of some of our very earnest members.

Our immediate work will therefore be (1) to revive our Lodges and their activities that they may form real centres of influence, and (2) to formulate a sound scheme of regular

propaganda work which will enable the message of Theosophy to reach every home in Burma in as short a time as possible. A scheme of propaganda is already on hand, but we need the co-operation of our members to carry same out.

*Propaganda.*—During the year under report, there were several enquiries about Theosophy and the Theosophical Society, and they were all promptly answered. Over 500 copies of *The Message of Theosophy* and small leaflets explaining the objects of the Theosophical Society were sent to different towns in Burma. Over 200 pamphlets on *What is Theosophy* and about 150 *Information for Enquirers*, and several other special leaflets were sent free to different centres.

Our brother Dr. T. M. Manickam, who was on medical leave, was able to do some inspection and lecturing work during the last six months. He first visited Kyaiklat, and delivered five lectures in Burmese about Theosophy in relation to Buddhism. These lectures were listened to with interest, and but for his health he would have continued to give some more lectures there. Three members joined from Kyaiklat, and it has now become a small centre. We have decided to visit again Kyaiklat, when it is hoped we shall organise a Lodge there.

Dr. Manickam next visited Pyinmana, and gave two lectures there. The Lodge work there has to be organised after the Convention. He then went to Mandalay, where he delivered at the Lodge some lectures, and then visited Myittha, and Maymyo. While in Mandalay he had interviews with U Pyinnya Tha Mi, and U Kan Ti, who believe in the "Coming of the World-Teacher," and visited several Phongyikyaungs. At Myittha, he delivered two lectures which were well-attended. At Wundwin where Enmagyee Sayadaw lives, he delivered a lecture at the "Kyaung" in a hall which is specially built for the World-Teacher by the Sayadaw. He had talks and conversations and discussions about the Sangha (the Hierarchy), and the Coming of the World-Teacher. This respected Enmagyee Sayadaw also believes in the Coming of the World-Teacher, and these respected Phonyis will take part in the coming Convention at Mandalay which will be held during this week.

Dr. Manickam also delivered some special lectures in different Burmese houses in Rangoon where there were good audiences. In all his tours to Mandalay, Maymyo, and Pyinmana, our earnest brother U San Mya accompanied him. Our brother from Taungdwingyi is doing some propaganda work there, and similarly some work is being done at Kyaiklat by Dr. M. Swaminatha Pillay. In spite of opportunities offered, very few of our Burmese members came forward to take up the work; however, it is hoped that the success of the Mandalay Convention will bring more to the front. Maung Ba, Maung Than Tin and Mr. Saw Hla Pru have been doing some work for the Section, while a good deal of propaganda work was done in a quiet manner by our earnest Maung Thin of the Rangoon Lodge. This is encouraging, and more members should follow them.

*Activities of Lodges.*—Rangoon Lodge was again the most active of all the Lodges, and Mandalay and Maymyo followed in order. In Rangoon the bi-weekly meetings were regular. For the last five months, Sunday mornings were devoted to either a public lecture or a Table Talk on Theosophical subjects. The attendance at these meetings was very encouraging. Several of our Rangoon members took an active interest in these meetings. Lieut.-Col. G. E. T. Green, the President of the Rangoon Lodge, Mr. J. C. Bilimoria, Dr. J. B. Jacob, Mr. Anklesaria, Mr. P. Venkatraman and Mrs. M. Fraser were the leading members. Mr. J. N. Basu from Mandalay and Mr. T. R. Govindaraj in Maymyo were responsible for the activities of their respective Lodges. Our Ko Than Pe, in spite of his official duties while in camp, has been doing some propaganda work for Theosophy.

*Visitors.*—Mr. M. Subramania Iyer from Adyar was in Rangoon for about two weeks in June when he gave his valuable experiences of his stay at Adyar. He also delivered two lectures, one on "Karma," and the other on "Our Work in Burma". Mr. Wittenbaker of the Calcutta Lodge was also here for a change, and during the time was very regular in attending our meetings, with which he was very pleased.

We had besides two visitors from Netherlands-Indies, and Mr. A. Schwarz from Adyar, who were also pleased with what they saw of our work in Burma.

*Position of the Lodges.*—The number of Lodges in our Province remains the same. There were 238 members on rolls at the beginning of the year. There were 16 admissions during the year, but 6 resigned, 13 are reported as "died," 4 transferred to other Sections, 10 kept in suspense list, and 5 struck off the rolls, resulting in 216 members at the end of the year.

*Finance.*—The position of finance is fairly satisfactory this year, but if all the members would pay their subscriptions, a small Section like ours could better utilise the amount especially for propaganda and free distribution of leaflets.

*The Book-Depot.*—The Book-Depot recorded sales to the value of Rs. 500.

*The Burma Section Land.*—There were some suggestions to sell our land at Thingangyun purchased for the Headquarters site, but it was decided to postpone this for some time until we can get a good value for it. Out of the funds under this head, Rs. 480 is deposited with the Book-Depot, and Rs. 300 were advanced to the "Blavatsky" Lodge, Maymyo against the building.

The assets of the Society value about Rs. 9,000.

*The Message of Theosophy.*—From the beginning of 1919, the *Message* has been regularly issued once in two months. The *Message* has been brought up-to-date, and now contains valuable Burmese articles, and articles bearing on Buddhism in relation to Theosophy. Enmagyee Sayadaw consented to contribute articles, and his first article appears on the September-October issue of this year on "Pyinnya Thayadaw or "Law of Wisdom". We are trying to reach the educated public more and more. With a view to attain this object, we sent about 500 copies of the *Message* free to people in different parts of the province. This will be continued.

*Subsidiary Activities.*—A good deal of propaganda work has been done in the Star. The Third Annual Convention of the

Order of the Star in the East, though held in a humble manner, was a great success. The report of the Conference was published in all our local papers, and this naturally resulted in many enquiries, and there were over 150 admissions since the Conference held in April last. The Report also dealt with the existence of a certain section of people in Burma who believed in the Coming of the World-Teacher. The Order will be made known during the coming Convention by our respected members of the Yellow-robe, and this will have a great influence in spreading the message of His Coming. Co-Masonry is also taken up with great ardour by many Rangoon members, and a building will soon be ready for its Temple.

Many of our members are working heart and soul for education, and the Burma Educational Trust, half the members of which are Theosophists, has made good progress during the year. The Boys' School has now been raised to a High School, and three graduate teachers have been entertained. Mrs. Fraser is now the Superintendent of the same after Mr. M. Arunachallam's death, and the work is getting on well.

The subsidiary activities in Mandalay were cut short owing to the ill-health of both of our earnest workers Mr. C. G. S. Pillay, and Mr. J. N. Basu, the one suffered seriously owing to the effects of influenza, and the other from a stroke of paralysis. We are glad they have both recovered, and are reviving their activities.

*Last Convention.*—The Convention was held last year in Rangoon under the presidency of Lieut.-Col. G. E. T. Green, when lectures on "The Message of the Future," "Theosophy, an Outline of Some of its Basic Teachings," "How Theosophy Reconciles all religions," "Idealism in Theosophy," and "Tolerance," were delivered by our members.

*Passed to the Peace.*—We have to record here the passing onward during the period of our report of four brothers. Mr. Arunachallam was an ardent worker in the cause of Theosophy in its special branch of education, and was connected with the B. E. T. School whose Honorary Superintendent he was at the time of his death. It was due to his energy and self-sacrifice

that the School rose to its present position. Mr. S. Muniswamy was a cheerful figure in the Burma Section Office, and was in charge of the *Message of Theosophy*. He did good work for the National Education Fund, and also took an active interest in social matters. Mr. Sivaya was an old member of the Rangoon Lodge and during the early days worked and took great interest in Rangoon Lodge meetings. Our Brother U Thein Maung was perhaps the oldest member of the Theosophical Society in Burma. He was well known as an ardent Theosophical lecturer. He, with Mr. Subramania Iyer worked hard for several years in spreading the message of Theosophy in all the important towns of Burma, and organising Theosophical activities. He was the first General Secretary in Burma, when it was formed into a separate Section in 1912. He was also the National Representative of the Order of the Star in the East. Both as a member of the Society, and National Representative, he endeavoured to spread Theosophical knowledge by work on the platform as well as in the press. He was a fine lecturer in Burmese, and wrote several contributions to the Burmese papers about the Star and the Message of Theosophy. Most tolerant and enthusiastic of our members, he was always ready to serve the cause. May they come back to resume their activities in bodies suited to the needs of Burma.

In conclusion we hope with the inspiration of our Leaders and the glowing flame of trust in Them, and the constant endeavour to serve them we will be of greater service to the cause.

May the Peace and Blessings of the Masters of Wisdom rest on the Theosophical Society, and may our Society through its members be a blessing to humanity.

N. A. NAGANATHAN,

*General Secretary.*

## THE T.S. IN EGYPT

*To the President, T.S.*—After the preliminary period of hard work and great encouragement, our Section during the past year has not been so active.

This had long been foreseen, and is largely the result of the departure of so many of our pioneers, attached to the military and naval forces.

Nevertheless work has been continued amongst ourselves in the same way as before, and two items, the new Lending Library and the *Papyrus*, compose our public activities for the moment.

The Library has proved very popular, and as you are all aware, the *Papyrus* improves with each issue. This opportunity is taken of repeating the Editor's invitation to all members to assist in increasing the paper's circulation and also, where possible, by helping to fill its pages with interesting matter.

*Membership.*—For the reason mentioned above, our Membership has fallen from 96 to 74, although 15 new members have been registered. Of the 37 we lost, 32 left Egypt, 3 resigned and 2 were dropped.

I regret to say that many of our members do not realise yet their position in our T.S., they do not realise even the position of our T.S. in Humanity; they are only members by name; they give no help whatsoever; they show themselves very seldom in our midst. We do require help, we do require workers, not only names. Our T.S. in Egypt is too young yet to form a good centre of workers. We have not yet started our propaganda work amongst the Egyptians, owing to political difficulties, but as soon as possible we shall begin.

*Other Meetings.*—In addition to the usual weekly Lodge meetings, a number of special classes and Social, Educational and Executive meetings have been held.

As statistics I have :

Executive Council	...	10	} 60
Theosophical Hall and Library	...	1	
Advanced Class (Egyptology)	...	14	
Enquirers Sunday Public Meetings	...	22	
White Lotus Day (8th May)	...	1	
Social meetings	...	3	
Educational meeting	...	1	
Half public French Lectures	...	4	}
Half public English Lectures	...	4	

Making a total of 60 meetings kept on our Theosophical Hall for the year 1918-19.

*Other Meetings connected with the Theosophical Movement.*—Some of these meetings were kept in our Theosophical Hall, but some others were kept in the private house of one of our Lady-members :

Order of the Star	...	34 meetings
„ Round Table	...	6 „

I beg to invite suggestions from each one of the brothers of our T.S. in Egypt for the development, enlargement and deepening of our work.

In our early days we did much in the way of spreading the good news. I think we all realise now that perhaps the greatest propaganda of all is the spiritualising of each individual life, especially in regard to relationships, with others.

Surely Theosophy is a spiritual thing, and the greatest good to the world and incidentally to the Society, accrues from the growth in spiritual understanding. Let this, then, be our watchword for 1920—with it we cannot fail.

Our beloved President, Mrs. Annie Besant, passed through the Suez Canal in the month of May last on her way to England. Enquiries had been made both by wire and letter as to the date of her departure from India, but news on the subject did not reach us until the day after she had left Port-Said, but we met her on her return.

*Visitors F.T.S. Passing through Cairo.*—In February, 1919, we had Major Peacock, from Adyar. He was so kind as to give us a few reminiscences of his Theosophical life.

In April, 1919, we had Mrs. W. Veinstein, President of one of the Odessa Lodges, escaped from that town before the entrance of the Bolshvists. She also gave us a few reminiscences of her Theosophical life.

In April and May was also with us Sister Claridge, Member of "The Healers' League" of London. She is back again in Cairo, being a very active member.

EGIZIO VERONESI,  
*General Secretary.*

## THE T.S. IN DENMARK AND ICELAND

*To the President, T.S.*—I hereby beg to send you the Annual Report concerning the work of the T.S. in Denmark and Iceland. As you know, the Danish-Icelandic National Society held its first General Assembly on November 17th, 1918. Before that time a committee consisting of four members had composed a proposal for the laws of the new National Society. With a few alterations this was carried, and thereafter sent to Adyar to be sanctioned by you. Our National Society had then seven Lodges—five in Denmark and two in Iceland. During the past year five new Lodges have been erected, so that the total number of our Lodges is twelve at present. As enquiries from outsiders continually were streaming in, four of the members of the Society have founded a preliminary Theosophical school, where Theosophy, Comparative Religion and Esoteric Astrology are taught. With the exception of the common holidays, this school holds a meeting once a week, and the interest is so great that unfortunately our premises are far from being able to hold the persons interested.

Upon the whole, we notice among Danes and Icelanders a growing interest in questions of a spiritual nature, and a wish to get these answered through Theosophical studies. In order to awaken the public attention, the Council of the National Society has, during the winter, caused meetings to be held, to which outsiders also have received invitations. At these meetings lectures have been given, and especially good music has been produced. Thus at our last common meeting, with the co-operation of our best Danish musicians, Omar Khayyam's *Rubaiyats*, with music by Lizzie Lehmann was performed, and in the near future we hope to make our members and others interested

enjoy the performance of the Swedish poet Rydberg's beautiful poem *Snöfrid*, with music by the Finnish composer Sibelius.

During the last year I have visited and given lectures in several of our Lodges, and I have found that by these an earnest and energetic work is being done. Of this I shall especially mention, that the presidents of the Maria, the H. P. Blavatsky, and the Olcott Lodges have given Theosophical lectures in different parts of the country, and that these meetings in general have been very well attended.

On readjusting the registers there was a loss of 45 members during the past year. I beg to remark that about 35 of these are owing to corrections made at the founding of the National Society in 1918, so that this loss, in reality, extends over several years. The Council of the National Society hopes in the near future to be able to found its own publishing house; until now this has been impossible on account of the great expenses connected with it. Here, in Denmark, has already for several years existed a Danish Theosophical Publishing House; it is outside the Danish-Icelandic National Society, but with great thankfulness we profit by its strenuous work. I beg, on behalf of our National Society, and on my own behalf, to send to our beloved President our best wishes for the coming year, and our deep-felt, earnest thanks for the work she is doing for humanity.

ELLEN BILLE BRAHE SELBY,

*General Secretary.*

### THE T.S. IN IRELAND

*To the President, T.S.*—During the past year, the movement in Ireland has taken a big step forward, and for the first time, in its thirty years of existence, there has formed a National Section.

Up to about 1908 the Irish Branch formed part of the English Section, but after that became a separate organisation under a Presidential Agent. During the year under consideration new Lodges were formed in Cork, Londonderry and Dublin, which, with the two old Lodges in Dublin and the two old Lodges in Belfast, made it possible for the first time to apply for a National Charter. Delegates from the several Lodges met in Dublin in March, 1919, to consult with Mr. Baillie-Weaver, the General Secretary for England, who generously came over to give them the benefit of his experience, and as the result of the Conference, it was decided to form the Irish National Society. The application was forwarded to Adyar on the 9th May, and after a delay due to the President's first visit to Europe after the War, the Charter was duly signed on the 25th August, 1919.

During the year also the English Section again generously helped the work both financially and by the loan of lecturers, Miss Codd, in particular, getting large and enthusiastic audiences; Mr. Harry Banks, an official lecturer of the New Zealand Section, did fine pioneer work in outlying centres, for which we feel very grateful.

The total Irish Membership has been increased from 66 to 106, in addition to a number of Associates.

The passage of those who have had some part in connection with the Great War has provided many opportunities for linking

up our Headquarters in Dublin with distant lands, and some have come in touch with Theosophy for the first time in Dublin, and on returning to their country have expressed their friendship and desire to keep in touch. Quite a little band of Irish members have gone to England to take part in the Educational Movement, and we look forward to their return some day to take up that work in their native land.

P. LESLIE PIELOU,  
*General Secretary.*

## T.S. SUBSIDIARY ACTIVITIES

## THE THEOSOPHICAL EDUCATIONAL TRUST

(IN GREAT BRITAIN AND IRELAND), LTD.

*11 Tavistock Square, London*

*To the President, T.S.*—At the close of its third year of activity, the Theosophical Educational Trust (in Great Britain and Ireland), Ltd., looks back on twelve months of ever-widening opportunities. The two main currents of its life are directed. *First*, to the establishment and maintenance of schools conducted in accordance with the principles and ideals of Theosophy, and *Second*, to the propagation of these principles and ideals in the various fields of education. The strength of this latter current is supplied chiefly by the Theosophical Fraternity in Education, which is affiliated to the Trust.

The most interesting development of the year's work was the laying by Mrs. Besant, President of the International Theosophical Educational Trust, of the Foundation-stone of the new day-school which is being erected in Letchworth. When completed, this building will be occupied by the present Modern School, re-named S. Christopher. The Ceremony took place on 25th September, a beautiful early autumn day, and was attended by the Chairman and Directors of the Trust, and a large number of invited friends.

Mrs. Besant, after the laying of the stone, spoke to the assembled scholars, recounting to them the story of S. Christopher, after whom the new building is named. An interesting fact is that the site unintentionally chosen for the stone, is the corner of the Montessori room.

Negotiations for the acquiring of buildings and grounds for the Besant School, which was to have been opened in the

Midlands, had to be broken off at the last moment. The Trust was fortunate, however, in securing the buildings, grounds, and connection, of The Home School, Grindleford, near Sheffield, from the retiring Principals, Mr. and Mrs. William Platt. This school was re-opened under the direction of the Trust, this September, with Rev. F. W. Pigott and Miss Pigott as Principals, and with the full number of pupils which it can accommodate at present, 72, of whom 48 are boarders.

The Home School is the most beautifully situated of all the Trust Schools, standing in the midst of the grand scenery of the Peak district.

It is intended chiefly for the children of Theosophists who are members of the National Society in England and Wales, and a number of bursaries have been granted to help to provide the necessary money to enable Theosophists who cannot afford to pay full fees, to send their children to this school.

Bursaries have been granted, this year, to 12 pupils of The Home School, to 6 of Arundale, to 3 of S. Christopher's, and to 1 of Penrith New School.

The Trust accepted with deep regret the resignation of Dr. Armstrong Smith from the Principalship of Arundale School, Letchworth, who on account of continued ill-health, was forced to relinquish his duties last Christmas. Arundale owes its present thriving life to his unselfish work and care. Mr. Wilfrid Layton, B.Sc., F.R.C.O., is the new Principal.

The pressure of other claims has caused the loss of Mrs. Josephine Ransom to the Trust, for which she had worked so devotedly since its creation in 1915, not only as Hon. Secretary to the Theosophical Fraternity in Education (U. K. Section), but as an untiring lecturer and writer.

The extension of the work of the Trust has been so rapid, that it has been found necessary to create a department controlled by a Business Manager, to deal with the administrative side as distinct from the educational. For this post, the Directors have secured the services of Capt. R. W. Ensor.

The Trust has now six schools under its direction, two of which, in Scotland, are managed by the Scottish Educational

Trust, and affiliated to it are two other co-educational boarding- and day-schools, the Principals of both of which state that the connection of the Trust has proved most helpful to them.

It is estimated that about 456 children are receiving instruction in these schools.

During the last year four educational books have been published under the auspices of the Trust : *Ethics of Education*, by B. de Normain and G. Colmore ; *Our Philosophy of Education*, by Josephine Ransom ; *Schools of To-morrow in England*, by Josephine Ransom ; *Some Ideals in Co-education, and An Attempt to Carry Them Out*, by Armstrong Smith, M.R.C.S., L.R.C.P.

#### ARUNDALE SCHOOL

(Letchworth, Herts)

During the last year this school has continued to make steady progress in all its departments. Its ideals of co-operation and service, and the fact that gossip is absolutely forbidden, conduce to the creation of an harmonious atmosphere.

Many experiments have been made in self-government, attended by much success and some failure. Several pupils arrange their own time-tables for study, and this privilege is extended as the children show themselves ready for it.

It is hoped to make Music one of the greatest developments of the school. There is a flourishing choir under the direction of the Principal, and much advance has been made in the Appreciation classes.

The *Arundale Magazine* is written, edited, and printed on the school press, by the scholars alone, who also manage every detail in connection with its publication.

The pupils of this term number 40 boarders and 26 day scholars, but the school is capable of accommodating 50 boarders. The majority of the vacancies are on the boys' side. A certain proportion of the day scholars have been transferred to S. Christopher and it is only in very exceptional circumstances that new day pupils are enrolled.

Organised games figure largely on the curriculum, and the playing-fields provide ample space for cricket, tennis, hockey, and football, which, with the exception of football, boys and girls play together.

The scholars have the entire care of the poultry and bees, under the supervision of the gardener.

Extensive alterations have been carried out during the year. Several bath-rooms have been added, including a shower-bath for the boys, and a new wing has been built for the use of the domestic staff. A system of hot-water heating has also been installed throughout the whole building.

#### S. CHRISTOPHER

*(Letchworth, Herts)*

The Modern School (re-named S. Christopher), was opened in September, 1918, under the guidance of Miss Isabel King, with 38 scholars on the roll, and has rapidly become a corporate part of Letchworth. The premises are not now large enough for requirements, and the Trust is erecting a large school to which the present pupils will be transferred. This will provide ample accommodation, and the best of environments, and will be ready, it is hoped, early in 1920.

This September, a year after the opening, the number of scholars attending the school stood at 60.

The religious teaching, as in all the Trust schools, is non-sectarian. A difference from the orthodox school is shown by the fact that the Theosophical attitude in discussion is welcomed. The great aim is to engender in the pupils a spirit of tolerance allied to an appreciation of the point of view of others. It is the endeavour so to educate the children, that their ideals may be of practical use in the enriching of the world.

The usual secondary school subjects are taught, special attention being paid to housecraft, woodcraft, art and gardening. The atmosphere of the school is a happy one; every encouragement is given to the practice of co-operation, and promising attempts are being made at self-government.

At the laying of the Foundation-stone of the new S. Christopher the children were very much impressed by Mrs. Besant's address to them on the story of the Saint. They have determined that they will be S. Christopher to all creation weaker than themselves.

BRACKENHILL THEOSOPHICAL HOME SCHOOL

*(Bromley, Kent)*

Last year, this school was put under a new regime which substituted one department for three, and is now intended only for normal children above the age of two or three years, who have no homes or whose homes are undesirable.

The children have benefited by the change, and are progressing steadily, though scholastic attainments are made subsidiary to health. The usual subjects are taught, and a thorough grounding in the primary branches of education is given. Life is passed in the open air as much as possible.

The endeavour is to make of these children, useful, self-respecting workers and citizens, fit to undertake the responsibilities of life. Special attention is given to useful work in house and garden, boys and girls alike doing their share.

The improvement shown by the Montessori babies, especially, after a short time in the Home, is quite extraordinary. Each has his or her own little place in the life of Brackenhill, and learns quickly to consider the other children as brothers and sisters. There are 10 of these little ones between the ages of 2 and 5.

The small community is an exceedingly happy one, and the 26 members of it flourish wonderfully in the fresh air and in the atmosphere of love and gentleness with which they are surrounded.

The limits of the school are taxed to the utmost at present, and the Managing Committee is most anxious to move it right into the country, and to extend its scope. One large Home would not be established, but several small ones, as it is desired

to avoid anything similar to an institution. Funds are most urgently needed for this Extension Scheme, and a special effort is to be made in the New Year to obtain them.

An interesting subscription is that of the Theosophical Section, in New Zealand, who endowed a Cot and nominated to it a boy whom they have undertaken to start in life in New Zealand when the time comes.

About £300 was collected during the Brackenhill "week" held last January, and it is hoped considerably to increase this sum in 1920.

#### PENRITH NEW SCHOOL

*(Finchley, London)*

The maximum number of pupils which can be cared for in this school, 60, are now enrolled, and particular care is taken that all shall make the most of their opportunities. The age limit has been reduced to 12 years, as the school is more adapted to the needs of children from Montessori age upwards. Of the 14 boarders, 9 are six years of age, or under.

Much attention is paid to hand-work of all kinds, and to languages. Dr. Montessori's valuable didactic apparatus is in use in the Lower School. The chief features of the school are its co-education, its open-air life, and its music, taught on the Yorke-Trotter rhythmic method.

The Principal states that the visits during the summer term of certain advisers appointed by the Trust, proved to be most interesting and helpful.

#### LEINSTER HOUSE SCHOOL

*(Hyde Park, London)*

The school has been amalgamated with the London Garden School, as it was considered that the neighbourhood was no longer desirable. The report is included therefore in that of the London Garden School.

## LONDON GARDEN SCHOOL

*(St. John's Wood, London)*

A great increase in activity is reported from the London Garden School this year. The number of pupils has risen from 52 to 112, and a general advance has been made in the whole life of the school. The ideals for which the school stands—freedom, self-discipline, co-operation, independence of thought and judgment—are slowly establishing themselves, especially in the Middle School.

A considerable amount of original work has been done in painting, needlework, musical composition, plays, stories, and verse. Speech-making is now also a regular institution, and many of the children show considerable promise. The *L.G.S. Magazine* made its first appearance in 1918, and has been followed by four other numbers, all entirely the production of the scholars.

An inspection of this school was carried out in various subjects by advisers appointed by the Theosophical Educational Trust, and it is anticipated that their kindly criticism and advice will be most valuable.

## THE SCOTTISH EDUCATIONAL TRUST

Since the issuing of last year's report, the Scottish Educational Trust has been legally created, and into its charge has been given the care of King Arthur School, near Edinburgh, and of the Moray School, in Glasgow. It was considered advisable by the Theosophical Educational Trust that the governance of Scottish schools should be largely in the hands of Scottish educationalists, and the majority of the Directors of the Scottish Trust, therefore, are resident in Scotland.

## KING ARTHUR SCHOOL

*(Musselburgh, Scotland)*

This school has made a very promising beginning with some 40 pupils, seventeen of whom came from Essendon Girls'

School with the Principal, Miss Pagan, when that school was closed.

Temporary quarters had to be secured in Edinburgh until the beautiful house was ready, and it was not until Easter that the pupils and staff were able to move in. The school grounds are most lovely, and include an old-fashioned garden with box-bordered flower-beds, and clipped shrubs, and a fine rose garden. The view from the grounds is one of mountain and sea.

King Arthur School provides a thoroughly good general education for boys and girls together, under the most favourable conditions for health and happiness. The aim of the school is to lose nothing of the real strength of the time-honoured school training, and to add thereto a greater stimulus to originality of thought and feeling, with a wider interest in nature and humanity.

This is the first co-educational boarding-school to be started in Scotland, and its progress will be watched with exceptional interest.

#### MORAY SCHOOL

*(Glasgow, Scotland)*

The Moray School was started in 1918, under the auspices of the Theosophical Fraternity in Education, with Miss Dorothy Dear as its Principal. The school has now been transferred to the Scottish Educational Trust, who have placed it on a different basis, under the guidance of Mrs. Munro. It is a small preparatory school which has aroused considerable interest in Glasgow, and is intended chiefly to meet the needs of middle class children. It is progressing steadily, and has a roll of some 15 pupils.

#### THE THEOSOPHICAL FRATERNITY IN EDUCATION

*(United Kingdom Section)*

This society was founded in 1915 for the purpose of gathering into a co-operative Brotherhood the different members of

the vast teaching body who were in rebellion against the bonds of convention and conservatism which shackle the whole profession, and who were trying to raise themselves and their fellow-teachers into a position of freedom to act in accordance with their ideals.

The United Kingdom Section is realising itself more and more as a united body, and its members each feel that he or she has the interest, sympathy, and encouragement of the whole organisation. There are now over 560 members and associates; this figure is not the result of sudden isolated waves of interest, but is a steady growth throughout the whole length of its existence. This perhaps is one of the most significant facts about the Fraternity, showing the solidity and the strength of its establishment.

The resignation of Mrs. Josephine Ransom from the Hon. Secretaryship of this Section of the Fraternity, is a matter of much regret. Mrs. Ransom was one of the founders of the society, and from the first took up its interests with the most unselfish devotion, not only undertaking its organisation, but also lecturing constantly in its behalf throughout Great Britain. To her fell that hard pioneering work—the awakening of public interest in a new educational scheme which was also Theosophical, and her success may be estimated from the fact that the membership stood at over 500 at the time of her resignation.

Mr. I. A. Hawliczek, B.Sc., has now been appointed Organising Lecturer and Secretary to the Fraternity. Tours in England, Scotland, Wales, and Jersey have been arranged for the present season, and the work of organising Federation areas in this Section is nearing completion. At present there are 8 Federations and 18 Groups in active operation, and it is hoped that by the end of the winter the whole national area will be in good working order.

During the year that has passed, extensive lecture tours were undertaken by Mrs. Ransom and Dr. Armstrong Smith in many parts of Great Britain, when public interest was aroused and stimulated. The ideals of the Fraternity make immediate

appeal to all, thinking people who are anxious that the children of the race shall have every opportunity of development which they need.

All the Principals of the Schools belonging to the Theosophical Educational Trust as also some members of the staff of each of them belong to the Fraternity. This is found to be most advantageous to the work of the Fraternity.

This year, the Fraternity held its Summer School at Cambridge in conjunction with the New Ideals in Education Conference, which was attended by some 52 members and friends.

The realisation of itself as a living force was felt to have strengthened in the Fraternity during the past year, and the spirit of unity and friendliness was marked. An excellent programme of lectures, chiefly on the application of the new ideals, by members who had personally applied them, was arranged, in addition to the course given by the Conference.

Each day began with a short meditation, and sociable evening discussions were held. The river picnic given last year at Oxford was so much enjoyed, that another delightful one was arranged this Summer. It is hoped to be able to hold the Summer School in 1920 in Scotland, and for a longer period of time, than seven days.

The Theosophical Fraternity in Education is an International body, the President of which is Mr. G. S. Arundale, M.A., L.L.B., F.R. Hist. S., and sections are in actual operation in India, The United States of America, New Zealand, Belgium, and are in process of formation in Egypt, South Africa, France and Holland. Norway, Sweden, Denmark, Switzerland and Algeria have been corresponded with, and it is hoped to be able to organise sections in those countries. Australia founded the Australian Educational Fraternity, and hopes later on to be able to form an inner section of Theosophists which will be a part of the International Theosophical Fraternity in Education.

The Constitution and Rules of the International body were amended and ratified last winter by the countries in which the Fraternity is now working.

There is, it is believed, no other similar educational organisation of an international character, and this feature renders the Fraternity of invaluable help to education generally, opening the way to wide and intelligent work. It is hoped to arrange, in the future, for the interchange of teachers throughout the world, so that each country may be helped from others in the education of its children.

An international quarterly magazine is to be published next year as an experiment, at the price of 6d. It will be purely educational, and ought to appeal to those who are outside the T. S. altogether. It will include articles by well-known educationalists; notes gathered from all over the world; descriptions of experimental schools; and a section to which teachers in any country may apply for suggestions (contributed by persons who have themselves been successful), in the application of the new ideals.

The Theosophical Educational Trust and the Theosophical Fraternity in Education now stand established as two aspects of an international world-wide forward movement which is taking place in education. Great activity is being shown everywhere, and the Trust organisation has proved itself invaluable, with its rapidly increasing experience of the difficulties to be overcome.

BEATRICE ENSOR,

*Director and Organising Secretary.*

## THE N. Z. THEOSOPHICAL EDUCATIONAL TRUST

*To the President, T.S.*—The ending of our financial year (30th November) makes it my duty to present to the members of the Educational Trust a brief report on the progress made during the first year in which the Vasanta College has attained actual realisation and embodiment. This end was not reached without considerable effort, necessitated by the great amount of work that had to be done in the short time between the 22nd January, the earliest date on which we were able to take possession of our new property, and the 10th February, when pupils were actually received at the school. Thanks, however, to the earnest and devoted efforts made, all difficulties were surmounted, and the school began its career at the due time.

The school year closes with a roll of 37 pupils, *viz.*, 11 boarders (4 girls and 7 boys), and 26 day scholars (10 girls and 16 boys). Immediately after the opening of the school, it was necessary to effect some considerable alteration and enlargement. This was completed at a cost of about £600, details of which have been given in interim circulars. These enlargements have proved of much value, and will, no doubt, recommend themselves to the many visitors by whom we hope they will be inspected at Convention time. But there are further improvements that are much needed, and we hope that the not very distant future will find us provided with the means for effecting them. The chief of these is a large playroom, the want of which is much felt in wet weather, when the children are not able to resort to the delightful grounds under the open sky.

The health of the children has been very good, and marked improvement has been made in many cases. The school has had one visit from the Inspector, on which occasion one boy,

who was ready to take the proficiency examination, passed with credit; but Mr. Butler's report will contain fuller particulars on the progress of the school. A full share in promoting whatever degree of efficiency the school has attained must be credited to Mr. Butler, whose services, given gratuitously during the year now closing, are gratefully acknowledged. Mr. Butler will receive a salary from the beginning of the new year.

To fill the vacant position of House-mistress, the Board have secured the services of Miss A. L. Stephenson, at one time President of the T.S. Lodge at Calgary, Canada.

The cottage on the hill above the school has been completed at a cost of nearly £400, of which £100 was lent specially for this purpose without interest. We are letting the cottage to Mr. J. Ross Thomson for twelve months at a rental of £20. In the matter of this cottage, our special thanks are due to Mr. Carter, our Treasurer, who has done all the architect's work connected with it. Our cordial thanks are also due to Mr. Vicary, who has given his whole time to the care of the garden and grounds, a service of which it is difficult to speak too highly. One of the pupils, Lionel H. Gillman, under the supervision of Mr. Vicary, milks a valuable Jersey cow, the generous gift of Mrs. Dibble. Many other gifts have been bestowed and services rendered. In connection with the building work we have to thankfully acknowledge the very valuable aid given by Mr. H. F. Robinson, architect, and Mr. A. Blackman, carpenter. I must also tender my own thanks to Mr. Simpson, the Vice-President, who has so efficiently discharged duties and responsibilities that should have fallen upon me; and I wish to include in this acknowledgment all the Executive Committee, to whom my incapacity for "active service" may have caused more trouble and expenditure of energy.

J. GILES,

*President.*

## THE OLCOTT PANCHAMA FREE SCHOOLS

*(From December 1, 1918 to November 30, 1919)*

*To the President and Board of Managers.*—During the past year the work went on steadily in our schools according to our well-tried methods and with the same success as in former years. We sent some exhibits, in the shape of drawings, brushwork and clay models from pupils and teachers, to the Periyakulam Educational Exhibition. The Managing Committee expressed their appreciation and thanks for them. Though ours are nominally boys' schools, we have also girls, and Mrs. Drysdale, the Inspectress of Girls' Schools here, is ever mindful of their existence. In August, when Miss Greene, the Inspectress of Girls' Schools of the United Provinces, was sent to Madras to visit schools, Mrs. Drysdale put ours also on the list of those Miss Greene ought to see. The latter wrote in the visitor's book of the Damodar Free School (the one she visited): "This visit gave me much pleasure. It inspires one to see good, steady work done, especially when such work helps to brighten the lives of the little children who attend a school of this type. The teachers appear interested in their work and the children are bright and happy looking. What I have seen here to-day will surely be a help to me in my work in a distant Province. Miss Kofel is to be congratulated on the results of her good work."

(Sd.) LINDA A. GREENE,

*Inspectress of Girls' Schools, Agra, U.P.*

Miss Greene also took away two of our medicinal plants.

Again lately we were invited by the Inspectress of Girls' Schools to participate in the "Madras and Southern India

Exhibition of Women's Work," where we received certificate awarded by H. E. Lady Willingdon for a display of twenty-four Medicinal Plants, grown by the girls in their school gardens.

This is encouraging for the garden work. We have made several successful experiments. Thus in two of the gardens we had some ripe pine apples; in two others we succeeded in having a small patch of lucerne for a while, though it was difficult to preserve the young plants from some ravenous stick-insects and caterpillars; in three water-cress is flourishing and in all the five gardens we had a few flax plants.

An increase of 50 per cent of the Grants-in-Aid has again been recommended by the Sub-Assistant Inspectors for good work done, but as the Capitation Grants have quite recently been abolished, it is doubtful whether the whole amount will reach that of the last two or three years. Information has so far only been received about the Olcott School. For this we shall get Rs. 50 more than last year.

As in former years the Teachers' Training Class continues to meet every Saturday at the Damodar School, for the general improvement of the teachers.

We continue to help a few of the former pupils to receive higher instruction. One of these who has now passed into the fourth form has just been awarded a scholarship by the institution.

The daily distribution of rice cakes is more than ever needed and appreciated in these times of distress and scarcity. A small feast provided by the Corporation for the schools within municipal limits in commemoration of the signing of the peace treaty was greatly enjoyed by the children.

On the whole there was less sickness among teachers and pupils than last year.

The night classes at the Annie Besant School, Krishnam-pet, attended mostly by scavengers, continues to be held regularly.

The strength has again slightly gone down during the year. Owing to the continued economic stress, our children have more and more to be wage-earners.

My thanks are once more due to Mr. C. N. Subrahmanya Aiyar, B.A., Retired Assistant Inspector of Schools, for having visited the schools during my absence due to ill-health, and also at other times.

### NUMBER OF DAY SCHOLARS ON THE ROLL, NOVEMBER 30TH, 1919

Standards	Olcott School	H. P. B. Memorial School	Damodar School	Tiruvalluvar School	Annie Besant School	Total
	B. G.	B. G.	B. G.	B. G.	B. G.	B. G.
Kindergarten	13 3	18 20	13 13	14 11	25 12	83 59
I	39 12	17 2	10 19	26 5	34 9	126 47

C. KOFEL,

*Superintendent.*

# THE TREASURER, OLCOTT PANCHAMA

## FREE SCHOOLS

*To the President and Board of Managers.*—Our balance-sheet for the year ending 31st March, 1919, needs but few words of explanation. Briefly put the position is as follows :

Income	...	...	Rs. 10,642-15-9
Expenditure	...	...	„ 9,629-15-4
			<hr/>
<i>Surplus</i>	...	...	„ 1,013-0-5
<i>add: Opening balance on</i>			
1st April, 1918	...	...	„ 611-1-11
			<hr/>
<i>Closing Balance</i>	...	...	„ 1,624-2-4

carried forward to the credit of new account.

Compared with the preceding year our expenditure has somewhat risen, owing to the necessity of granting scarcity allowances to our teachers ; in all other respects it has remained at the usual low level, thanks to the utmost economy exercised by Miss Kofel, whose efficient management has also resulted again in substantial grants-in-aid (Rs. 3,423, by Government).

We acknowledge with many thanks donations amounting to Rs. 6,182-7-9 an unusually high figure, which does not, unfortunately, denote an increased interest in our schools by the Indian public in general and the Madras public in particular, seeing that Rs. 4,200 of this amount came from one single European source and about Rs. 1,000 from various donors in Europe, America and Australia.

We can only repeat what has been said so often, that our schools need annually about Rs. 5,000 (£500) in donations to keep them going, and friends of our late Col. Olcott cannot honour his memory in a more appropriate way than by helping to carry on this work which he started and had so much at heart.

A. SCHWARZ,  
*Secretary-Treasurer.*

## THE MUSÆUS COLLEGE

*To the President, T.S.*—In submitting my Annual Report of the College for the year ending November, 1919, I have the pleasure to state that the work compared with that of the last year shows a marked progress in the attendance of pupils and in the general work of the College. The Government inspection was held in July and the Inspectress was satisfied with the progress of the College, and she made some valuable suggestions for improvement in the general work of the English School.

The work of the Sinhalese Training College and the Practising School also received favourable comment from Government. We presented for the Final Examination for the Teachers' Certificate 18 students out of whom 12 passed and they are already employed as Head Mistresses in Buddhist Sinhalese Schools and are doing excellent work, as indeed, all our students are who have gone out from the Training College in previous years to teach.

Of our Staff, Miss E. W. Preston of Melbourne, Australia, M. Sc., left us early in the year her services being temporarily engaged, while her mother Mrs. Preston has joined the College and she is doing excellent work. She is devoting much of her attention to the improvement of the kindergarten and the success of her work is daily noticeable.

Two of our teachers who had been educated and trained in the College are leaving us to get married. They filled their portions of trust with marked ability and loyalty to the College. They take with them our deepest love and affection to build their new homes.

In the Public Examinations to which some of our students entered they have done well.

In the Cambridge Local Junior Examination out of three students presented one passed. She obtained a Government Scholarship (from 1920) to be trained in the Government Training College as a Teacher in English. After a course of

two years training there, she will come back to us to teach in our College.

For the E.S.L.C. Examination we sent in three students and all of them passed.

For the Music Examination held by the Associated Board of the Royal Academy of Music and the Royal College of Music, we sent in four students. They all passed, and one of them obtained Honours and distinctions.

In my last Report I alluded to the need of increased accommodation and to the necessity of opening our Industrial School for Girls. I cannot yet see my way to meet those demands, owing to lack of funds, and European trained and sympathetic help. Another department I have in view is a College of Domestic Science, with a Boarding Establishment for the kindergarten pupils. Neither could this work be taken up till my position is sufficiently strengthened by funds and competent European helpers. The need of the latter is much more felt than the former. I can employ immediately three and four such helpers. I am prepared to consider, from a business point of view, applications from Trained and qualified ladies either from Europe or America for service in the College. Will Trained Teachers or Graduates from Universities who would happen to read this and who are willing to come out to join us in our work in this beautiful Island of Ceylon, please write to me for any information they need further on the subject.

In our field of other activities the attempt I am making to revive the Order of Buddhist Nuns is yet receiving consideration. It has been favourably noticed by the Press. I am awaiting to hear from European and American Buddhist women on the subject. It is yet too early to hear from them. Perhaps next year I will hear, when we could definitely decide the future course of action to be adopted.

I wish your work in the Theosophical Society continued success.

M. MUSEUS-HIGGINS,

*Directress.*

---

## THE LEAGUE OF PARENTS AND TEACHERS

### REPORT ON WORK DONE DURING THE YEAR 1919

*To the President, T.S.*—The League of Parents and Teachers was started by our elder brother, C. Jinarājadāsa, on the 28th of December, 1915, with the help of a few Theosophists with Bro. Justice T. Sadasiva Iyer as its President and myself, Secretary. Through the active co-operation of the already existing organisation for propaganda in the Indian Section, the movement became a success. A number of advanced Theosophists undertook to write and speak in furtherance of the cause in addition to the regular staff of Provincial Secretaries, Lecturers and Inspectors or Travelling Organisers. Such a start made it easy for us to enlist the sympathies of Head Masters of Schools and Principals of Training Colleges in different parts of the country. Meetings of Theosophical Conventions in the same places as the National Congress were of great use to us in coming into touch with the educated people in the country. Co-operation of a number of young men in last year's propaganda work in Delhi and Bro. G. S. Arundale's lecture on "The Relation of Parents and Teachers to Children" in the Vaishya Conference pandal gave such an impetus to the movement that the Secretary's office, which, by the bye, consists of honorary student workers, was busy through the greater part of the year replying to enquiries and executing orders for the literature of the League.

"Twentieth century is the century of the child," says Ellen Key, a German lady-writer and worker in this field, whose book *Education of the Child* has become so popular in America for its vigorous denunciation of corporal punishment

and scientific advocacy of the love-method. Her utterance has a special significance for India which trusts most to the rising generations for her success in the career of Representative Self-Government on modern lines.

In view of the great need of the Motherland the first pamphlet issued by the League during the year under report was *Ideals of Education for India* based on a lecture on "The Ideals of a Hindu University" delivered by Bro. C. Jinarajadāsa in Gwalior in the beginning of the year. It takes the child's standpoint rather than that of the Government, and contains some incisive criticism of the existing schools. "Prevention of Cruelty to Children" written in a humorous tone in the form of a Legislative Bill by an experienced lawyer in the Central Provinces together with another pamphlet written by the Secretary on "Home Influence or Discipline through Love," summarising the results of the latest educational research, is our contribution to the enlightenment of the homes. "Physical Defects of Children obstructing their Mental Growth" by Bro. Framji Kharsetji of Bhavnager draws the attention of parents and educational authorities to diseases of the eye, ear, throat, teeth, chest and bones as impediments to the mental growth of school-going children, and is intended to bring to the notice of the Government authorities all over the country the value and necessity of medical inspection in schools. Our first pamphlet passed through its second edition and bears the name of *The Child* with a beautiful quotation from the King-Emperor himself emphasising the value of homes in the scheme of national organisation. Last, but not the least, is our tenth pamphlet named *In the Service of the Student*, by Bro. G. S. Arundale, calling on teachers all over the country to make a thorough and systematic study of the tendencies in their pupils with a view to help them to build up the desirable and eradicate the undesirable qualities by the time they grow into full-fledged citizens.

A good deal of propaganda was done during the year by Bros. H. K. Mehta, M. N. Doshi and Beni Shankar Bhatt in Gujarat, the last of whom spoke in 47 places, carried League

literature about him for sale and addressed about 25 meetings of ladies. Bro. Malliah did almost the same for Behar. Bro. Kulada Prasad Mullic worked, as last year, in Bengal, Assam and Orissa. Bro. T. Ramachandra Rao in the Madras Presidency and Bro. K. Narahari Shastri in Mysore State have been doing their best as usual. Bro. W. L. Chiplonkar addressed meetings in Maharashtra and Berar the during Ganapati festival. Bro. M. D. Pandey emphasised our view of child treatment at various places in the United Provinces and Punjab during the course of his public lectures on National Education. Bro. Radhe Kant Saran, Deputy Collector, Chapran, and a number of other Government officers who have to do touring work have done a good deal to spread the idea among village teachers.

The Secretary visited 45 places in Central India and Rajputana, Maharashtra, Nizam's Dominions, C. P. and Berar. In the month of December he delivered lectures in Patna and Calcutta and enlisted the sympathy and co-operation of the Professor of Child Psychology in the Calcutta University. The Secretary of the Association of Guardians and Teachers, Madras, has joined the League and undertaken to co-operate. The League is thankful to Bro. Rai Bahadur Purnendu Narain Sinha, Secretary of the Behar Provincial Exhibition in the recent Peace Celebrations for giving a place to the League literature in the Social Service exhibits. The movement is also deeply indebted to the Head Masters of the different schools in Maharashtra and Behar for allowing the Secretary the use of their magic lanterns and operators for exhibiting the slides on the physical defects of children obstructing their mental growth. The magic lantern lectures were highly appreciated everywhere, the most effective ones being those in Dhulia and Dharwar addressed to about 300 pupil-teachers in Training Schools there. The Secretary is trying to have a magic lantern belonging to the League from the coming year. He addressed ladies' meetings at Indore, Nagpur, Sangli and a few other places. Some educated ladies have given donations to the League.

The following are some interesting remarks from other workers :

"In the Vasanta School here," writes Bro. Venkatrao from Hyderabad, "we are making parents understand how corporal punishment can be dispensed with at home as in the school. I have translated the chart of *Education as Service* into Telugu and the branch of the Women's Indian Association which we have formed here has kindly undertaken its publication at their own cost."

Bro. Kalyanrai Joshi's example is worthy of emulation in every enlightened home. He says : "A small exhibition was held at my house for children, wherein all the boys and other educative material used by my daughter of six years were exhibited on her birthday."

Mrs. Saralabai Naik, M.A., Head Inspectress of Girls' schools in Indore has started a mothers' Society. Every fortnight she invites mothers and other female relations of the girls, and some important topics are discussed informally.

Bro. K. Narhari Shastri reports : "I did some work to create interest in the love method of teaching and abolition of corporal punishment by means of lectures, conversations and Harikathas especially in Prahlad Charita. By way of demonstration to teachers I took their classes for some time to bring home to them the ease and joy of the new method."

Our translation work has been going on apace though not as rapidly as it is desirable. In Urdu we have pamphlets Nos. 1, 2 and 5 ready for distribution and sale, in Hindi and Marathi pamphlets Nos. 2, 3, 4 and 5 and in Gujarathi Nos. 3 and 5 for the present. Bro. Kalyan Rai Joshi, Editor, *Kelavani* (Education), Baroda, has consented to bring out all the pamphlets in Gujarati during the coming year. Bros. M. N. Doshi of Ahmedabad, Sarvate and S. T. Dravid of Indore, A. P. Pandey of Motihari and V. R. Dholakia of Calcutta, M. B. Garde, B. R. Bhalerao and Nazir Hussain of Gwalior are among other helpers in the translation work.

Last year's chart on *Education as Service* is translated into Gujarati, Telugu and Hindi. It is to be hoped that it will be

done into all the languages of the land before the end of the coming year in order that its ideas be carried to schools in towns and villages all over the country. This year's chart of the Principles of Education included in our pamphlet No. 7 *Ideals of Education for India* contains a similar set of upto date ideas of Mrs. Besant for the home and deserves to be translated and circulated as soon. Its Hindi translation done by our energetic worker Bro. Bhalerao is in press. Bro. Bhalerao has undertaken the translation of *Child Training in the Light of Theosophy* which will be ready for sale during the course of the year.

It is interesting to note that the wave of Child-Study is spreading far and wide and articles and discussions are appearing in leading journals like *New India*, *Leader*, *The Times of India*, *Bombay Chronicle* and *Modern Review* in English and in *Kelavani*, *Dharma Jagriti*, *Jidnyasu* and other magazines in the different vernaculars.

Our finances have improved. We collected and spent Rs. 2,287-12-3 during the year, and as the concern is likely to grow in future years it is desirable to appoint an auditor to check the accounts annually to release the Secretary from the financial responsibility. Bro. G. B. Verma was elected auditor.

R. K. KULKARNI,

*Honorary Secretary.*

## THE ROUND TABLE IN AUSTRALIA

DEAR PROTECTOR,

Again we regret to have been delayed in issuing this Annual Report, through the difficulty of obtaining the necessary information from the various Centres, several Knights having failed to keep us posted in regard to the admission of new Companions and the resignation of old ones; whilst it would appear that quite a number of Companions have been admitted without having first signed an "Application Form," thus depriving us of details for registration, and making it impossible for us to send the highly valued Birthday Greetings from the Order.

Our Roll of Membership has thus again been revised with difficulty, the total on September 30th, consisting of 36 Knights and 261 Companions and Pages, or 297 in all; showing an increase of 43; whilst three new Tables have been formed (in Adelaide, North Sydney, and Mundubbera, Queensland,) one revived (in Adelaide,) and two dissolved (in Launceston).

Speaking generally, in all Centres, our work has been greatly hampered this year, owing to the Influenza restrictions, and the difficulties of travel, due to the strike of Miners and Seamen, whilst, on the other hand, many Tables have had the great pleasure of welcoming members on their return from "Active Service," bringing with them, we may hope, increased energy and enthusiasm.

In Adelaide, the movement has been revived, and a Rhythmic Class has done good and successful work, whilst the sum of £3-5-0 was raised for the Piano Fund, and £10 for the Lancelot Fund. Then again, members have distributed a quantity of "Star" literature, and have thus drawn parents and

friends into that Order, while work has also been done for the T. S., the Lotus and the children's Libraries.

In Brisbane, the Tables have continued their work for the Babies Kit Society, the Children's Welfare Society, the Creche and Kindergarten, and the Society for the Prevention of Cruelty; £10 being raised for the last of these; £20 for the children's playground Library, and £15 for the Lancelot Fund. The cot in the Sanitorium for sick children was maintained as usual, and an assortment of toys supplied at Christmas. A Round Table Magazine was also produced and help given to the local T.S.

In Fremantle, the work has been mainly for the T.S., and the East Perth Kindergarten.

In Launceston, the membership has suffered greatly through removals, but funds have been collected for the Purple Cross, clothing made for the poor, and 4/5-0 given to the Lancelot Fund.

In Melbourne, with the help of the Ministering Children's League, 36 sick lads were given a fortnight's holiday in the country, at a cost of £41, though this work had to be suspended for several months during the Influenza Epidemic. Then about 150 garments were made for the French Orphans and a number for the Creche and Kindergarten, whilst the sum of £2-11-4, was raised for the Lancelot Fund.

In Mundubbera, Queensland, the new Table has been working for the Red Cross and has contributed £1 to the Lancelot Fund.

In Perth, a Christmas Tree, with gifts and refreshments, was provided for about 100 wards of the State, and help given to the East Perth Free Kindergarten, whilst a new and important activity was organised; this consisted of the gathering together, on Sunday afternoons, of a large number of the poorer children of the district, including Chinese, Greeks, etc., these children being taught by one of the Companions, who is a Kindergarten, and, at the same time, given a very enjoyable afternoon. The sum of £8 was also given to the Lancelot Fund.

In Rockhampton, toys and books, including scrap-books made by members, were presented to the children's hospital; classes for painting and sewing were organised, and £6 raised for the Lancelot Fund.

In Sydney, the work for Queen Mary's Sewing Guild has been continued, and rehearsals are being held for an entertainment in aid of four different charities, including the maintenance of the scholarship at Morven Garden School, in memory of the late Lieut. Alexander (Knight Galahad,) while £1-2-9 was donated to the Lancelot Fund.

In North Sydney, at the Morven Garden School, the Round Table has been established with 51 members, but we have no report as to the work.

The Lancelot Fund now amounts to £11-10-1, and, once again, all Knights are invited to send in suggestions as to how this money together with the Annual Collection to be taken up by all Tables at the meeting nearest to July 4th, may best be utilised in perpetuating the memory of Lancelot.

Some Centres have already had the great privilege of being addressed by Mr. C. Jinarājadāsa, who laid stress upon the need for the practical application of the Round Table Ideals in our every day life, and it is hoped that many other centres will receive a like privilege in the near future.

Heartiest greetings to you, the Protector of our Order, and to all our fellow Knights, Companions and Pages, throughout the World; may we carry the inspiration of the King's Service into every act of our daily lives, and so provide an ever-widening channel for His power and influence.

GARETH,

*Chief Knight for Australia.*

---

## ORDER OF THE STAR IN THE EAST

*To the President, T.S.*—This report necessarily takes the form of propaganda work done during the last year.

The most noticeable development of this year's work has been the links formed with societies working on parallel lines. In several towns our Secretaries have approached the workers of Spiritualistic Groups, Adult Schools and Brotherhood Movements and have found that they gladly welcomed our speakers to their platforms. In one large town the Star Secretary supplies a speaker one every quarter. In another five meetings are to be addressed this autumn by members of our Society. The subjects are not always confined to the Coming alone, but touch on Comparative Religion, Meditation and Thought Power, Healing, etc.

Besides these meetings several successful propaganda meetings have been organised by the Order itself in various towns. In London a series was held last Advent addressed by well-known speakers on "Christ and the World To-day". This was widely advertised and though the attendance was not as large as might have been wished, many utter strangers to the message of the Order heard of the Coming for the first time.

In London the Star Shop and Library still continue to be our best propaganda. The Shop has built up a paying trade in pictures, books, etc., and is known to people who otherwise would never have heard of our work.

EMILY LUTYENS,  
*General Secretary.*

---

## THE THEOSOPHICAL ORDER OF SERVICE IN GREAT BRITAIN

*To the President, T.S.*—Having in July last, succeeded Mrs. Herbert Whyte as Organising Secretary of the Order in Great Britain, I have pleasure in submitting my first Report, so far as one can report on an organisation which has been partly in pralaya for the last four and a half years.

Realising for what purpose the Order came into existence, I am deeply sensible of the great work that it should accomplish. We have submitted to Mrs. Besant (who is in England, delighting and inspiring us with her presence) a scheme for the entire reconstruction of the Order, which we believe will, if carried into effect, provide a wider and stronger organisation for the expression of the great ideal of the Order.

Three Leagues which have 'carried on' during the War, growing in strength and usefulness, are "The Braille," the "Servers of the Blind," and the "League of Healing". To avoid waste of energy, and to strengthen the financial position, it was decided to amalgamate the two former organisations under the title of the 'Braille and Servers of the Blind League' with Mrs. M. M. Dudley as Hon. Braille Secretary and Mr. Arthur Burgess as Hon. Organising Secretary. The reports are, however, given separately this year.

### THE BRAILLE LEAGUE, 1918—19

The membership of the League, is 35. Of these 11 are honorary, 8 are pupils, and 16 are qualified workers.

The following books have been finished during the year and sent into the National Library for the Blind: *The Doctrine of the Heart*, *The Christian Creed*, *The Occult World*, four volumes of *Man: Whence, How and Whither* (the whole will make seven volumes). *Hints on the Study of the Bhagavad-Gītā* has been finished, but is still in Germany, with other books Brailled by Countess Schack in Berlin during the war.

The following books are in process of being put into Braille: *Theosophy and the New Psychology*, *Man and His Bodies*, *The Voice of the Silence*, *Lesser Mysteries*, *Practical Theosophy*, *The Gospel and the Gospels*, *The Path of Attainment*, *First Steps in Theosophy*, *Theosophy and Modern Thought*, and *A World Expectant*.

*The Light-Bringer*, our monthly Braille Magazine, we are now printing 175 a month and sending out 151. We have readers all over the United Kingdom, and also in America, Australia, New Zealand and India. The cost of printing has been steadily increasing, and is now over £11 a month, as against £6 last year. As the Magazine is free to all blind readers, we depend entirely on voluntary contributions for its support.

Owing to the heavy cost, we have not been able to undertake any extra printing during the year.

We are working in close co-operation with the Servers of the Blind, and the two organisations are now being amalgamated under the title of "The Braille and Servers of the Blind League".

M. M. DUDLEY,

*Hon. Secretary.*

#### THE SERVERS OF THE BLIND LEAGUE

3 Upper Woburn Place, London, W.C. 1

The Executive Committee of the "Servers of the Blind" has pleasure in issuing its first Annual Report, and is glad to be able to show progress in all branches of the organisation working among the blind.

Since the organisation was commenced, twelve months ago, with the object of gathering together into centres all blind people needing friendship, 50 Centres have been, or are in process of being formed, 180 workers enrolled, and 680 blind people have been brought into close personal touch with the movement.

The organisation has, in the year of building, done useful work acting as intermediary between necessitous cases and pension societies, in securing grants and pensions for such, yearly pensions of £20, £12 and £10 have been recently secured, also several blind people have been sent away for much needed seaside holidays, provided with clothing, nourishments, etc., etc.

The Braille Correspondence Circle is meeting a real need. Under the indefatigable care of a Brailist—Mrs. D. Hardgrave, blind people are in regular correspondence with sighted people, these latter copying Braille articles from Magazines, newspapers, etc. Interesting books are read and discussed, lively debates ensuing, and *Progress* and other Braille magazines are regularly circulated. Small books in Braille have been eagerly welcomed by the members who are invalids, and directions for new knitting and crochet patterns are put into Braille—materials for working being often found and articles then disposed of. Various little luxuries are distributed to those who are in ill-health, and in every way the Circle, by its cheeriness and warm friendship, is increasing the happiness of its members whose lives are isolated.

To further strengthen the organisation a small shop has been opened at 84, Winner Street, Paignton, S. Devon, under the care of Miss Kohn. This provides a clearing House for the whole organisation—all articles made by the blind in their own homes are forwarded there and sold, the sum obtained being received by the blind workers without any deduction whatever.

The success achieved warrants expansion in all branches, and provided sufficient support is forthcoming this will be effected.

The Executive Committee takes this opportunity to express appreciation to all who have extended their support either financially or with voluntary labour.

(Signed on behalf of the Committee)

A. CHRISTINA DUCKWORTH

ARTHUR BURGESS

#### LEAGUE OF HEALING

The past year shows increasing activity, not only in the work of individual Groups, but in the forming of new, and in the reforming of old Healing Centres, the latter having been given up temporarily owing to the War.

At the present time there are forty Healing Groups working, nine of these are newly formed, four under the League, and five under the Order of the Star in the East. Seven out of the eleven continental Groups have survived the War, our six Dutch Groups, Mademoiselle Sauerwein's Paris, No. 1, which has done very good work among the wounded in Hospitals, and Miss Abbott's Holy Grail in Budapest, which for four years carried on a most beautiful and helpful work, in spite of the inevitably trying conditions of an enemy's city in War time.

All Group reports seem to agree that the most marked assistance has been given to children, and to surgical cases, and that the patient almost invariably receives very great help mentally, even where a cure has not been the result. There is one interesting case in which a child suffering from disease received Healing in three days, and this only one among others of its kind where a patient received immediate relief from the particular difficulty from which they suffered.

A small fund has been collected, and is being used to form a nucleus of a Rest House which will provide rest for tired workers both within and without the Theosophical Society, and pending the establishment of a permanent house, a limited number of guests have been received by hostesses in different parts of the country.

MARY COULTHARD,

---

*Hon. Secretary.*

It is thus seen that the Order in Great Britain has been expressing the ideal in three ways.

1. It has brought the teachings of Theosophy to the blind through Braille ;

2. Built up an ever growing organisation of Servers to the Blind, which is constantly increasing its influence, and gaining a reputation for Brotherliness ; and

3. In theory and practice has shown with gratifying results what new methods of Healing can accomplish for those whose bodies " would troublesome be ".

As I report, The Anti-Vivisection League is " setting its house in order " preparatory to recommencing activity, and one feels that, if the reconstruction of the Order is accepted and self-sacrificing workers are forthcoming (of which there is strong evidence), a great future awaits the Order, and one can hope that it will fulfil in greater measure, the task set in by the Great Ones.

ARTHUR BURGESS,  
*Organising Secretary.*

## INDRAPRASTHA HINDU GIRLS' HIGH SCHOOL

*To the President, T.S.*—The Indraprastha Hindu Girls' High School is still continuing its course amidst difficulties and against many obstacles. During the year a small party brought a suit against us to oust us from the premises we use. They lost the case with costs, and received rather an overwhelming verdict from the judge, but in spite of that they have now appealed to the High Court in Lahore. Our chief difficulty apart from raising funds is to get teachers, especially for the High School. Two suddenly left us during the year, one because her friends objected to her working in an unrecognised school, and the other for a more prominent position elsewhere. In the meanwhile we have engaged an elderly Master from a good and well known family. Two girls passed the Matriculation examination this year. One of whom—a Kashmiri Brahmani—has joined the Lady Hardinge Medical College and is doing well there, the other is continuing the study of English and is aiming at passing the High Proficiency Examination in Hindi.

The great increase in the Upper part of the school has made it extremely difficult for us to continue the Infant and Lower Primary classes, so we are refusing admission up to the Fourth Class but are not turning out the children already in attendance. The transition will take about three years. It is difficult for the people to understand it, and I am having a most unhappy time in almost daily refusing the little ones, who have for long occupied the most prominent part of the schools. There are now many small schools for girls in Delhi sufficiently good for those who will be married between 9 and 12 years of age, whereas there are no Hindu schools providing

for the higher education of the increasing number who desire it, and it is impossible to divide oneself up to do both parts of the work.

Dull must he be who cannot feel the intense life which is surging through India at the present time ; our corner seems to receive a large measure, seen in the great activity of mind and body in all the children ; their eagerness to learn is amazing and the rapidity with which their little bodies dart about is sometimes quite bewildering.

In the great responsibility placed upon us we try to do what our teachers and leaders would have us to do, and though we may make mistakes in judgment in pursuing one course or another, still we press onward in humility and joy leaving our mistakes to the greater ones for adjustment.

LEONORA GMEINER,

*Lady Superintendent.*

---

## SOKAREN LODGE, FINLAND

*To the President, T.S.*—The Sokaren Lodge has done its work energetically as before. The members have met every Tuesday and Thursday evenings: on Tuesdays they have sought the meaning of the symbols and allegories in the light leading of Theosophy, of the first of the books of Moses, and on Thursdays have read, interpreted and compared the different books of Besant, Hartmann, Steiner, Collins and others. We have earnestly tried, as well at the meetings as out of them, in various ways, to realise the life of the Spirit, the inspiration we have found in our studies.

The number of members is the same as before.

As President and Secretary of the Lodge we have still Kamreraren Herman Hellner, whose address is: Skillnaden 19, Helsingfors, Finland.

HERMAN HELLNER

---

## THE NAIROBI LODGE, T.S.

To the 'President, T.S.—As early as 1907 Mr. Clark, F.T.S., Asst. Engineer, thought of starting a T.S. Lodge here and to accomplish this object finally, he started an "Occult Lodge" in Nairobi, in order to interest peoples in the study of Occult Sciences and other similar subjects. Weekly meetings were held when speeches were delivered and papers read on different subjects. Those who took prominent part in those days as far as I know, were, Mr. Malik Raj, an F. T. S. of old standing, Pt. Duni Chand, our present President, who had joined the T.S. in that same year, together with Mr. Smith, Mr. R. O. Preston and others.

The Lodge had to be closed within a few months only owing to lack of general interest, and thus nothing was done definitely in the shape of opening any T.S. Lodge here.

Thereafter for about five years Theosophical activities were in abeyance.

I came to Nairobi in September, 1913. In the middle of 1914 a Theosophical Class was started first at Pt. Duni Chand's house and then at Pt. Maganlal T. Dave and Mr. Manilal P. Shah's where the *Bhagavad-Gītā* and *Man : Whence, How and Whither* were taken up by Pt. Maganlal T. Dave and myself respectively. This went on for some five or six months and as we were contemplating transforming it into a regular Lodge and apply for a charter, for some reasons or others the class was closed.

Then again in May, 1916, a study class was started at my house, where we used to meet every Sunday afternoon and

studied *Seven Principles of Man*. This also went on until the end of September, 1916, when once again activities ceased owing to my transfer to Kilindini. I returned to Nairobi in June, 1917, when Mr. Satbachan Singh (who has since joined the Lodge), the founder of the Society for the Investigation of Occult Sciences offered us the use of the latter society's room for our Theosophical meetings. Accordingly the Theosophical Class was re-started on 20th October, 1917, meeting twice weekly and so much interest was shown by some of the members that an application was made to Headquarters, India, for a Charter to open a Lodge here, to be known as the Nairobi Lodge, T.S. This was signed by 11 members. Pt. Duni Chand was elected President and I, Hony. Secretary of the Lodge. We received our charter in October, 1918, when on October 22nd, 1918, to the delight of all our members the Lodge was formally opened.

Total No. of books of all languages on 30-9-1919	...	119
Most of them presented by some of the members.		

*Propaganda*.—Until Mr. and Mrs. Best's arrival, no special attempt was made in this direction, except holding weekly public classes! But they have started a European Theosophical study Class which was held at a hired room at first, but at present it is being held at their own house every Wednesday

evening, as they have moved nearer to the town. Other schemes are being planned, among them being Mr. Bhanushanker Dave's proposal to have the pamphlet *Information for Enquirers* translated into Gujarati, and printed for circulation here, provided he obtains the author's permission which he intends to apply for while in India on leave.

### LODGE MEETINGS

Sundays 3.45 to 4.45 p.m. members study class conducted by Mrs. Best, at present subject of study being the *Ancient Wisdom*. 5 to 6 p.m. Public Class for Indians, conducted by either the President or Vice-President, when pamphlets are explained and commented upon into Hindustani for about 45 minutes, the remaining 15 minutes being reserved for Questions and Answers.

*Note.*—Bro. Keshavlal V. Davevedi, a very old F.T.S., who was Secretary to the Mombasa Branch, T.S., from 1905 to 1907, for the period the same was in existence, has joined this Lodge and is now conducting the public class, the subject at present being *At the Feet of the Master*.

Besides this we used to meet every Friday from 7.30 to 8.30 p.m. to study the *Bhagavad-Gītā*. The class was conducted by Vice-President Pt. Maganlal Dave and has now temporarily closed.

Some of the members also meet on Wednesdays and Saturdays from 6.30 to 7.30 a.m. conducted by myself. In this class we have already finished the *Text Book of Theosophy* by Leadbeater, and intend to take up the *Study in Consciousness*.

### LODGE ROOM AND BUILDING FUND

For the past two years we have had the use of a room lent us first by the Society for the Investigation of the Occult Sciences for about three months, and then by Shri Sanatana Dharma Sabha, Nairobi, since 1-1-1918, to whom we wish to tender our grateful thanks.

It is, however, felt that we should possess our own Lodge Rooms, and we are accordingly taking steps to obtain a plot and have opened a subscription list for a Building Fund to erect our own Hall.

KAHAN CHAND KAPOOR,

*Hon. Secretary.*

## GUILD OF THE CITIZENS OF TO-MORROW

*To the President, T.S.*—Although the work of the Guild has been considerably handicapped in London by lack of suitable premises in which to carry out experimental work and put into practice its ideals, yet much useful and very necessary spade work has been done in preparation for the future.

The scope of the Information Bureau has been considerably enlarged. Information concerning kindred movements, methods, suitable books, plays and handicrafts having been collected for the use of members, associates, and affiliated societies.

The library has also received many additions, particularly books relating to handicrafts, of a type likely to be valuable to those who wish to lead groups of younger members. It now comprises some 500 volumes suitable for all types and ages.

Friendly intercourse being recognised as one of the best ways of insuring a lasting peace, and International Correspondence Bureau was started during the latter half of the year, and it is expected that many will avail themselves of it in the near future.

Invitations to send representative lecturers have been received from other movements, and this work has been undertaken by Mr. I. A. Hawliczek, B.Sc., who has been officially appointed travelling organiser for the Guild.

A most successful Summer Holiday, on camping lines, was held during the first two weeks in August, 1919, for members and friends, and was the means of getting several new members and of arousing enthusiasm, which shows promise of bearing fruit this winter.

Several new groups are in process of formation, and the Golden Chain, which is directly under the jurisdiction of the

Guild, and preparatory to it, has grown considerably during the year new Groups having been started at Portsmouth and Shrewsbury.

Altogether, although the work has not been of a prominent character solid progress has been made, and there is cause to believe it will continue in the future.

MARGARET LANE,

*Hon. Secretary.*

REPORTS FROM  
NON-SECTIONALISED COUNTRIES

## THE T.S. IN SOUTH AMERICA FOR 1919

*To the President, T.S.*—The present year has been rich in Theosophical activities.

The following new Lodges have been formed :

Argentina : "*Gautama*," Mendoza ; "*Luz en el Sendero*," Jujuy.

Brazil : "*Teseis de Nazareth*," Manaus ; "*San Pablo de la S. T.*," San Pablo ; "*Arjuna*," Santos ; "*Nova Krotona*," Coritiba ; "*Orfeu*," Rio Janeiro.

Chile : "*Ana Huguet*," Santiago ; "*Numen*," Iquique  
"*Van Hook*," Concepcion.

Aroused from sleep : Chile : "*Destellos*," Antofagasta  
"*Fraternidad*," Valparaiso.

Sleeping : Brazil : "*Dharmah*," Pelotas ; "*Pax*," San Luis.

" Chile : "*Andes*," Santiago.

" Perú : "*Karma*," Lima.

" Bolivia : "*Pax*," La Paz.

Present year active Lodges :

Section {	Argentina : " <i>Agama</i> ," Alcyone, Gautama, Hipatia, Loto Blanco, Luz en el Sendero, Pythagoras, Verdad, Vi-Dharmah.	9
	Paraguay : Destellos de Oriente. ...	1

*Anniversaries.*—With great harmony have been celebrated in the “Vi-Dharmah” Lodge, Buenos Aires (all other Lodges present), the 11th of January, 8th of May, and 1st of October, also the meeting of the 17th of November, will be held in the same style with lectures, recitals and music.

*Public Lectures* have been more numerous than last year here in Argentina and also in Brazil and Chile.

*Theosophical Library.*—The sale of Theosophical books has increased and the principal South American Republics strive to create editorial centres. Quite a number of pamphlets have been published, which you will receive under separate cover. The reviews also have co-operated with the propaganda purposes and among the new ones are: “Teosofia” from Valparaiso, and “Liberacion” from Rosario de Santa Fé, which joined with “Ondas Buddhicas,” “La Estrella de Occidente” and “El Mensajero de la Estrella de Oriente” in Argentina; “O Theosophista,” “Amor” and “Alma” of Brazil; “Nueva Luz” and “Revista de Estudios Psiquicos” of Chile complete the Theosophical informations in South America.

The papers and reviews receive with less reserve articles concerning Theosophy. In Buenos Aires "La Razon," "Carasy Cretas" and "La Prema": This last mentioned in the leading Spanish paper here gave the permission to Dr. F. Valles to give a lecture on "The Primitif Perú" in one of the saloons, on the night of the 3rd of July, 1919, with splendid results.

*Fraternal Bonds* are formed between Theosophists, Masons, Spiritists and Spiritualists—there is in Florida—F. C. C. A. (Argentina) a group who studies *Christianity in the Light of Theosophy*, whose Founder and Director is Mr. S. Ballerini, whose Theosophical diploma dates from July 7th, 1918, being a member of the Vi-Dharmah Lodge (Buenos Aires). Bahai Cause. Miss Martha L. Root on her propaganda tour around the world, was introduced to the public of Buenos Aires by the Secretary of the Agency finding a happy echo in the doctrine of fraternity and love of the Bahai cause.

The Vedantas, Rosycrucians and the Brothers of the Star also meet fraternally in great harmony.

*The Argentina Theosophical Public Library.*—From 800 books has increased the number to 2,000 books in one year. Through communication of October, 1919, it joined the capital of the Theosophical Society and solicits the exchange of books with all similar institutions and specially with the Library of Headquarters. It is a well founded hope, based on the common persevering love of all.

*Colonial Schools for Backward Children.*—Dr. F. W. Gandara whose diploma of the E. S. is dated January, 1910, has founded a splendid colonial school for backward children—in which dominant fraternal principles and Theosophical educational. It is a fruitful example in South America due to the only effort of such a well prepared brother and is giving good results in every way.

*National Sections of South America.*—With the approval of our beloved President, Mrs. Annie Besant, and after intense labour on the part of the Agency and a few members—three Conventions have taken place:

Buenos Aires, Argentina, 6th July, 1919. General Secretary: Dr. F. Valles V.

Bahia, Brazil, 16th October, 1919. General Secretary: Mr. R. Pinto Seidle.

Valparaiso, Chile, 26th October, 1919. General Secretary Mr. A. Zanelli M.

The 1st has been formed by: Argentina 9 Lodges, Paraguay 1, Uruguay 1=11

The 2nd has been formed by: Brazil=10

The 3rd has been formed by: Chile=8

Special notice is to be taken of the perfect spirit of harmony and fraternal co-operation from all brothers during the Conventions. Plans being made for own premises, printing offices, reviews, schools and national agricultural colonies and also for the coming of advanced lectures.

*Future Section.*—It is possible that later on Bolivia, Ecuador and Perú will form another Section and could join Panamá, Venezuela and Colombia. This statement shows that the annual activities have been enormous in quantity and quality notwithstanding the long distances and the postal irregularities.

*Mr. José Melian* called at Buenos Aires on his way to Valparaiso and Lima on the 26th of October. There have been receptions given in his honour in several towns. The new address will be Lima-Perú: Sauce 1257.

*Mr. F. Valles V.*—Next year the Secretary and his family will settle down in Los Angeles, California, U. S. A., and hope to be a valuable bond of union between North and South America to complete an efficient programme duly meditated beforehand. In April last he published a booklet titled *Ecos de un Canto*, meditations inspired by the thoughts of the *Mahabharata* (Cantodel Señor=Bhagavad-Gita), dedicated to H.P.B. and which has had a deserved welcome and will soon appear in French and English in Paris and Philadelphia.

#### ARGENTINA

*Buenos Aires.*—*Agama* Lodge has met regularly all the year. The 14 members have weekly meetings.

*Buenos Aires.*—*Loto Blanco* Lodge, this branch has been formed by 8 members on the 8th of May, 1918, finishing the

year with 17 and counts actually 27 members (more 13 news). The weekly meetings have been attended regularly and the individual progress of its members is to be noted even in their own particular affairs. There exists an influence charged with beneficent irradiations. The members who travel obtain good results even in their worldly affairs as well as in the propaganda of their cherished cause. The artists triumph in the exhibitions. The writers and orators in the journals and platforms, the professionals with the public and the world at large.

The extraordinary meeting held in honour of Mr. José Melian on the night of the 23rd of October has been an event that will be remembered by all present. The President of the Lodge, Mrs. Emily de Vallés and the Secretary of the Agency Dr. Vallés, spoke biographically about the guest, other members also made speeches and Mr. Melian with infinite kindness appealed to the heart of all brothers. He and his worthy wife were elected Honorary Presidents of the Lodge. At the close of the meeting flowers were distributed.

Buenos Aires.—“*Vi-Dharmah*” Lodge too has increased the number of its members and in the large hall has worked the Theosophical public Library. Also a great many public lectures have been given. The actual President is Mr. Mario Martinez de Arroyo, a well founded hope for his will and knowledge. The ex-President Mr. F. Marques follows with the hard tasks of the review “*Ondas Buddhicas*” which has now two years existence.

A number of brothers, one of them, Mr. R. A. Ruy, have published Booklet No. 1 on Buddhism devoted to the study of that important philosophical religion. Mr. Geronimo Reus is an indefatigable worker who has frequently devoted himself to the Theosophical Library.

*Jujuy Luz en el Sendero* (Light in the Path) this Lodge asked for a charter, the 7th of September, 1919, and is formed by six ladies and three gentlemen. Mr. E. Selvas Marti of the Lodge *Vi-Dharmah* and whose diploma is dated the 7th of August, 1918, has removed to that far-off province, and by his activity and love won the members and marshalled them to

form the said Lodge. The Agency as a rule get in touch with the other Lodges when there is a Theosophical group, in order to concentrate the material and spiritual forces (reviews, publications, comprehensive and encouraging letters) and in that way the end is attained in forming the branch, afterwards, the ties are easy and natural, therefore, each new Lodge is fruitful of common love of all the brethern and of the Agency as well.

The topographical position of this Lodge is a good one so that the light may reach the innermost recesses of the Republic.

*Mendoza. Gautama.* Founded the 1st of July, 1919, and whose President is the excellent Theosophist Mr. Pantaleon González Flores whose confidence will ensure long life to that branch.

A brother of Loto Blanco (White Lotus) Mr. Alfredo Goñi, through the Government he has been transferred to that city on an administrative and political mission as General Secretary not only attained his ends in official duties, but after incessant labour and public lectures succeeded in forming the branch "Gautama" to-day in full prosperity. This city with Chile will be a solid link between the Theosophists of both Republics.

*Pergamino.—Verdad (Frouth).* This branch whose charter is dated the 10th of August, 1910, continue its labours normally, the President Mr. Bernando Nespral, is an experienced Theosophist and the Secretary Mr. Andrés Bárcia Fernandez is an intuitive brother, who has patented various useful inventions. He is the Organising Secretary, O. E. O., in the city of Pergamino.

*Rosario de Santa Fé Hipatia* Lodge. This branch whose President is Mr. Adrian A. Madril has shown great activity in the present year 16 members have increased to 24. Mr. A. Madril is endeavouring to create a Theosophical Public Library in Rosario, also the creation of an Editing establishment of Theosophical books. He has contributed greatly to the formation of the Argentine Section, and his activities are multiple,

he intends to endow to the Lodge under his direction proper and adequate premises and it is probable that by next year there will spring a new branch of the maternal Hipatia.

*Rosario de Santa Fé Pythagoras.* This Lodge has given a great leap in the present year, thanks to the indefatigable President Mr. Oscar Gossweiler, from 17 members it closes the present year with 37. Mr. O. Gossweiler is engaged in various activities, he is the Organising Secretary, O.E.O. of Rosario and it has just been issued No. 4 "Liberacion" (Liberation) an organ consecrated to encourage fraternity by the Light. This Lodge has given various public lectures, which have been a great success, it operates in a neighbouring locality in which there is a Lodge and a Branch of the O.E.O. (S.O.O.). There is a probability of a new Theosophical twig of the Hipatia in the near future.

*Santa Teresa.*—F.C.C.A. *Alcyone.* The President Mr. Cayetano Peirone, conducts well this Lodge which constitute 12 brothers. He is also Organising Secretary of the Star O.O. in that locality and hold sessions of great harmony and love.

*Bahia Blanca.*—There is a group ended owing to increase in order to create a Lodge.

*Tucumán.*—The day is not far off when several brothers will request a charter for a new branch, the brother A. Ribet a free member has a book store and sells Theosophical books.

*Cordoba.*—There is a well informed centre.

*San Juan.*—A Theosophical movement is being initiated.

*Pehuajó.*—(Prov. B. Aires) the same tendency exists we are sure.

*Neuquén.*—Propaganda has been initiated two years ago.

*Bariloche.*—We reiterate the same.

*La Plata.*—There is a Theosophical centre.

*Mar del Plata.*—There are various elements tending to unite.

*Tandil.*—The day is not far off when the brethren will create a Lodge.

*Exalada,* F.C.S.F.—A full member endeavours to create a centre.

## URUGUAY

*Montevideo.*—“*Hiranya*” Lodge. This Lodge continues working with 17 members under the Presidency of Mr. Pedro Baridon.

*Montevideo.*—(Centro Vidya). Mr. Carlos de León endeavours to raise shortly to the category of Lodge, the centre under his direction.

## PARAGUAY

*Asunción.*—*Destellos de Oriente* (Sparkles of Orient). It has increased the number of members from 16 to 23, thanks to the unceasing efforts of the brother Mr. José Marsal.

*Asuncion.*—There is a new group and we hope it will be converted into a Lodge shortly.

*N.B.*—These three republics are the ones that have formed the Argentine Theosophical Section at the Convention of the 6th of July, 1919, electing Dr. F. Valles V. as General Secretary.

## BRAZIL

*Bahia.*—*Alcyone* Lodge. This branch has shown great activity in the present year. There have been two deaths, one member separated, one transferred to “Albor” and 9 to “Jesus de Nazareth” and 8 new members joined. Hence out of a total of 51 brethren in 1918 it has dwindled to 46 in 1919 They hold weekly sessions and dominical parties. There is a movement on foot for a possible formation of a new Lodge in that city and another in Ceará.

On the 1st of October was celebrated in solemn session in commemoration of the seventh Anniversary of its foundation and of the Seventy-second Anniversary of the venerable President of the T.S., Mrs. Besant. It publishes the review *Amor* (Love) for free distribution.

*Manaos.*—*Jesus de Nazareth* Lodge, founded on the 12th of October, 1918, thanks to the efforts of the brother Mr. Joaquin Velasco affiliated to the Section Cuba (Havana), this Lodge has lost one member by death in 1919, actually it has 15 members.

The topographical position of the rising city in the interior is a well-founded hope for the development of Theosophy in the heart of South America. Peru, Ecuador, Venezuela and Colombia, have to be influenced in their far-off regions of the woods. The Guayanas must also awaken shortly.

*Porto Alegre.*—*Jehoshua* Lodge. The President Mr. Carlos Saturnino Pinto efficiently aided by the Secretary, Mr. Leopoldo Bettiol, has covered the loss of 3 members by 3 new ones. Therefore the original, total of 23 members is in force.

The Masonic Review *O Delta* has entered the month of July in the fourth year of its life ; it is written and sustained by the brothers of the Theosophical Lodge and it is a good publication. The Secretary has published a beautiful book *Alucinações* (Hallucinations).

*Rio de Janeiro.*—*Perseverança* Lodge which closes the present year with 42 members and has as President the indefatigable and spiritual brother Mr. Raymundo Pento Seidl, whose activities are numerous, as much in the Lodge, as in the Star of the Orient which appear in the Review *O Theosophista* (The Theosophist) which reaches volume IX. They held public lectures and fraternal parties.

*Rio de Janeiro.*—*Pitagoras* Lodge. From 21 members it has increased to 34 not having a single loss the whole year. The President, Mr. P. Carneiro Leão, and the Secretary, Mr. J. Meirelles Mezquita are able brethren of highly fraternal tact. There has been regular sessions of study and meditations.

*San Pablo.*—*San Pablo of the T. S.* Lodge. This new Group is also due to the efforts of the brother Mr. Joaquin Velasco. Its foundation dates from the 18th of January, 1919, and has actually 29 members, one of which died. Mr. Bento Barreto is a feoin President who endeavours by all means to foster the principles of Theosophy.

The sessions of study are weekly and the number of visitors is on the increase.

*Santos.*—*Albor* Lodge. This Lodge directed by the spiritual brother Mr. Guido Gnocchi has allowed the transfer of 7 members to from the "Arjuna" hence the strength has been

reduced to 9 members, a number which will rise gradually owing to the qualifications of the brethren which constitute it.

They have developed the O. S. O. and the Bahai Cause, having attained the President for the latter.

*Santos.—Arjuna Lodge.* This branch is of recent foundation October 7, 1919, it started with 7 members and 3 more have joined. The President, Mr. Benedicto Ribeiro, in conjunction with the Secretary, Mr. Luis Nicolan Greco, have sufficient guarantee for a long and efficient life of the new entity. The O. S. O. must also have a new group amongst those members.

*Barreiras.—“Group Annie Besant”* continues working under the direction of Dr. Juvenal da Silva Pinto with 16 members who are endeavouring to work up details in order to request Diplomas and Constitutive Letter, (Charter).

There are various cities where small Groups are operating, which, in future will develop into Theosophical branches.

*N.B.*—This Republic was formed by Convention of the 16th of October, 1919, electing Mr. Ray Pinto Seidl as General Secretary. It is probable that Portugal will join that Section later on.

*N.B.*—Two New Lodges in Brazil : “Orfêu (Rio de Janeiro) and “Nova Krotona (Coritiba) have not furnished reports.

#### CHILE

*Antofagasta.—Destellos Lodge.* This Lodge is presided over by Mr. Benigno Cerezo and as Secretary Feaususer Miss Zoilar E. Moran and Mr. Francisco Gallardo, there are 11 members. They have wired to be considered active members but the details have not reached as yet.

*Consepcion.—Van Hook Lodge* has been formed by the efforts of brother Mr. J. H. Hamilton-Jones, who has solicited Constitutive Letter on the 28th of March, 1919, with 14 members. During the absence of the President in England he has been substituted by Miss Esther Van Den Broelle, and Mr. T. Belmar S. as Secretary. It is to be hoped that this Lodge will be increased considering the good wishes of its organisers.

*Iquique*.—*Numen* Lodge founded the 8th of September, 1919, thanks to the love and perseverance of Mr. Carlos Parrau has 13 members. This brother also founded the "Destellos" Lodge of Antofagasta, they hold regular sessions.

*Santiago*.—"Ana Huguet" Lodge. This group which was founded during the life of sister Miss Ana Huguet performs its functions with 18 lady members, presided over by Miss Emma Claro L. of exceptionally spiritual gifts and aided by all the sisters, specially by the Secretary Miss Amira Moisan. It holds regular sessions of study and meditation.

*Santiago*.—*Arundhati* Lodge continues with 31 members; and publishes the review "Nueva Luz"; in December, 1918, the President Miss Ana Huguet retired or died. The regular sessions reach a number from 50 to 60 present members, so much so that the premises are insufficient and are endeavouring to get a larger place. They hold meetings on Tuesdays and Fridays. They have projected a new Lodge "Blavatsky" which officially has not been constituted yet. It is a well organised and scientific Lodge.

*Talcahuano*.—*Leadbeater* Lodge still continues with 11 members, they hold regular meetings and lectures.

*Valparaiso*.—*Fraternidad* Lodge. It has been dormant for 3 years and it reawakened with 9 members having as Mr. Manuel Reyes C., President and Mr. Cracio Fernandez as Secretary.

*Valparaiso*.—*Lob-Nor* Lodge. This Lodge has 43 members, 12 more than last year, it outshines in great activity by the brothers Dr. E. Morisot, A. Zanelli and A. Carmona, each one of the above mentioned in different rolls (activities). This Lodge has worked a great deal this year; public lectures, and publications principally of the magnificent Review "Teosofia" it has contributed in a great measure to the formation of the Chilian Section.

#### ECUADOR

*Guayaquil*.—"Ecuador" Lodge. The report sent by this Lodge has been mislaid. From recent letter we learn it is in

full swing under the well guided activities of the President, Dr. V. D. Venitez.

### BOLIVIA-PERÚ

*La Paz*.—"Paz" Lodge. It has not straightened out the year 1918 as yet.

*Lima*.—"Karma" Lodge. Its members are still dispersed. The facts herein contained demonstrate the successful development of the Theosophical Society in this continent and it is to be hoped it will notably increase.

DR. F. VALLAS VARGAS,

*Secretary.*

THE THEOSOPHICAL SOCIETY  
MEMORANDUM OF ASSOCIATION

## THE THEOSOPHICAL SOCIETY

FOUNDED NOVEMBER 17, 1875. INCORPORATED APRIL 3, 1905

*In the matter of Act XXI of 1860 of the Acts of the Viceroy  
and Governor-General of India in Council, being  
an Act for the Registration of Literary,  
Scientific and Charitable Societies*

and

IN THE MATTER OF THE THEOSOPHICAL SOCIETY

---

### MEMORANDUM OF ASSOCIATION

1. The name of the Association is "The Theosophical Society".

2. The objects for which the Society is established are :

(i) To form a nucleus of the Universal Brotherhood of Humanity, without distinction of race, creed, sex, caste, or colour.

(ii) To encourage the study of Comparative Religion, Philosophy, and Science.

(iii) To investigate unexplained laws of Nature and the powers latent in man.

(a) The holding and management of all funds raised for the above objects.

(b) The purchase or acquisition on lease or in exchange or on hire or by gift or otherwise, of any real or personal property, and any rights or privileges necessary or convenient for the purpose of the Society.

(c) The sale, improvement, management, and development of all or any part of the property of the Society.

(d) The doing of all such things as are incidental or conducive to the attainment of the above objects or any of them, including the founding and maintenance of a library or libraries.

3. The names, addresses and occupations of the persons who are members of, and form the first General Council, which is the Governing Body of the Society, are as follows:

#### GENERAL COUNCIL

##### *Ex Officio*

<i>President-Founder</i>	... H. S. Olcott, Adyar, Madras, Author.
<i>Vice-President</i>	... A. P. Sinnett, London, Eng., Author.
<i>Recording Secretary</i>	... Dr. S. Subramania Iyer, Madras. Justice of the High Court.
<i>Treasurer</i>	... W. A. English, M.D., Adyar, Madras. Retired Physician.

---

Alexander Fullerton, General Secretary, American Section, 7 West 8th Street, New York.	C. W. Sanders, Gen. Secretary, New Zealand Section, Queen Street, Auckland, N.Z.
Upendranath Basu, B.A., LL.B., General Secretary, Indian Section, Benares, U.P.	W. B. Fricke, General Secretary, Netherlands Section, 76 Amsteldijk, Amsterdam.
Bertram Keightley, M.A., Gen. Secretary, British Section, 28 Albemarle Street, London, W.	Th. Pascal, M.D., Gen. Secretary, French Section, 59 Avenue de La Bourdonnais, Paris.

	José M. Massö, Acting Gen. Secretary, Cuban Section, Havana, Cuba.

*Additional*

Annie Besant, Benares, Author [for 3 years].	Francesca E. Arundale, Benares, Author [for 2 yrs.].
G. R. S. Mead, London, Author [for 3 years].	Tumacherla Ramachandra Row, Gooty, Retired Sub- Judge [for 1 year].
Khan Bahadur Naoroji Dorabji Khandalavala, Poona, Special Judge [for 3 years].	Charles Blech, Paris, France, Retired Manufacturer [for 1 year].
Dinshaw Jivaji Edal Behram, Surat, Physician [for 2 yrs.].	

4. Henry Steele Olcott, who, with the late Helena Petrovna Blavatsky, and others, founded the Theosophical Society at New York, United States of America, in the year 1875, shall hold, during his lifetime, the position of President, with the title of "President-Founder," and he shall have, alone, the authority and responsibility and shall exercise the functions provided in the Rules and Regulations for the Executive Committee, meetings of which he may call for consultation and advice as he may desire.

5. The income and property of the Society, whencesoever derived, shall be applied solely towards the promotion of the objects of the Society as set forth in this Memorandum of Association, and no portion thereof shall be paid or transferred directly or indirectly by way of dividends, bonus or otherwise by way of profits to the persons who at any time are or have been members of the Society, or to any of them or to any person claiming through any of them. Provided that nothing herein contained shall prevent the payment in good faith of remuneration to any officers or servants of the Society or to any member thereof or other person in return for any services rendered to the Society.

6. No member or members of the General Council shall be answerable for any loss arising in the administration or application of the said trust funds or sums of money or for any damage to or deterioration that shall happen by or through his or their wilful default or neglect.

7. If upon the dissolution of the Society, there shall remain after the satisfaction of all its debts and liabilities, any

property whatsoever, the same shall not be paid to or distributed among the members of the Society or any of them, but shall be given or transferred to some other Society or Association, Institution or Institutions, having objects similar to the objects of the Society, to be determined by the votes of not less than three-fifths of the members of the Society, present personally or by proxy, at a meeting called for the purpose, or in default thereof, by such Judge or Court of Law as may have jurisdiction in the matter.

8. A copy of the Rules and Regulations of the said Theosophical Society is filed with this Memorandum of Association, and the undersigned, being seven of the members of the Governing Body of the said Society, do hereby certify that such copy of such Rules and Regulations of the said Theosophical Society is correct.

As witness our several and respective hands, dated this 3rd day of April, 1905.

Witness to the signatures :

RULES AND REGULATIONS FOR THE MANAGEMENT OF THE ASSOCIATION  
NAMED "THE THEOSOPHICAL SOCIETY," ADYAR, MADRAS

1. The General Council, which shall be the Governing Body of the Theosophical Society, shall consist of its President, Vice-President, Treasurer, and Recording Secretary and the General Secretary of each of its component National Societies, *ex officio*, and of not less than five other members of the Society; and not less than seven members of the General Council shall be resident in India, and of these seven there shall

be not less than three who shall and three who shall not be natives of India or Ceylon. The Recording Secretary shall be the Secretary of the General Council.

2. The terms of those members of the General Council who hold office *ex officio* shall expire with the vacation of their qualifying office, while the other members shall be elected for a term of three years, by vote of the General Council at its Annual Meeting; the names of proposed members shall be sent to all members three months before the Annual Meeting. Members retiring shall be eligible for re-election.

3. It shall be competent for the General Council to remove any of its members, or any officer of the Society, by a three-fourths majority of its whole number of members, at a special meeting called for the purpose, of which at least three months' notice shall have been given; the quorum consisting, however, of not less than five members.

4. The General Council shall ordinarily meet once a year, at the time of the Annual Meeting or Convention of the Society; but a special meeting may be called at any time by the President, and shall be called at any time by him, or if not by him, by the Recording Secretary, on the written requisition of not less than five members; but of such special meetings not less than three months' notice shall be given, and the notice shall contain a statement of the special business to be laid before the meeting.

5. At all meetings of the General Council, members thereof may vote in person, or in writing, or by proxy.

6. The quorum of an ordinary as well as of a special meeting of the General Council shall be five. If there be no quorum, the meeting may be adjourned *sine die*, or the Chairman of the meeting may adjourn it to another date of which three months' further notice shall be given, when the business of the meeting shall be disposed of, irrespective of whether there is a quorum present or not.

7. The President, or in his absence the Vice-President, of the Society, shall preside at all meetings of the Society or of the General Council, and shall have a casting vote in the case

of an equal division of the members voting on any question before the meeting.

8. In the absence of the President and Vice-President, the meeting shall elect a Chairman from among the members present at the meeting, and he shall have a casting vote in the case of a tie.

9. The term of office of the President shall be seven years.

10. Six months before the expiration of a President's term of Office his successor shall be nominated by the General Council, at a meeting to be held by them, and the nomination shall be communicated to the General Secretaries by the Recording Secretary. Each General Secretary shall take the votes of the individual members of his National Society on the list of members forwarded to Adyar in the preceding November, and shall communicate the result to the Recording Secretary, who shall take those of the Lodges and Fellows-at-large attached to Adyar. A majority of two-thirds of the recorded votes shall be necessary for election.

11. The President shall nominate the Vice-President, subject to confirmation by the General Council, and his term of office shall expire upon the election of a new President.

12. The President shall appoint the Treasurer, the Recording Secretary and such subordinate officials as he may find necessary; which appointments shall take effect from their dates, and shall continue to be valid unless rejected by a majority vote of the whole number of members of the Executive Committee, voting in person or by proxy, at its next succeeding meeting, the newly appointed Treasurer or Recording Secretary not being present, nor counting as a member of the Executive Committee for purposes of such vote.

13. The Treasurer, Recording Secretary and subordinate officials, being assistants to the President in his capacity as Executive officer of the General Council, the President shall have the authority to remove any appointee of his own to such offices.

14. The General Council shall at each Annual Meeting appoint an Executive Committee for the ensuing year, of whom

at least two-thirds shall be members of the Council, and it shall consist of seven members, all residents of India, including the President as *ex-officio* Chairman, the Vice-President when resident in Madras, the Treasurer, and the Recording Secretary as *ex-officio* Secretary of the Committee, and three of the members of such Committee shall and three shall not be natives of India or Ceylon.

15. The Executive Committee shall, as far as convenient, meet once in every three months for the audit of accounts and the despatch of any other business. A special meeting may be called by the Chairman whenever he thinks fit, and such meeting shall be called by him, or if not by him, by the Recording Secretary, when he is required to do so, by not less than three members of the Committee, who shall state to him in writing the business for which they wish the meeting to assemble.

16. At a meeting of the Executive Committee, three members shall constitute a quorum.

17. The Committee shall, in the absence of the Chairman or Vice-Chairman, elect a Chairman to preside over the meeting, and in case of equality of votes the Chairman for the time being shall have a casting vote.

18. The President shall be the custodian of all the archives and records of the Society, and shall be the Executive Officer and shall conduct and direct the business of the Society in compliance with its rules; he shall be empowered to make temporary appointments and to fill provisionally all vacancies that occur in the offices of the Society, and shall have discretionary powers in all matters not specifically provided for in these Rules.

19. All subscriptions, donations and other moneys payable to the Association shall be received by the President, or the Treasurer, or the Recording Secretary, the receipt of either of whom in writing shall be sufficient discharge for the same.

20. The securities and uninvested funds of the Society shall be deposited in the Bank of Madras or such other Bank or Banks as the Executive Committee, T.S., shall select; and in countries outside of India, in such Banks as the President shall

select. Cheques drawn against the funds shall be signed by the President or by the Treasurer of the Society.

21. The funds of the Society not required for current expenses may be invested by the President, with the advice and consent of the Executive Committee, in Government or other Public securities, or in the purchase of immovable property or First Mortgages on such property, and with like advice and consent he may sell, mortgage or otherwise transfer the same, provided, however, that nothing herein contained shall apply to the property at Adyar, Madras, known as the Headquarters of the Society.

22. Documents and conveyances, in respect of the transfer of property belonging to the Society, shall bear the signature of the President and of the Recording Secretary, and shall have affixed to them the Seal of the Society.

23. The Society may sue and be sued in the name of the President.

24. The Recording Secretary may, with the authority of the President, affix the Seal of the Society on all instruments requiring to be sealed, and all such instruments shall be signed by the President and by the Recording Secretary.

25. On the death or resignation of the President, the Vice-President shall perform the duties of President, until a successor takes office.

#### HEADQUARTERS

26. The Headquarters of the Society are established at Adyar, Madras, and are outside the jurisdiction of the Indian Section.

27. The President shall have full power and discretion to permit to any person the use of any portion of the Headquarters' premises for occupation and residence, on such terms as the President may lay down, or to refuse permission so to occupy or reside. Any person occupying or residing under the permission granted by the President shall, on a fortnight's notice given by or on behalf of the President,

unconditionally quit the premises before the expiry of that period.

#### ORGANISATION

28. Every application for membership in the Society must be made on an authorised form, and must, whenever possible, be endorsed by two Fellows and signed by the applicant; but no persons under the age of twenty-one years shall be admitted without the consent of their guardians.

29. Admission to membership may be obtained through the President of a Lodge, the General Secretary of a National Society, or through the Recording Secretary; and a Diploma of Membership shall be issued to the Fellow, bearing the signature of the President, and countersigned by the General Secretary, where the applicant resides within the territory of a National Society, or countersigned by the Recording Secretary, if admission to membership has been obtained through the Recording Secretary.

30. Lodges and unattached Fellows residing within the territory of a National Society must belong to that National Society, unless coming under Rule 31.

31. When a Lodge or an individual Fellow is, for any serious and weighty reason, desirous of leaving the National Society to which it, or he, belongs, but is not desirous of leaving the Theosophical Society, such Lodge or individual Fellow may become directly attached to Headquarters, severing all connection with the National Society, provided that the President, after due consultation with the General Secretary of the said National Society, shall sanction the transfer. This should equally apply in the case of the admission of any new member, and due consultation with the General Secretary of the National Society in which that new member is residing should always precede any decision for his admission.

32. Lodges or Fellows-at-large, in countries where no National Society exists, must apply for their Charters or Diplomas directly to the Recording Secretary and may not,

without the sanction of the President, belong to National Societies within the territorial limits of which they are not situated or resident.

33. Any seven Fellows, in a country where no National Society exists, may apply to be chartered as a Lodge, the application to be forwarded to the President of the Society through the Recording Secretary.

34. The President shall have authority to grant or refuse applications for Charters, which, if issued, must bear his signature and that of the Recording Secretary and the Seal of the Society, and be recorded at the Headquarters of the Society.

35. A National Society may be formed by the President, upon the application of seven or more chartered Lodges.

36. All Charters of National Societies or Lodges and all Diplomas of membership derive their authority from the President, acting as Executive Officer of the General Council of the Society, and may be cancelled by the same authority.

37. Each Lodge and National Society shall have the power of making its own Rules, provided they do not conflict with the Rules of the Theosophical Society, and the rules shall become valid unless their confirmation be refused by the President.

38. Every National Society must appoint a General Secretary, who shall be the channel of official communication between the General Council and the National Society.

39. The General Secretary of each National Society shall forward to the President, annually, not later than the first day of November, a report of the year's work of his Society, and at any time furnish any further information the President or General Council may desire.

40. National Societies, hitherto known as Sections, which have been incorporated under the name of "The . . . Section of the T.S.," before the year 1908, may retain that name in their respective countries, in order not to interfere with the incorporation already existing, but shall be included under the name of National Societies, for all purposes in these Rules and Regulations.

## FINANCE

41. The fees payable to the General Treasury by Lodges not comprised within the limits of any National Society are as follows: For Charter, £1; for each Diploma of Membership, 5s.; for the Annual Subscription of each Fellow, 5s., or equivalents.

42. Fellows-at-large not belonging to any Lodge shall pay the usual 5s. Entrance Fee, and an Annual Subscription of £1, to the General Treasury.

43. Each National Society shall pay into the General Treasury 8d. (or its equivalent) for every active member on its rolls, and shall remit the same to the Treasurer on or before the first day of October of the current year, and the official year of the Society should close on 31st October, instead of 30th November.

44. In the event of the withdrawal from the Theosophical Society of any National Society or Lodge thereof, its constituent Charter granted by the President shall, *ipso facto*, lapse and become forfeited, and all property, including Charters, Diplomas, Seal, Records and other papers, pertaining to the Society, belonging to or in the custody of such National Society or Lodge, shall vest in the Society and shall be delivered up to the President on its behalf; and such National Society or Lodge shall not be entitled to continue to use the name, motto, or Seal of the Society. Provided, nevertheless, that the President shall be empowered to revive and transfer the said Charter of the seceding National Society or Lodge to such non-seceding Lodges and Fellows as in his judgment shall seem best for the interests of the Society.

45. The financial accounts of the Society shall be audited annually by qualified Auditors who shall be appointed by the General Council at each Annual Meeting for the ensuing year.

## MEETINGS

46. The Annual General Meeting or Convention of the Society shall be held in India in the month of December, at

such place as shall be determined by the Executive Committee in the June of each year. Lodges desirous of inviting the Convention and able to make due arrangements for its accommodation, shall send the invitation in the March of the current year, with particulars of the arrangements they propose to make.

47. That at least once in every seven years a World Convention of the Theosophical Society shall be held out of India, beginning with one in Europe at a place and date to be fixed by the General Council, but so as not to interfere with the Annual Convention in India.

48. The President shall have the power to convene special meetings of the Society at his discretion.

#### REVISION

49. The General Council, after at least three months' notice has been given to each member of said council, may, by a three-fourths vote of their whole number, in person, in writing, or by proxy, make, alter or repeal the Rules and Regulations of the Society, in such manner as it may deem expedient.

do. Mexican Section : "Counselors, Mexico."

## MINUTES

*Of a Meeting of the General Council, T.S., held at Benares  
on December 23rd, 1919, at 10.30 a.m.*

### PRESENT

Mrs. Annie Besant	... President, T.S.
Mr. J. R. Aria	... Recording Secretary, T.S.
„ A. Schwarz	... Treasurer, T.S.
Rai Purnendu Narayana Sinha	... General Secretary, Indian Section.
Mr. Hirendranath Datta	Member, General Council.

1. The Minutes of the Meeting of December 24th, 1918, having been previously circulated among the Members of the General Council, were taken as read and confirmed.

2. The Councillors' votes on the re-election of Miss F. Arundale, Mr. B. P. Wadia and Khan Bahadur N. D. Khandalavala were all in favour, so they were re-elected, as Additional Members of the General Council, for three years.

3. As sufficient votes on the proposals that were sent round among the Councillors in the Circular letter of the Recording Secretary dated August 7th, 1919, had not been received they were merely recorded as follows:

Four voted in favour of, and three against, the President's proposal of "National Vice-President".

One voted in favour of, and four against, the President's proposal of "National President".

Four voted in favour of, and seven against, the American General Secretary's amendment "a".

Two voted in favour of, and seven against, the American General Secretary's Amendment "b".

Nine voted in favour of Question "a" of the General Secretary, T. S. in England and Wales.

One voted in favour of Question "b" of the General Secretary, T. S. in England and Wales. The rest were neutral and unanswered.

None voted for, or against, the proposal of the General Secretary, T.S. in the Netherlands.

ADYAR LIBRARY BUDGET FROM 1ST NOVEMBER, 1919 TO  
31st OCTOBER, 1920
